

# Brady IDS EMEA

## Vendor Expectation – Environment

### Scope / applicability:

**Brady IDS EMEA is committed to conducting business in a manner that protects the environment and the communities in which we work.**

**We expect our suppliers to also apply the principles and practices of sound environmental stewardship.**

### **Suppliers should minimally:**

- be compliant with all environmental laws & regulations relevant for their products and activities.
- have an Environmental Management System that allows monitoring and that demonstrates continuous improvement in ecological footprint reduction. We encourage certification for and compliance with International Standards such as, including, but not limited to, ISO14001.
