

Electrical Product Solutions

Keeping workers safe from
electrical hazards

What challenges do you face? Let Brady help.

**An aging workforce. The changing economy.
Safety and compliance regulations. Improving efficiency.**

In order to bridge a growing knowledge gap, you need visually instructive labels, tags, and markers that take the guess work out of your electrical identification projects. If you're looking to streamline your spending, you need durable, long-lasting materials for industrial use – so there's no need to replace products repeatedly. To keep your employees safe you need innovation, like butterfly valve lockout devices, as well as user-friendly software to create and print important warning labels.

Whether you struggle with one or more of the issues and trends facing the electrical industry, Brady is your trusted source for solutions. With nearly 100 years of experience, we've gone the distance in the electrical industry – starting with our first wire marker books and cards to the complete solutions we offer today. From a variety of wire markers, to label printers and lockout/tagout resources, Brady can help you optimize performance and maximize efficiencies within your facilities and processes.

Wire & Cable Identification

Easily identify and track wires and cables

You need to quickly identify the wires and cables at your location, and you need to make sure you can read the critical information – each and every time. Brady has created a host of wire and cable identification products dedicated to industrial applications for this purpose.

Our wire and cable marking solutions are proven to withstand liquids, abrasion, harsh environments, and more. They are available in a multitude of sizes, colors, and configurations to make sure your wire & cables are distinguished with clear, legible identification.

Products Include:

■ Wire Labels & Heat Shrinkable Sleeves

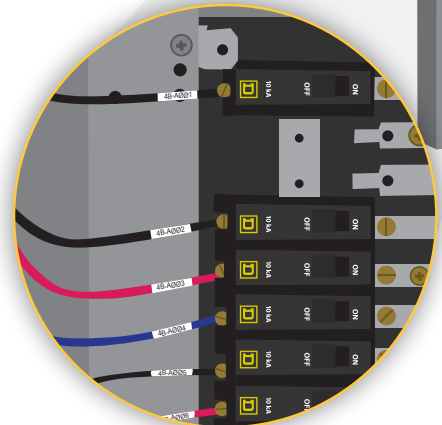

Our self-laminating labels feature a white printable area with a clear "tail" that wraps and overlaminates, the legend that provides superior resistance to abrasion, solvents, water, oil and dirt. Our PermaSleeve® Wire Marker Sleeves are a full-circle design that provides fast, permanent wire marking. Use with a Brady printer to produce clear, legible text for reliable wire identification.

■ Tags

Brady offers a variety of cable tags to identify power and ground cables, cable bundles and harnesses, a/v cables, and more. Our materials offer excellent tear, solvent, and heat resistance.

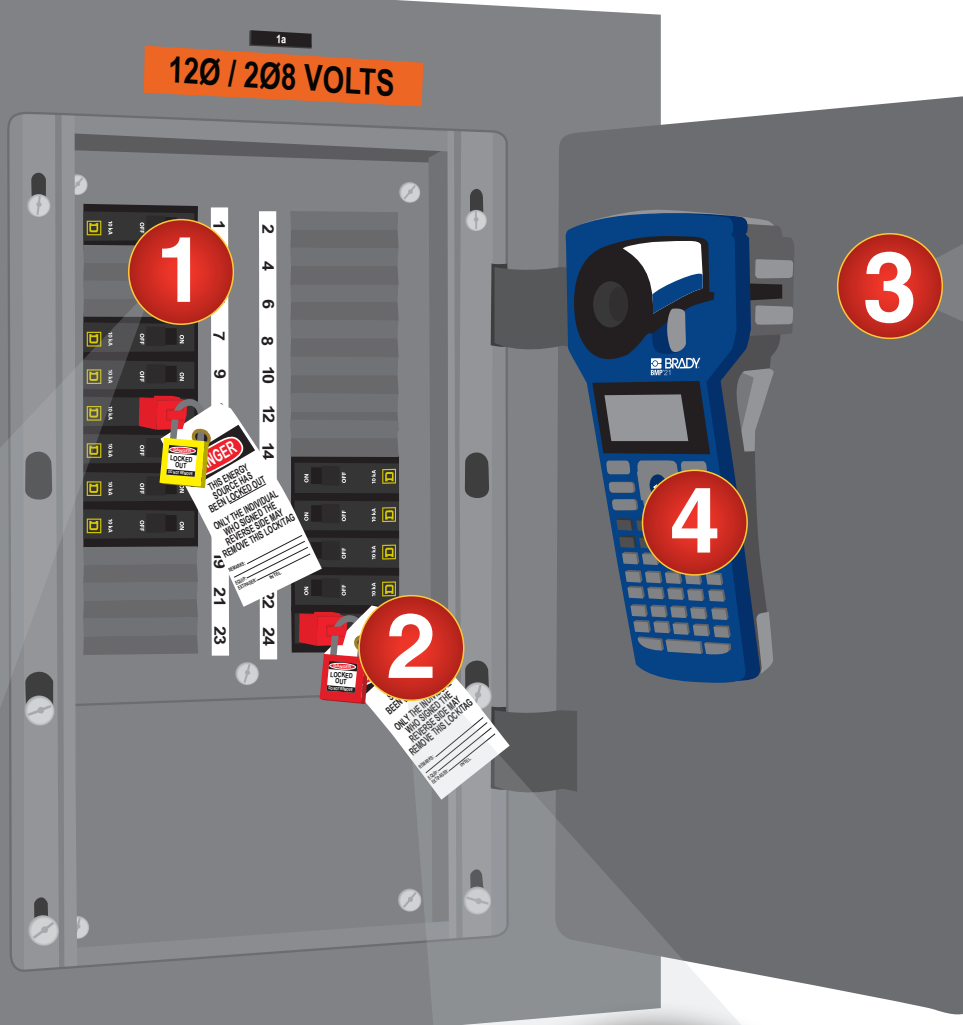

■ Wire Marker Books & Cards

Our slim, pocket-sized Porta-Pack® Wire Marker Books are designed for fast and convenient wire identification in the field. They're available in the most popular sleeve sizes, with a variety of materials and styles available. Brady's wire marker cards are designed with a clear overlaminate for added durability and are available with a blank legend, with pre-printed numbers and letters, and with electrical legends and symbols. The blank write-on wire marker cards can be used to customize or color code your wire marker applications.

Arc Flash

Inform employees about electrical hazards to keep them safe

One of your main priorities is keeping your employees safe. For good reason: In addition to shock, workers may be seriously injured - sometimes fatally - from arc flash. To help prevent this, Brady offers visually instructive labels that help you become compliant and help reduce the risk of arc flash injury.

Choose from a variety of label formats for both write-on and pre-printed styles. For a complete custom solution, Brady also offers training aids and a range of make-it-yourself printers.

Products Include:

- Pre-printed and write-on labels
- Training aids and work permits
- Custom printing solutions

Lockout / Tagout

Meet energy control standards and remain compliant

With lockout / tagout violations being the number one most cited violation for general industry, remaining compliant is essential to your organization. To help you meet compliance standards Brady offers a broad range of durable, easy-to-use lockout devices that cover most electrical applications.

Products and Software Include:

- Padlocks and tags
- Lockout devices
- Group lockout devices
- Kits and stations
- Training materials
- Procedure-writing software

Services:

- On-site visual lockout procedure-writing services and audits
- On-site lockout/tagout awareness seminar
- Lockout training online eLearning courses
- Lockout / tagout webinars

Printers

Keep your visual information professional and up to date

You need panel labels, directional signage, etc. that are easy-to-understand, last a long time and professional looking. Brady offers a complete line of label printers, designed to help you create labels and wire markers faster and more efficiently. We have a printer solution for high and low volume printing.

Printing Solutions Include:

- No waste, no hassle desktop solutions
 - BBP®31 label printer
 - GlobalMark®2 label printer
- Lightweight, easy-to-use portable solutions
 - BMP®71 label printer – prints up to 2" wide
 - BMP®51 label printer – prints up to 1 ½ " wide
 - BMP®21 label printer – prints up to ¾" wide (fits in tool belt for easy access)
- All of our printers print on a variety of our high performance label materials
