

Label, Rinse, Repeat

B-403 Dissolvable Paper Identification Labels

Get out of a sticky situation with Brady's B-403 water dissolvable labels. They're an ideal solution for temporary applications when easy removal, re-identification or limiting waste matter. Use these labels in a variety of applications like in-process labeling, specimen labeling, temporary asset tracking and animal housing identification, or even try them at home. Compatible with most Brady printers and software, these labels allow for easy creation of fixed or dynamic information — or they'll take your marker, too. Other features include:

- **Dissolvable:** Labels completely dissolve in warm water within thirty seconds, leaving no adhesive residue
- **Labor Reduction:** Eliminates labor required for label removal and allows for easy re-identification
- **Print-on-Demand:** Process flexibility – control both design and production onsite
- **Pressure-Sensitive Adhesive:** Quick and easy application with no additional hardware required
