

B85 parts: change in chip programming

B85 parts: change in chip programming

Brady is changing the way B85 parts are programmed for use on the BBP85 Sign and Label Printer. The consumables with new chips will ship out from July 2017 onwards. For efficient stock management, the new parts can be identified by the yellow label on the packaging and the cartridge.

Customer experience with the new B85 parts will not change, and the price of the parts as well as their order references and article numbers remain the same. This change is a pure manufacturing change to standardise the smart cell database and programming for B85 parts.

The current B85 parts (that carry a white label on the package and the cartridge) will obviously remain compatible with the current BBP85 printers.

BBP85 Label Printer: Big, bold and better than ever - GET YOUR MESSAGE NOTICED!

The BBP™85 Sign and Label Printer is a thermal transfer 300 dpi benchtop printer to create bold, multi-coloured custom visuals up to 254 mm wide. It features a large touchscreen and intuitive, easy to use interface, enabling anyone to create signs quickly and easily.

The printer has a broad selection of material options, including vinyl, polyester, reflective, glow-in-the-dark and pre-printed sign headers. With true “walk up and print” ease of use, users can instantly create high quality, multi-coloured eye-catching visuals.

Big Output. Little Fuss

- Unmistakably large visuals up to 254 mm wide
- Simple touch-screen interface for stand-alone use, or print from your PC with MarkWare™ Software
- Timesaving label design apps to create pipe markers, safety signs, right-to-know labels, and more!

Bold Multi-Colour Printing

- Print common sign formats even faster using pre-printed sign header supplies
- Ethernet port for easy printer networking

Best-of-the-Best Materials

- Huge selection of 101.60 mm wide to 254 mm wide industrial grade outdoor materials
- Pre-printed sign header supplies for CLP (GHS), arc flash and OSHA or ANSI safety signs, which means only one print pass!
- All materials are uniquely designed with memory cells that communicate information to the BBP™85 Sign and Label Printer.
