

## BBP®12 Label Printer

[BradyID.com/bbp12](http://BradyID.com/bbp12)

Efficiency,  
versatility and  
performance –  
all packed into  
one multi-use  
label printer.

### **BBP®12** LABEL PRINTER

With high speed printing, a small footprint and a simple, user-friendly design, the BBP®12 Label Printer packs a lot of punch into one compact tool.

From tissue cassettes to slide and cryo tube, the BBP12 label printer offers a variety of high performance materials.

Plus, Brady offers a variety of thermal transfer label materials engineered to survive and perform in the harsh chemicals and range of temperatures of the lab environment. These durable labels remain legible and in place when put to the test.

#### **Simple, Efficient Design**

- Specifically designed small-core media rolls and ribbons provide fast installation and reduce change-over time
- Compatible with 3"-core media rolls if using the external media holder (sold separately)
- Easy set-up & calibration
- Compact size won't clutter your workplace or bench

#### **Performance**

- Sharp 300 dpi printing on labels up to 4" wide
- Fast print speed – up to 4 inches per second
- Over 800 varieties of labels, including external-feed bulk rolls and custom parts
- Centering ribbon spindle virtually eliminates ribbon wrinkle

#### **Complete the Brady BBP®12 Printing System with**

- Brady LabelMark™ Labeling Software

For more information, call 800-356-9951 to speak  
to a Lab Product Specialist.

- B-461 – Ultra-thin polyester label with clear overlamine tail that protects print and allows liquid levels to be visible.
- B-492 – FreezerBondz™ ultra-thin white polyester label for labeling of frosted/frozen or room temperature vials, tubes and canes. Superior chemical and abrasion resistance.
- B-482 – White polyester label with superior resistance to tissue processing chemicals and embedding procedures. Use with the BSP™31 Label Attachment system for pre-process tissue cassette identification.
- B-481 – White StainerBondz™ Polyester with extreme chemical-resistant that withstands the rigors of typical deparaffinization including ethenol, xylene and H&E staining process.
- B-499 – Permanent Adhesive - Thick white nylon cloth for easy handling and conformability.
