BSP™45 Automated Sleeve Applicator vs. Manual Wire Sleeve Application

BradyID.com/bsp45

When it comes to the tedious, time-consuming task of applying sleeves to wires, Brady has a faster and more cost-effective solution: the BSP™45 Automated Sleeve Applicator. By automatically removing sleeves from the liner, opening and applying them to the wires, it eliminates the need of hand-applying hundreds of sleeves.

See What You Could Save in 3 Steps

By answering 3 simple questions, you can determine how much you could save with the BSP™45 Automated Sleeve Applicator instead of manually applying sleeves.

It's easy! Just enter the following and we'll calculate the rest.

Cost Details*

	Manual Application	BSP™45 Application
Time to Apply Sleeve:	<input type="text"/>	<input type="text"/> seconds
Hourly Labor Cost:	<input type="text"/>	<input type="text"/> per hour
Sleeves Applied Annually:	<input type="text"/>	<input type="text"/> sleeves/year
Annual Time Spent:	<input type="text"/>	<input type="text"/> hours/year
Annual Labor Costs:	<input type="text"/>	<input type="text"/> per year
BSP™45 Applicator Lease:	<input type="text"/>	<input type="text"/> per year
Total Annual Cost:	<input type="text"/>	<input type="text"/> per year

With the proven time and cost savings, it's easy to see how anyone who frequently uses and applies wire sleeves will enjoy the improved ease and efficiency of the BSP™45 Applicator.
