

# Stay stuck and stay seen, even at sea

## BS 5609 Marine Labels (B-2585)

You've kept your production processes moving to get your product out the door, don't let a label on the final product sink your efficiency. With the BS 5609 Marine Labels, your labels will stay stuck and seen, even at sea.

**When paired with our series of BradyJet Inkjet Printers, you get clear, full-color labels that are BS 5609 certified.**

It's all in the unique BradyJet printing process that, unlike costly laser printers, doesn't use heat that can break down adhesives and clog up your printer that leads to expensive maintenance and downtime. This process also means you can print high-resolution images that your customers need.

**With this combination of material and printing innovation, you also get:**

- A variety of label sizes to meet your diverse identification needs
- Identification that keeps you GHS compliant for global marine transport
- A complete solution with label creation software so you can make custom labels with ease
