Precision data capture for every workflow.

BARCODE READERS

HANDHELD BARCODE READERS

GET BETTER VISIBILITY
through your facility

Pen and paper manual entry leads to costly errors. Replace traditional data entry and get more control and visibility as goods enter and exit your facility. Easily programme our barcode readers to fit your workflows and navigate complexities. Sort and arrange data exactly how you want with powerful data parsing feature. Verify the accuracy of shipments, locate misplaced goods and eliminate incomplete shipments or inaccurate data. Scanning made simple, with the most helpful support in the industry.

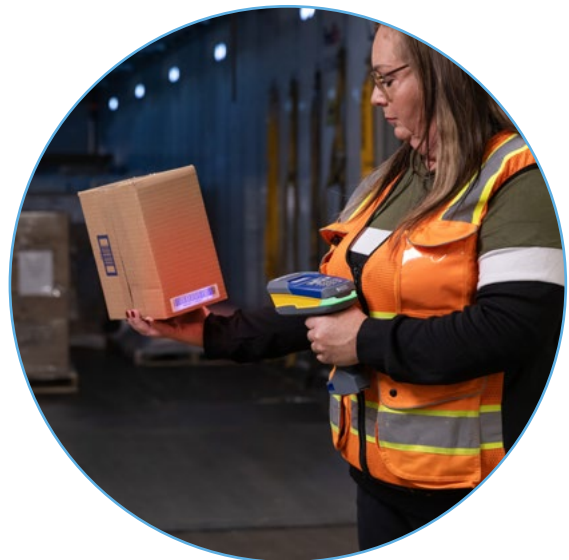

CONNECT YOUR OPERATIONS
seamlessly

AUTOMATE YOUR BUSINESS
with accuracy

STREAMLINE YOUR WORKFLOWS
sustainably

BRADY

GET BETTER WITH BRADY

Automate and simplify workflows with digital data capture

From the shop floor to the cloud - and everywhere in between - Brady helps you discover more ways to get better connected to your operations. Troubleshoot with more accuracy. Forecast, organise and scale across facilities. Make decisions in real-time. From automation to analytics, get everything you need to get started - then scale. Get better with Brady Intelligent Solutions.

INVENTORY MANAGEMENT

- Enable "living" interactive database
- Real-time inventory levels
- Minimise misplacement of goods
- Accurately identify products

KIT VERIFICATION

- Custom scanner to fit workflow
- Step by step instructions
- Accurately fulfill orders
- Prevent costly rework

SCAN & PRINT

- On-board data parsing and editing
- Combine multiple labels into one
- Accurately recreate barcodes
- Seamless Brady interface

PACKOUT

- No guessing, get confirmation
- Prevent costly errors
- Faster workflows
- Eliminate downstream costs

Seamlessly scan tough to read surfaces with ease
Tiny, shiny, curvy applications, converge multiple scans into one barcode - or whatever the job demands - we have you covered

Open it up. Power it on.

GET IT DONE

Start up in seconds. Do data differently.

Our high-performance handheld reader series has everything you need to optimise your workflows and modernise your overall operations. All of our handheld readers are highly capable and designed to be super simple to use. Go from out of the box to your first scan in seconds. One configuration code and you're good to go!

START UP IN SECONDS

Take the complexities out of configuration

We've designed configuration to be easy and straightforward with a web-based configuration tool. Sort and arrange data exactly how you want with the powerful data parsing feature. Get up and running quickly and maximise your productivity.

Select what you need for your workflow

Transfer to configure setup with one easy scan

Programming doesn't have to be painful

We've made scanners that seamlessly fit your workflow - not the other way around. With the help of Brady's unrivalled tech support, you can change any setting on the scanner to suit your needs. For more advanced workflows, take advantage of our dynamic JavaScript platform.

► Batch mode

► Bluetooth

► Communication mode

► Custom terminal settings

► Data formatting

► Motion detection/ continuous scan

► Smartphone screen reading enhancement

► DPM scanning enhancement

► Vibrate

► Volume

► Scan delay

► Symbology selection

Get help from real helpful humans with Brady Customer Support
Experts are standing by to help when you need it. Keep your business moving with the most helpful support in the industry.

DISCOVER THE POWER OF BRADY BARCODE SOLUTIONS

To meet our customers' diverse needs, we offer a comprehensive range of barcode readers tailored to various requirements. Whether you're tackling simple tasks or complex workflows, we have the perfect solution for you.

Scan everything that comes your way

Experience the unparalleled capabilities of our proprietary **Cortex Decoder** technology, which fuels our patented high-performance scan engine, capable of reading at extraordinary lengths and speeds. Enhanced by our innovative **Dual-Field Optics**, our solution enables rapid scanning of barcodes in all sizes. It effortlessly conquers even the most challenging surfaces, whether shiny or hard to read. With this advanced technology at your fingertips, enjoy the freedom to scan everything that crosses your path, empowering your team with the flexibility and efficiency they need to excel.
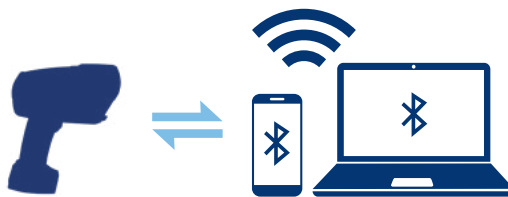

NEAR ZERO MISS

99.995% reliability
Read more about Cortex Decoder on **page 23**

Unlock the power of your data anywhere

CAPTURE DATA

EXCHANGE DATA

MANAGE DATA

Sometimes, scanning a code and sending the data as a keyboard input is not enough. All our barcode readers except the CR950 include ScanFlex JS, a unique feature that allows the reader to manipulate the data and take decisions before sending or storing it. With ScanFlex JS, you can effortlessly:

• Read and manipulate data stored within the scanner memory, ensuring swift access to critical information whenever you need it.

• Gain access to data transmitted by your host systems, allowing for seamless integration with your existing infrastructure.

• Transmit data directly to your host computer, facilitating smooth communication and enabling quick decision-making processes.

BRADY

How to choose your barcode reader?

When selecting the optimal barcode reader, it's essential to assess your workflow. Whether stationed at a desk or on the move, this distinction helps determine whether wireless or wired connectivity is preferable.

Considering the need for hands-free operation may influence the decision for a stationary reader or a handheld reader with a mounting stand. The requirement for versatility in scanning barcodes of various sizes and distances underscores the importance of advanced optics.

V4500 Barcode Reader

Industrial design. Intuitive functionality

Automate and simplify workflows with digital data capture

The all-new V4500 rugged industrial scanner is purpose-built for the unique challenges of manufacturing and warehouse tasks, enduring even the harshest conditions.

The dynamic interface with the automated keyboard feature allows you to change settings right on the scanner to optimise productivity - and shows the full process of each scan on-screen to eliminate errors and reduce risk.

- **Go from setup to first scan in seconds:** Automated keyboard device plus a dynamic user interface
- **Take the pain out of programming:** Easily connect to the cloud and your ERP system
- **Industrial-grade rugged durability:** Withstands 2.4 metre drops (MIL-STD-810G)
- **All-day battery life:** Lasts a full shift with over 75,000 scans and stay productive with inductive charging

- Adapts to your workflows with multiple programmable buttons
- QuickConnect to host PC via base station, dongle or DirectConnect
- Get full control of scanner and data with powerful JavaScript platform
- Store data for later offload in batch mode
- Enhance data security and extend battery life with Bluetooth® 5 Low Energy
- Proactive management with smart battery with built-in power gauge
- Compatible with Android, iOS and Windows (via USB or Bluetooth)
- **Light Grey Barcode Reader:** PVC-free CodeShield® plastics stand up to harsh chemicals, recommended in healthcare or clean room environments
- Charging station can locate misplaced scanner via Bluetooth at a range of 10 m
- CodeShield level 3

Light Grey Handheld Barcode Reader with Charging Station and Palm Barcode Reader

Code Reader™ 5200

Read barcodes in any orientation. Hands-free operation

Small but mighty. Powerful scanning performance

- High-speed, omnidirectional reading of 1D and 2D barcode symbologies
- Presentation reader with easy hands-free operation and enhanced motion detection
- Compact footprint with adjustable reading direction
- Quickly reads barcodes on mobile device screens
- User feedback with LED and audible tone
- Data parsing/formatting eases system compatibility
- Customisable driver license formatting lets users target specific information to populate fields on loyalty forms, credit card applications, and more
- Extended read ranges
- Efficient power consumption

Barcode Reader

CORTEXDECODER

The fastest, most accurate barcode scanning software available

CortexDecoder is found at the heart of all Code and Brady's barcode readers, giving each the ability to decode 40+ barcode symbologies faster, and more accurately than anything else on the market.

CortexDecoder is our innovative decoding platform developed by experts with decades of experience delivering purpose-built barcode scanning solutions. Around the world, OEMs, enterprise application developers, consumer apps, and fast-paced industries have benefitted from the power of CortexDecoder.

Features include:

NEAR ZERO MISS 99.9995% ACCURACY

Near zero-miss (99.9995%) reliability

Worldwide proven accuracy is a hallmark. CortexDecoder reads even the most complex barcodes; secure, dependable, reliable, and with enterprise-grade performance.

FLUENT IN 40+ CODE TYPES

Most supported barcode symbologies

Code CortexDecoder offers the most advanced bundle of decoding algorithms in the industry.

XSPEED™ DECODE UP TO 6X FASTER

Industry-leading scan rates

Read rates that are up to 6x faster than the competition - even when barcodes are damaged or distorted.

SCAN SMALL SCAN ALL DAMAGED, MULTIPLE, MOVING

Superior on poor quality barcodes

Performance beyond the expected. Torn, faded, or smudged barcodes, on reflective surfaces or in low light: simply put, we just read barcodes others can't - quickly, accurately, and dependably.

SCAN FLEX JS

Unrivaled professional support

Code Professional Services make SDK integration easy. Our engineers and experts work directly with your team for optimal results.

Our experts are here to work with you through any embedded application. CortexDecoder software delivers consistent decoding excellence on any platform.

CODESHIELD® DISINFECTANT READY PLASTICS

Regardless of the setting, CodeShield Plastics offer 3 levels of protection to meet your needs

Molecularly dense and robust, CodeShield enables Code Reader barcode scanners to endure routine disinfection with common sanitisers.

All plastic isn't fantastic

CodeShield rises above innovations from some of its competitors thanks to a densely packed polymer structure that typical disinfectants can't penetrate. Unlike anti-bacterial plastics, CodeShield Plastic withstands healthcare-grade infection control protocol. Basically, users collect data, not germs.

Be on point...

Whether it's the point of sale or point of care! The COVID-19 pandemic propelled Code Barcode Readers into high-volume stores and manufacturing facilities.

Why? Because CodeShield plastics can be wiped down continually during shifts without:

• Degrading, cracking, and prematurely failing (leaving you with replacement costs).
• "Yellowing - dingy devices don't project cleanliness or a positive image.

CODE SHIELD®

DISINFECT CONFIDENTLY

L1	L2	L3
Good	Better	Best

3 Increasingly Robust Levels of Disinfectant Ready Plastics

BRADY

Level up!

CodeShield Plastics are offered in three grades: Levels 1, 2, and 3. This variety frees buying committees and key users to select the proper scanner for their firm's infection control needs without overpaying.

Levels 1–3 enable CodeShield-equipped devices to withstand three to 20 approved cleaning chemicals, making this the broadest range in the industry. But, it's about people, right? Ultimately, many operations leaders replaced devices with anti-bacterial plastics for CodeShield ones. Doing so shielded patients, customers, and employees from viruses and infectious diseases, e.g., COVID-19, C. diff (Clostridioides difficile), and MRSA.

Different sides of the same shield

Level 1, 2 and 3 CodeShield Plastics are available on our handheld and hands free barcode readers. Different levels for different styles give virtually any firm an edge in protecting users from contact transmitted illnesses.
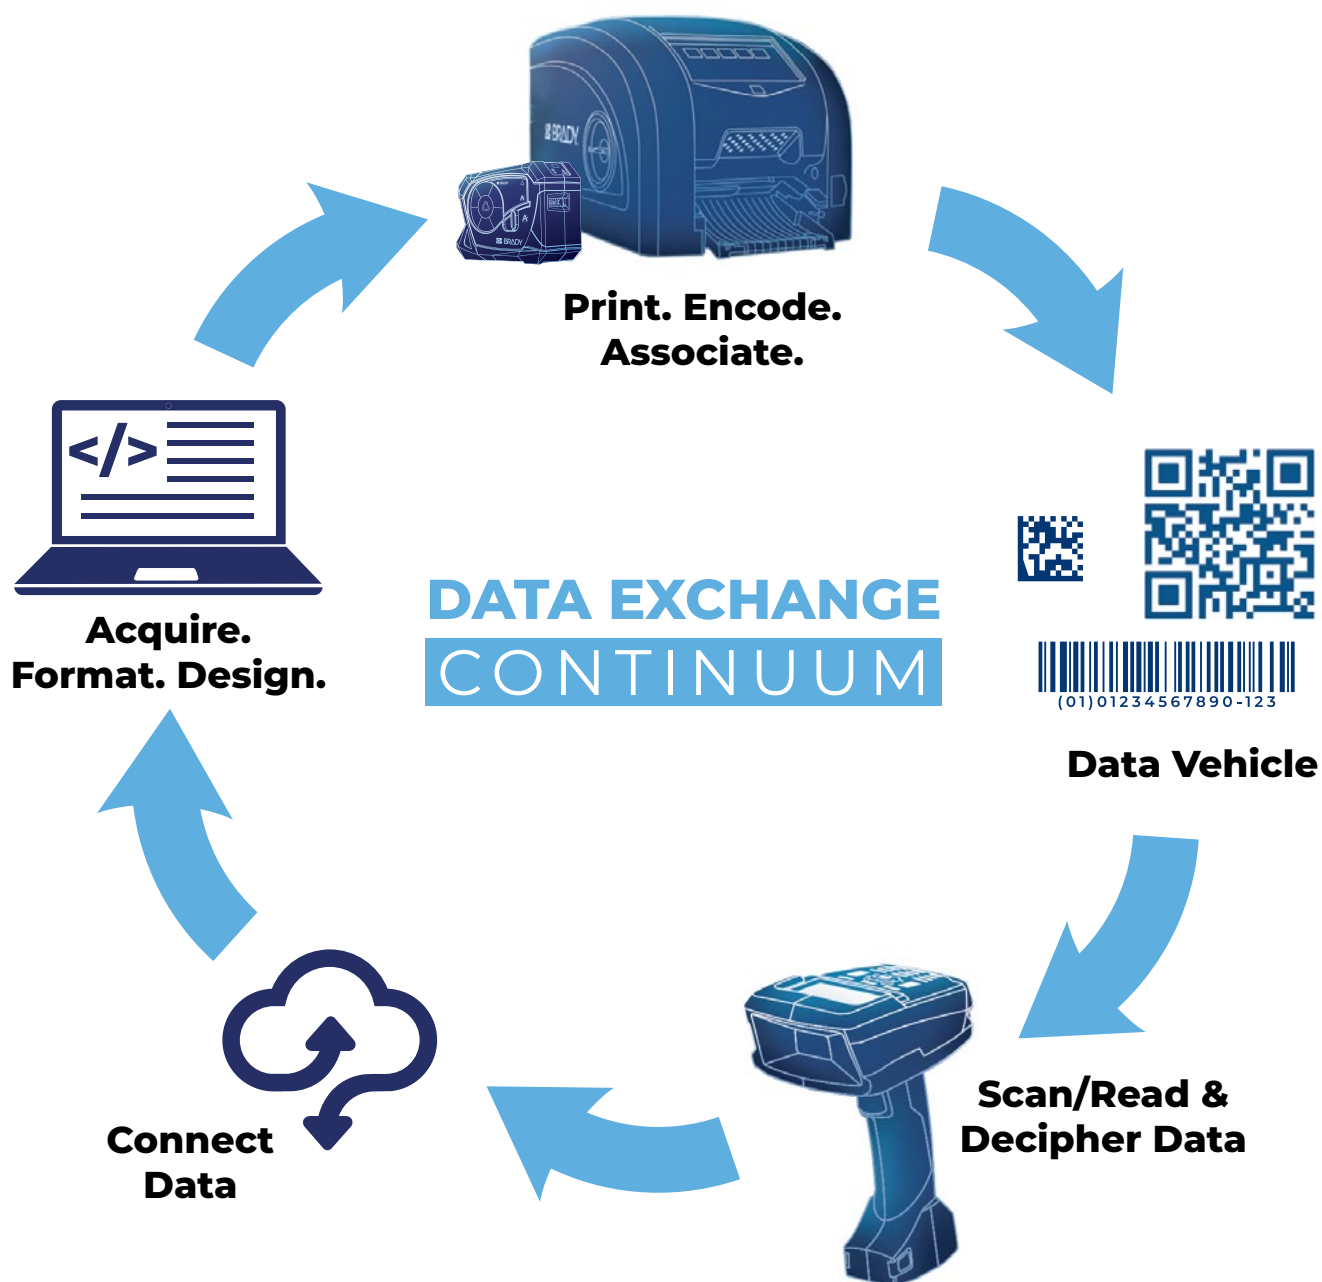

20 approved level 3 cleaners

- Clorox® Non-Bleach Disinfecting Wipes
- 0.5% hydrogen peroxide solution
- Oxivir® Tb Wipes
- 3% hydrogen peroxide solution
- Sani-Cloth® Plus Germicidal Wipes
- 91% Isopropyl Alcohol Solution
- MetriCide® 28 Day Solution (2.5% glutaraldehyde)
- CaviWipes® Disinfecting Towelettes
- Virex® II 256 Disinfectant Cleaner
- Cidex® OPA

- Sani-Cloth® HB Germicidal Wipes

Portable Printers | Portable is more powerful than ever

▶ Get the rugged durability you need with the M210, M211, M511 and M410.

▶ Connect seamlessly on the go with the M610, M710 and M611.

▶ Stay precise & organized in the lab with the M210-LAB and M510.

Benchtop Printers | Effortless operation. Precision perfected. Downright durable.

▶ Safety, Visuals and Facility ID Printers: Built for all - for every message that matters.

▶ Product, Wire and Lab ID Printers: Powerful production for precise industrial printing.

## Brady Software | We make it easy to make premium labels in no time.

▶ Unleash the full potential of your Brady label printer with our Brady Workstation label creation software.

▶ DESIGN. PREVIEW. PRINT. Any way you choose. Right from your phone or tablet. All with the Express Labels Mobile app.
