

Easy Prevention of Accidental Connection

BatteryBlock™ Battery Cable Lockout - Commercial Vehicle

Whether you need to eliminate the surprise of an accidental battery connection, or have visual assurance that the electrical system is disconnected, the BatteryBlock Battery Cable Lockout is an ideal solution. This innovatively designed device keeps your battery cable locked out throughout all of your maintenance projects. It's all in the **non-conductive post and cover that prevent the cable from slipping or being pulled out of the device**. Other helpful features include:

- **Low-profile design** means it easily fits into your tight working areas
- **Two size options** to fit a variety of cable sizes and shapes
- **Space for up to two padlocks** so your device stays secured throughout maintenance
- **Input options for your different cables** — large size fits terminal end and inline connectors
