Managing your inspections

has never been easier

5 ways the BradyConnect Inspection Manager system can make your life easier

See everything

Display all of your tasks, corrective actions and asset information online and with mobile apps.

Visual proof

Scan barcodes, RFID or NFC tags to verify assets and locations.

Pre-define answers

Set-up questions in advance and automate follow-up tasks.

Resolve all corrective actions

Create, manage, re-assign, and resolve corrective actions.

Scanners and readers

The Inspector app can read barcodes, QR codes, NFC and RFID tags.

To keep your facility safe, compliant and productive, BradyConnect helps you efficiently identify and track assets, schedule and complete inspections and resolve corrective actions.
