

VITAL IDENTIFICATION SOLUTIONS FOR SAFER HOSPITAL FACILITIES

SIGNS, SERVICES AND SPECIALIZATION FOR EVERY CHALLENGE

ACCREDITING ORGANIZATION READINESS WITHOUT THE GUESSWORK

➤ From facility identification to your lockout tagout program, Brady has your solution

Time is of the essence in a hospital. For safety and maintenance managers, that means getting people where they need to go, keeping the utilities running and resolving repairs safely. Brady helps hospitals devise comprehensive systems of identification, from proactive solutions to critical markings and safety measures required by accrediting organizations (AOs). All of which are designed to help you run a facility that's compliant, safe and efficient.

Maintain Accreditation Confidently

The Joint Commission and other AOs use OSHA, ANSI and the NFPA to guide enforcement. Brady solutions are built specifically for compliance with these organizations.

Access Experts Easily

From product selection and troubleshooting assistance to the expertise of the Brady Safety Services team, you have access to the very best in time-saving, compliance-driving support.

Mark It All Clearly

Whether it's stock signage, on-demand label creation or customized marking, we'll help you find the solution or system that will help you mark just about any space, surface or asset in your facility.

FROM BOILER ROOMS TO BEDSIDES

➤ Identify everything worth protecting

Our wide range of identification solutions streamline communication, operations and compliance in rooms and areas throughout your hospital.

ASSET AND EQUIPMENT ID

Track, maintain and protect valuable property with CMMS-friendly barcode and informational labels.

Identification solutions:

- ▶ Medical equipment labels
- ▶ IT asset labels
- ▶ Maintenance tags
- ▶ Equipment nameplates

LOCKOUT TAGOUT

Comply with OSHA Standard 1910.147 with easy-to-use software and devices plus expert services.

Identification solutions:

- ▶ Lockout padlocks
- ▶ Application-specific devices
- ▶ Procedure-writing services
- ▶ Program management software

WAYFINDING SIGNS AND LABELS

Use bold visual cues to effectively communicate safety information, hazards, protocols and directions.

Identification solutions:

- ▶ Exit and emergency signs
- ▶ Glow-in-the-dark tape
- ▶ Room and floor number signs
- ▶ Outdoor lot and parking signs
- ▶ ID badge printers

UTILITIES MARKING

Ensure everyone knows what's flowing and where during maintenance and emergencies.

Identification solutions:

- ▶ Pipe markers
- ▶ Valve tags
- ▶ Electrical panel ID
- ▶ Wire and cable labels

WAYFINDING, ASSET AND EQUIPMENT ID

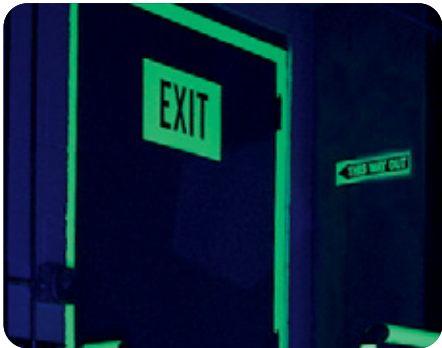

Seamless operations start with clear information

From guiding workers and visitors safely to precisely tracking and maintaining critical equipment, Brady provides the identification solutions you need to enhance patient and staff safety, maintain operational efficiency, and simplify regulatory compliance.

Put the right information right where you need it

OPTIMIZE NAVIGATION
Improve operational flow and enhance safety with consistently marked pathways, destinations and directions. Clear, intuitive wayfinding signage reduces frustration for patients and visitors while ensuring staff can quickly access critical areas.

ENSURE EMERGENCY READINESS
Clearly marked emergency exits, evacuation routes and fire safety information are vital for safe egress and maintaining compliance. Photoluminescent solutions provide critical guidance in low-light conditions.

STREAMLINE ASSET MANAGEMENT
Precise asset identification is the foundation of efficient maintenance, inventory control and a CMMS. Give teams the ability to instantly locate, track and manage every piece of equipment, from laptops to tools.

MAKE ANYTHING CUSTOM
Can't find exactly what you need? We thrive on solving unique challenges. We'll work with you to design and produce custom identification solutions tailored precisely to your specific requirements, no matter how specialized.

Wayfinding and Safety Signs | Get everyone where they need to go, safely

ROOM AND FLOOR
Clearly designate room numbers and floor levels in stairwells, hallways and near elevators.

OUTDOOR LOTS
Control parking and traffic with signs, barriers, bumps and more that are durable and effective.

FIRE SAFETY
Identify exits, equipment and more to stay safe and up to code.

GLOW TAPES
Comply with IBC, NFPA and Joint Commission standards for no-power guidance.

Asset and Equipment ID | Automate processes and protect people and assets

DURAGUARD® TAGS
Our most popular, cost-effective option to track electronics, equipment and tools.

CUSTOM ASSET LABELS
Easily design and produce asset labels tailored to your CMMS, branding and environment.

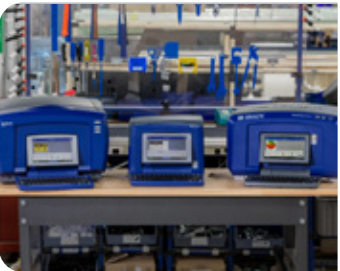

MACHINE SAFETY LABELS
Communicate warnings and provide direction to operators and employees.

INSPECTION/REPAIR LABELS AND TAGS
Identify and track the calibration, testing and repair of tools and equipment.

Printers and Labelers

Create labels when you need, where you need

BENCHTOP PRINTERS
Produce high-quality barcode labels and colorful signage in high demand and volume.

PORTABLE LABELERS
Empower technicians to tag equipment and identify wires and cables where work happens.

ID Badge Printers

Secure your facility with on-demand badge printers

PAT100 SERIES
Streamline access, manage visitors and identify personnel for a safer, more controlled hospital environment. Options for holographic security features, double-sided printing, access control and more.

PAI300 SERIES

UTILITIES MARKING AND LOCKOUT TAGOUT

Mitigate risk and maintain compliance

Every pipe, valve and energy source plays a vital role in maintaining continuous operations and a safe environment. Brady provides durable, compliant solutions for clearly identifying utility systems, safeguarding staff during maintenance, and ensuring critical systems are understood and controlled.

Empowering safety and efficiency with every solution

OPTIMIZE SYSTEM MANAGEMENT

Clear identification of pipes, valves and electrical systems is crucial for efficient maintenance, troubleshooting and daily operations. Reduce errors and enhance efficiency by ensuring every component is labeled for compliance and readability.

ENSURE LOCKOUT TAGOUT COMPLIANCE

Protecting maintenance teams and contractors from hazardous energy during servicing is non-negotiable. Brady's full lockout tagout offering helps you meet OSHA regulations and AO requirements to keep workers safe and productive.

MAINTAIN CLEANER, MORE ORGANIZED ENVIRONMENTS

Spills and leaks disrupt operations and create hazardous conditions. Proactively respond to any mess with a comprehensive absorbent program, ensuring a continuously clean and safe environment for your staff and facility.

THE DIFFERENCE IS IN THE DURABILITY

Every Brady sign, marker, label and tag is engineered for the specific environment it faces. From withstanding the outdoors to harsh cleaners to blistering surfaces, you can rest assured the identification you apply will be legible and effective for years to come.

Lockout Tagout | Maintain OSHA 1910.147 compliance during maintenance and repairs

VELOCITY® PADLOCKS
Track issued locks and save time with color-matched locks and keys with engraved key codes.

LOCKOUT TAGS
Prevent accidents by providing clear warnings and essential information right at the point of control.

DEVICES
Access a wide range of devices purpose-built to isolate energy at any valve or electrical isolation point.

GROUP LOCKOUT
Use hasps, lock boxes, kits and stations to comply with OSHA 1910.147(f)(3) for groups of workers.

Facility Maintenance | Proactively manage hazards and elevate everyday safety

ABSORBENTS
Quickly contain and clean spills with absorbent kits and centers for regular maintenance and emergency spill control.

TOUGHSTRIP® TAPES
Define walkways, work areas, restricted zones and potential hazards on floors.

LEAN/SS LABELS
Clearly identify tools, parts and supplies in carts, drawers and shelving.

CAUTION SIGNS
Mark hazards with adaptable signs, stanchions and stands for wet floors and hazardous areas.

Utilities Marking | Ensure safety, clarity and efficiency across your hospital's infrastructure

PIPE MARKERS
Clearly identify pipe contents and flow direction to ASME A13.1 color, size and wording specifications.

VALVE TAGS
Provide critical information for every valve, and tie each back to lockout procedures for faster, safer energy isolation.

ELECTRICAL LABELS
Organize electrical systems with durable labels for panels, "to/from" feeds, breaker ID and safety messaging.

MEDICAL GAS ID
Get specific labeling for medical gas valves and lines in patient and operating rooms.

SAFETY SERVICES AND SOFTWARE

Create, manage and sustain your safety program while maximizing resources

From resource constraints to complicated regulations, hospitals face a wide variety of challenges when it comes to creating and maintaining compliant safety programs. The Safety Services Team and software solutions from Brady provide the specialized expertise to navigate regulations, mitigate risks and standardize safety across your entire operations.

Unlock expert control and valuable time savings for your program

LEVERAGE UNRIVALED EXPERTISE

Access our experts' safety knowledge to confidently tackle your most complex challenges. Our specialists ensure your programs are built on a foundation of safety and compliance.

MAXIMIZE TIME SAVINGS

Streamline your safety initiatives and free up valuable internal resources. Our services and software accelerate program development, simplify training and automate compliance tasks so your team can focus on core operations.

ENSURE PROGRAM SUSTAINABILITY

Achieve consistent, high-level safety across facilities and departments. Our integrated solutions empower you with centralized control, real-time insights and streamlined auditing capabilities.

TRUSTED BY LEADING HEALTH CARE SYSTEMS

Brady Safety Services is proud to partner with numerous national and regional health care systems, including the U.S. Department of Veterans Affairs, to enhance safety and ensure compliance.

Lockout Tagout Services

Build, rebuild or optimize your program with the experts

PROCEDURE WRITING
Rely on our team to develop visual, OSHA-compliant lockout tagout procedures for all critical equipment.

AUTHORIZED TRAINING
Instructor-led sessions review regulations, incorporate your hospital's program and provide essential hands-on experience.

PROGRAM AUDITS
Our experts identify gaps and provide recommendations for implementation, compliance and sustainability.

KICKSTARTER SERVICES
Quickly initiate your program with a package including up to 25 procedures written by our team of experts and hands-on training.

LINK360® Safety Software

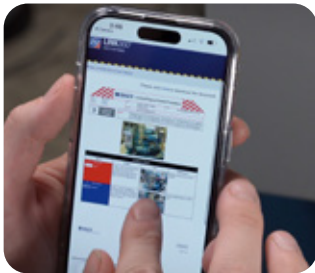

Manage, store and sustain your program effectively

PROCEDURE CREATION
This best-in-class software lets you easily create, manage and share compliant lockout, confined space and maintenance procedures.

DYNAMIC CONTROL
For complex systems lockout, LINK360 Process Plus enables dynamic procedure creation and automates change management.

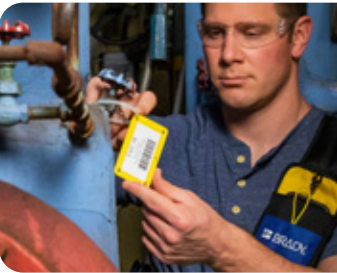

DIGITAL MANAGEMENT
Eliminate paper-based systems to ensure accessibility, reduce errors and improve efficiency.

AUDITS AND REPORTING
Perform required annual audits and generate detailed reports on compliance, training records and procedures.

Printers

Label for compliance and efficiency on demand

VALVE TAG PRINTERS
Create durable, custom valve tags and labels on demand to clearly identify and tie isolation points to lockout procedures.

COLOR PRINTERS
Print procedures, padlock labels, arc flash labels, safety signs and more with full-color inkjet printers built for industrial environments.

Other Services

Let us handle every detail

ARC FLASH
Our team is trained and ready to handle your required NFPA 70E arc flash risk assessments, reviews and training.

CONFINED SPACE
We cover OSHA 1910.146 through custom inventory, classification, hazard assessment and training for confined spaces.

We make products that make the world a safer and smarter place. From the depths of the ocean to outer space, from the factory floor to the delivery room — **we're just about everywhere you look.**
