

## PRODUCT CHANGE ANNOUNCEMENT

### Obsolescence BRADY NETWORK CARD Wi-Fi/LAN combined

The optional **Brady Network Card Wi-Fi/LAN combined** will become obsolete upon stock depletion because a unique component is no longer available.

An estimated three years of repair inventory has been secured for the cards already in the marketplace.

Printers potentially affected by the optional Brady Network Card include: BMP51, BMP53, BBP31, BBP33, BBP35, BBP37 and BBP85.

#### Part Number material affected

Order Reference: NET-BT-WIFI-LAN  
Article number: 142268

### Separate BLUETOOTH, WIRELESS and LAN cards still available

Even though the Wi-Fi/LAN combination card will no longer be available, Brady will still offer Bluetooth cards, wireless cards and LAN cards as separate and optional printer accessories. While only one card can be installed simultaneously, we recommend using the separate cards as they will meet customer needs.

- Brady Network Card Bluetooth:** enables fast and wireless connection between Bluetooth enabled devices over a short distance.
- Brady Network Card Wi-Fi:** enables fast and wireless connection with the company network over longer distances.
- Brady network Card LAN:** enables a printer to be connected by cable to the company network.
