High-Performance Mats, Pads and Rolls

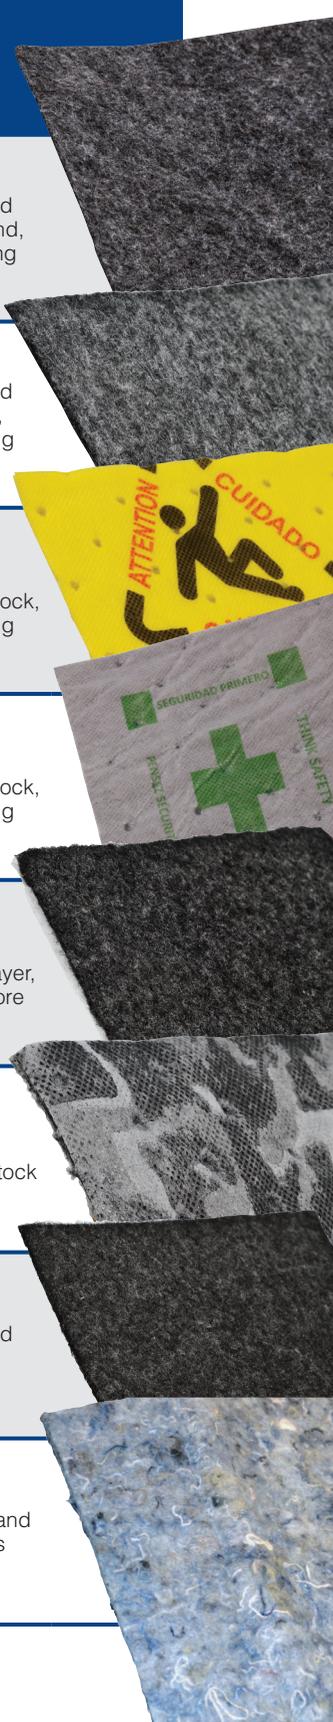

Combining absorbency and
durability to meet
your needs

High-Performance Absorbents Family

Brady SPC absorbents are your go-to solution to quickly clean up routine leaks, drips and spills. This line of high-performance products combines ultimate absorbency with added durability. Specifically designed for high traffic areas, these absorbents incorporate additional features, such as barrier and adhesive backings to prevent tearing in the presence of foot and forklift traffic. With a variety of applications and price points, you're sure to find an option that meets your needs.

High Performance Mats and Rugs

Brady SPC absorbent mats and rugs keep aisles and walkways slip-free by absorbing and containing oils, liquids or other spills. They are designed to hold up under the toughest conditions and are ideal for high traffic areas and workstations. Compared to an entrance mat, absorbent mats and rugs offer better traction and reduce the tracking of liquids from one area to another.

The Technology

Brady SPC absorbent mats and rugs are constructed from a combination of durable materials including needle-punched polypropylene, traditional meltblown polypropylene and recycled cotton fibers.

For areas where durability is of greatest concern, mats with needle-punched construction will provide superior strength with larger fiber diameter than traditional meltblown options. These fibers will not come loose in high traffic areas.

For areas with moderate traffic, traditional meltblown with coverstock provides low linting.

For an environmentally-friendly solution, look to recycled cotton fiber construction.

Some common liquids absorbed are:

- ✓ Bases
- ✓ Oils
- ✓ Chemicals
- ✓ Solvents
- ✓ Water-based fluids

Adhesive Mat

Adhere and remove from your walkways with ease.

- All-purpose absorbent mat designed for general industrial applications
- Tacky underside adheres to surfaces to keep the absorbent in place and reduce slips, trips and falls
- Easy to remove without leaving behind any residue
- Pads are perfect for tool cribs and rolls are great for walkway protection
- Gray color masks drips and spills for longer use
