

▶ What Equipment Requires An Arc Flash Label?

When updating your arc flash label elements to comply with revisions to the NFPA 70E standard, it is just as important to be sure your team understands what electrical equipment requires an arc flash warning label within your facility. This guide provides a high level overview of items in your facility that require a label.

DID YOU KNOW: Keep in mind that all equipment operating at 50V or higher that requires examination, adjustment, servicing, or maintenance while energized requires an arc flash warning label.

SWITCHBOARDS

PANEL BOARDS

INDUSTRIAL CONTROL PANELS

MOTOR CONTROL CENTERS

PRODUCTION LINE EQUIPMENT CABINET

DISCONNECT SWITCHES
