# WHAT YOU CAN EXPECT

EVERYTHING NEEDED, COVERED AND INCLUDED IN A TYPICAL AUTHORIZED EMPLOYEE TRAINING

## What we need from you

- ▶ Equipment-specific procedures, written program and forms (4 weeks in advance)
- ▶ Digital list of participants (4 weeks in advance)
- ▶ On-site room with projector/ screen and HDMI connection
- ▶ A/V equipment tested prior to start date
- ▶ Table that can support the Mobile Lab (2 sq. ft./40 lbs.)

## Day-of timing and details

Approximate Length: 120-minute presentation, 60-minute quiz and hands-on learning

### Agenda

- ▶ Introductions
- ▶ Purpose of Lockout Tagout
- ▶ 1910.147 Standard and Definitions
- ▶ Lockout Devices
- ▶ Break
- ▶ Procedure Breakdown and Explanation
- ▶ Process Rundown
  - Shutdown Sequence (notify employees, review procedure, perform machine stop, isolate energy, lock out, dissipate energy, attempt restart)
  - Restart Sequence (check machine and area, verify machine, remove lockout, notify employees)
- ▶ Other Processes/Exceptions to Lockout

## Hands-on learning

Using the mobile training lab, participants demonstrate proper energy isolation techniques learned in the course and mandated by OSHA. Our mobile training lab eliminates the need to lock out live equipment in your facility for a safer, more efficient experience.

## Quiz

Put employees to the test with a quiz and interactive discussion of the answers. Quizzes are provided as proof of course completion.
