

Dumper Truck Tag

The Dumper Truck Tag consists out of a practical holder and insert system. The holder can easily be attached to dumper trucks, and the insert includes best practice steps for efficient user inspections. Both holder and insert are customisable to suit specific needs such as company policy requirements.

- can be attached to dumper trucks and includes best practice steps for efficient user inspections
- tag insert can be removed on failed equipment check, leaving a clear 'do not use' message in the empty tag holder
- tag insert records inspection dates and inspector signatures in combination with the best practice inspection steps for compliance with EU Directive 2009/104/EC
