

Electrical Vehicle Signs

Easily guide people to electric charging stations

Brady's electric vehicle parking signs, intended for private terrains, offer a clear and understandable sign design for charging station signs and also guidance towards the nearest charging station. Not neglecting disabled persons and in need for extra-large parking spaces.

Advantages

- easily guide visitors and employees to electric charging stations
- reflective and highly visible in the dark with rounded edges to avoid injuries
- up to 10 years outdoor reliability
- available as self-adhesive labels, on boards, and on poles with or without brackets

Materials and sizes

B-7568 adhered to double bended road sign board(retro reflective aluminum boards). No sharp edges, best in class board (SB250). Size 400 x 600 mm.

B-7658 highly visible thanks their retroreflective prismatic sheeting. These will enable you to find EV parking spaces easier and safer in dark and harsh weather environments. Size 390 x 590 mm.

Order Reference	Width (mm)	Height (mm)	Includes	Quantity
Reflective sheeting laminated to Aluminium				
310264	400	600		1 / Pack
310268	400	600	Pole (2m) + Brackets	1 / Pack
Laminated Reflective Sheeting				
310260	390	590		1 / Pack

Order Reference	Width (mm)	Height (mm)	Includes	Quantity
Reflective sheeting laminated to Aluminium				
310276	400	600		1 / Pack
310280	400	600	Pole (2m) + Brackets	1 / Pack
Laminated Reflective Sheeting				
310272	390	590		1 / Pack
