

HOW TO GUIDE: Express Signs

Express Signs app

Brady's "Express Sign" app enables users to design a sign in just 2 screens!

Download

The "Express Sign" app can be downloaded from the

in [Brady Workstation](#).

A sign in 2 screens

Open the "Express Signs" app in Brady Workstation.

Screen A:

1. Select your "printer", "part type" and "tape width".
2. Choose a "sign style" on the right. Select from multiple predefined categories. Clicking a style moves you to the next window.

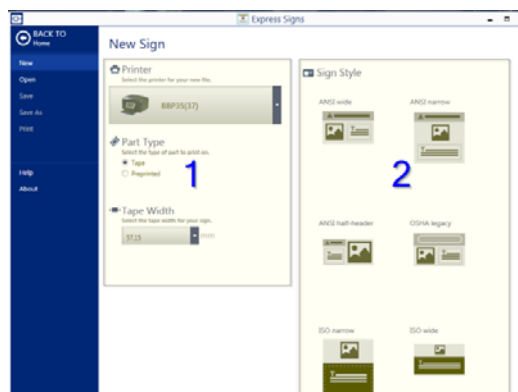

Figure 1 : Screen A

Screen B:

1. Select a "sign category". This will determine the thermal transfer tape and ribbon colours you will need. Type a text and select a "pictogram" using the "browse" button.
2. Change the "layout" of the selected sign category by clicking the icons.
3. Print your sign.
