

FENCING TAG

The new Fencing Tag enables companies to increase compliance and workplace safety by communicating vital information on the hoarding and fencing itself where it can be seen by all workers.

- Comply with EU Directive 92/57/EEC by offering inspectors an easy way to add inspection dates with signature, and by offering a visible space to communicate vital information
- Increase workplace safety by sharing vital information on the fencing itself with every worker
- Stay compliant in any weather: if applied correctly, the durable tag will stay attached and remain legible in outdoor conditions if written on with a permanent marker
- When equipment is not fit for use, inspectors can remove the insert, leaving a clear "Do Not Use" message on the holder.

Article No.	Order Reference	Description	Height (mm)	Width (mm)	Quantity
