

ToughWash™ Signs, Tags and Labels

www.bradyeurope.com

Washdown resistant, metal-detectable signs, tags and labels are your best practice identification solutions.

Food processors can now feel more confident in using signs, tags and labels around food processing lines to improve worker safety and efficiency, while maintaining food safety. Our ToughWash identification solutions have been designed to withstand harsh washdown conditions and meet food processing needs.

ToughWash Rigid Signs & Tags:

- **Injection Moulded Plastic Construction** – Withstands high-pressure water, chemicals and abrasion to improve durability.
- **Sub-Surface Graphics & Print** – Protects graphics and print from water, chemicals and abrasives to enhance legibility for years.
- **Formulated Metal or X-Ray Detection** – Integrates a detectable resin into the sign or tag.

Order pre-printed, customisable signs or tags.

Tags

| Size |
|----------------|
| 3,9cm x 7,7cm |
| 7,7cm x 12,7cm |

Signs

| Size |
|-----------------|
| 10,2cm x 30,5cm |
| 17,8cm x 25,4cm |
| 30,5cm x 20,4cm |
| 30,5cm x 22,9cm |
| 30,5cm x 25,4cm |
| 25,4cm x 35,6cm |
| 30,5cm x 45,8cm |
| 35,6cm x 50,8cm |

ToughWash Labels:

- **Superior Adhesives** – Strongly bonds to stainless steel reducing the risk of labels peeling.
- **Strong Facesheet** – Withstands high pressure water to reduce the risk of labels falling apart.
- **Durable Topcoat** – Printer ribbon and ink create a resilient bond to reduce the risk of fading print.
- **Formulated Metal Detection** – Integrates metal layers within facesheet.

Order pre-printed customisable labels or print ToughWash labels on-demand with a Brady printer.

ToughWash™ Applications in Food Processing

Critical Control Point Procedures

Bring HACCP plans to life by reinforcing key elements of critical control points.

GHS Tags

Identify chemicals inside your plant with tags that won't deteriorate when exposed to chemicals.

Inspection & Sanitation Tags

Use colorful tags to identify tools and equipment that must be sanitised before use.

Lockout/Tagout Tags

Improve worker safety and food safety with metal detectable tags.

Safety Signs

Alert employees to wet floors, hand-washing procedures, safety concerns and much more.

Standard Operating Procedures

Reinforce procedural training for new employees, contract employees and employees who speak English as a second language.

Standard Sanitary Operating Procedures

Ensure your sanitation team thoroughly cleans and sanitises each machine surface with instructions at the point of cleaning.

Valve Tags

Identify valves or relay information about pipe contents and operations information.

Visual Lockout Placards

Provide procedural information at the point of lockout/tagout to ensure full compliance.

Warning Labels

Identify pinch points, provide machine guard reminders, warn of electrical hazards and call out other safety concerns at the point of need.
