

Need help training your employees to read GHS-formatted labels by the December 1st deadline?

Print this example of a compliant HazCom label and share it with your employees. Each of the six label elements are marked with a brief description that helps explain the make-up of a GHS label.

<p>1. Signal Word</p> <p>Indicates relative level of hazard. "Danger" is used for most severe instances, while "Warning" is less severe.</p>	<p>2. Symbols (Hazard Pictograms)</p> <p>Convey health, physical and environmental hazard information with red diamond pictograms. May use a combination of one to five symbols.</p>	<p>3. Product Name or Identifiers</p> <p>Identifies the chemical or substance. Should match the product name or identifier used on the SDS.</p>
<p>4. Hazard Statements</p> <p>Phrases that describe the nature of hazardous products and oftentimes the degree of hazard.</p>	<p>5. Precautionary Statements</p> <p>Phrases associated with each hazard statement, that describe general preventative, response, storage or disposal precautions.</p>	<p>6. Manufacturer Information</p> <p>Company name, address & telephone number.</p>
