

GENERAL PRODUCT SPECIFICATION

PLEASE REFER TO UN100-E, UN15-2DP-E, UN510, HAZ124, HAZ1818 & HAZ412, FOR INDIVIDUAL SPECS

Item No.	SKH-1100
-----------------	-----------------

Date	21-03-2024	Replaces		No. Pages	1
-------------	------------	-----------------	--	------------------	---

Product Description:

Style	1000 litre Container Kit, Chemical
Item Size (each)	Container
Contents	400 UN100-E Pads, 2 UN15-2DP-E Rolls, 4 UN510 Booms, 30 HAZ412 socs, 10 HAZ124 socs, 20 HAZ1818 pillows, 1 pair SPK-HANDSCH Gloves, 1 pair SPK-BRIL goggles, 50 Disposal Bags
Color	Yellow
Absorbency	Hydrophilic + Oleophilic + Hazardous Chemicals

Intended Application	Mobile Spill Container for larger chemical and hazardous liquid spills
-----------------------------	--

Absorbency Capacity	967 l per kit (saturated; medium viscosity)
----------------------------	---

Packaging Description:

Package configuration	Kit	Pkg. Weight	128 kg.
Items per Package	1 Kit	Pkg. Dimensions	120.5 cm x 131.5cm x 108.5 cm
Container type	Wheeled Container		

Physical Properties:

<u>Parameter</u>	<u>SPC Test Method</u>	<u>Units</u>	<u>Nominal</u>	<u>(+/-)Tolerance</u>
Color	Visual	-----	Yellow	per standard

The above properties are “nominal” values used for PROCESS CONTROL when the product is produced and/or inspected. Performance “nominals” may vary depending upon the specific application, and/or the environment being applied, stored, or shipped.

Attributes	Product will be free of foreign material contamination, rips, holes, and tears.
Labeling	Each package to be clearly labeled with Company Name, Address, Item No., Date, and/or Package Code (Bar Code).
Certification	Make no changes in basic process or composition without notifying customer. Claims for non-conformance of goods must be made within 60-days of delivery.
