

# HandiMark consumable obsolescence in December 2020

HandiMark label consumables are no longer being produced by Brady, and our stocks are projected to run out by December 2020.

Experience The Evolution

## Improve your HandiMark label printing experience

We recommend these alternatives:

### Discover the BMP71 Label Printer:

the absolute summit of portable printability, fully equipped with safety label design wizards

### Discover the BMP61 Label Printer:

prints a variety of safety labels, easy to navigate with a full colour touch screen

### Discover the BradyPrinter M611:

highly portable and easy to operate with your trusted smartphone and Brady label design apps

Use both our legacy and newest industrial grade labels with extreme reliability both in- and outdoor

Start printing immediately with auto-recognition of loaded label materials

Experience easy label material switches

Create labels with an AZERTY, QWERTY, QWERTZ or Cyrillic keyboard

Print labels from a PC or smartphone

Print labels while charging your printer
