

High Traffic (HT) Barrier-Backed Safety Mat

BradyID.com/SPC

Universal
absorbent with
added durability
to stand up to
the toughest
conditions

Brady SPC's High Traffic (HT) Barrier-Backed Mats stand up to the toughest applications. Designed for areas with high foot and forklift traffic, these universal absorbents are strengthened by a tear-resistant barrier backing. The printed safety message helps reduce the likelihood of slips, trips and falls by providing an extra safety reminder to those working in the area.

Multiple Functions

- All-purpose mat designed for general industrial applications
- Non-skid, barrier-backed, 2-ply construction with spunbond coverstock provides the ultimate durability
- Printed safety message reminds workers to exercise caution in areas where slips, trips or falls are likely
- Gray color masks drips and spills, encouraging longer use
