

CLEARLY IDENTIFY TANKS FOR MORE SAFETY AT WORK

Reliable, ISO 20560-compliant tank markers

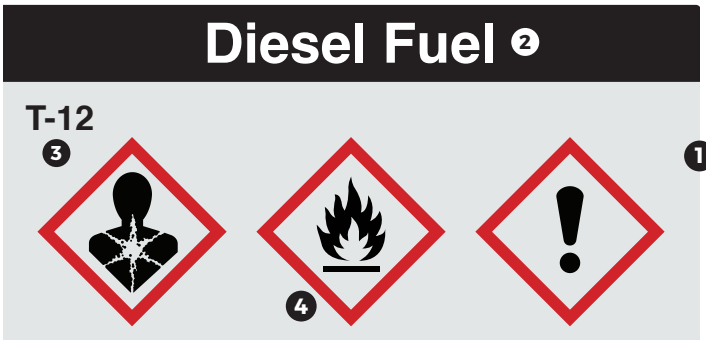

- Advantages
- Clear tank identification for increased safety
- Reliable on any tank in many environments
- Hassle-free

Large tank marker for first responders

- 1 High quality materials
- 2 Substance name
- 3 Tank number
- 4 Tank volume
- 5 NFPA diamond
- 6 HIN/UN number
- 7 Relevant danger symbols

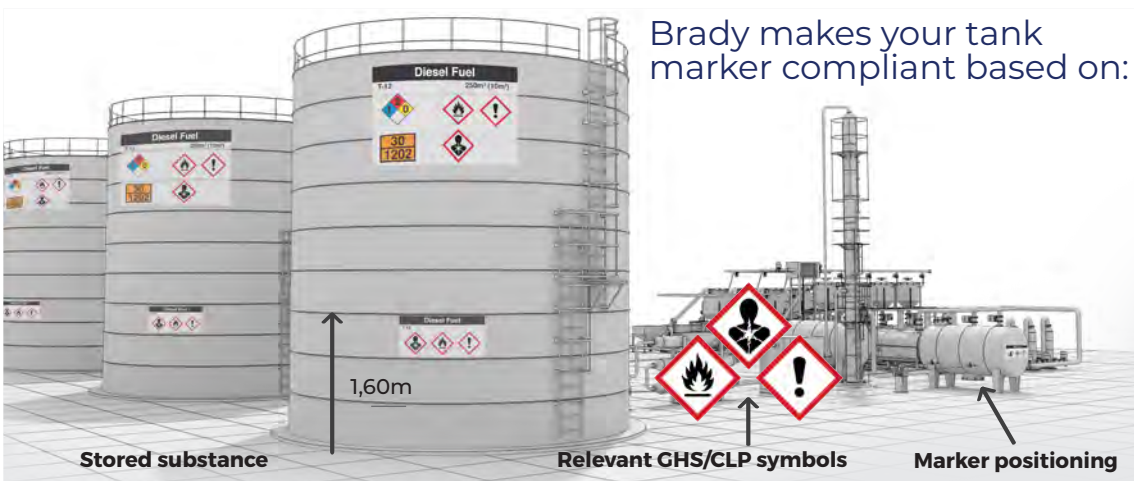

Small tank marker for maintenance

- 1 High quality materials
- 2 Substance name
- 3 Tank number
- 4 Relevant danger symbols

High quality tank marker materials

	Outdoor	Outdoor+
Outdoor durability	3-5 years	10 years
Chemical resistance	Excellent	Excellent
Abrasion resistance	Excellent	Excellent
Adhesive (flexible label) for clean, dry or smooth tanks	B-7541P	B-7529P
Non-adhesive (rigid board) for tanks that are hard to indentify		B-7503

ISO 20560 colour code

Gases in either gaseous or liquefied conditions
Liquids and fixed materials
Acids
Alkalis
Firefighting medium
Water
Air

CLEARLY IDENTIFY PIPES FOR MORE SAFETY AT WORK

Reliable, ISO 20560-compliant pipe markers

- Advantages
- Clear pipe identification for increased safety
- Reliable on any pipe in many environments
- Hassle-free

- 1 High quality materials
- 2 Relevant danger symbols
- 3 Substance name
- 4 Colour code
- 5 Additional safety information
- 6 Flow direction
- 7 P&ID information
- 8 Source & destination
- 9 QR-code

Pipe marker size

Minimum length (L)	Pipe diameter (D)	Min. length (L)
	≤ 150mm	85mm
	150 - ≤ 500mm	120mm
	> 500mm	200mm

Minimum height

$(50 \times D) / L1$

High quality pipe marker materials

	Indoor	Outdoor	Outdoor+
Outdoor durability	1 years	3-5 years	10 years
Chemical resistance	Medium	Excellent	Excellent
Abrasion resistance	Good	Excellent	Excellent
Adhesive for clean, dry, smooth or softly textured pipes	B-7543P	B-7541P	B-7529P
Non-adhesive for rusty, dirty, wet or rough pipes	B-7560P	B-7561P	B-7562P

Brady makes your pipe marker sizes compliant based on:

ISO 20560 colour code

Gases in either gaseous or liquefied conditions
Liquids and fixed materials
Acids
Alkalis
Firefighting equipment
Water
Air
Hazardous Substances
