

LOW COST MONITORING WITH PASSIVE RFID

- ▶ Wireless, battery-free sensors
- ▶ No maintenance required
- ▶ Highly cost effective
- ▶ Small, thin and highly flexible
- ▶ Applicable to almost any surface
- ▶ Offers the advantages of expensive active sensor tags

NEAR FIELD COMMUNICATION

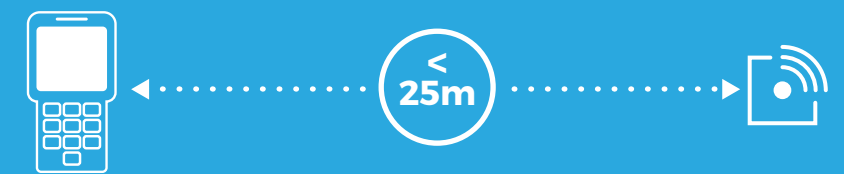

Devices must be in close proximity

High Frequency (HF)
13.56 MHz

RADIO FREQUENCY IDENTIFICATION

Read range up to 25 metres

Ultra High Frequency (UHF)
856 MHz to 960 MHz

APPLICATIONS INCLUDE

Material and equipment monitoring

Access control

Greenhouse monitoring

Maintenance and safety data collection

Cold chain monitoring

Inventory management

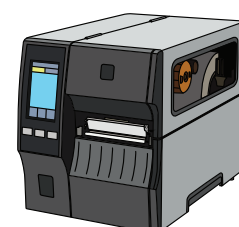

Data centre monitoring
