

Absorb spills as if they never happened

InstantSorb pads & rolls

With new InstantSorb-technology, our Spill Control UN pads rolls can quickly absorb almost any industrial liquid. Rolls are ideal to prevent machine or storage leaks from ever hitting the workflow, while the pads are a supreme tool to react to any spill.

- **Fast:** UN pads & rolls with InstantSorb-technology absorb a wide range of industrial liquids in seconds.
- **Efficient:** InstantSorb-technology absorbs up to 15x the pad or roll's weight thanks to a thick, polypropylene core.
- **Safe:** pads & rolls do not chemically react with any liquid, nor do they dissolve.
