

Lockout / Tagout – Global Best Practice Training Video

Safeguard your employees with current and comprehensive lockout/tagout best practices

This instructional programme is designed to inform and train organisational safety leaders, as well as all employees who may be exposed to hazardous equipment energies. It will help employers to develop and improve their company's Lockout / Tagout program. It is also extremely beneficial for all employees who shut down and service equipment, instructing them how to avoid accidents and remain safe on the job.

Highly comprehensive content

- General information i.e. legislative framework
- On-the-job-experience and user instructions sections (cf. Best practices)
- Reference to tools to function in the most “Best practice way”
- Series of short Brady product application ‘movies’

The movie is sub-divided in 32 chapters and modules, allowing to compile a customised movie, based on the individual training needs.

Multiple functions

“Lockout / Tagout – Global Best Practice Training” movie offers a unique advantage of a single product, which offers multiple functions:

- **Multi-national/-lingual:** covers the broad scope of languages. International companies can easily roll the product out on all premises in different countries
- **Alignment in terms of best practice message:** conveys the same message everywhere, by using real-live examples (applications and tools)
- **Multi-purpose:** offers standard training (full movie), as well as offers custom training through the separate chapters and modules, where one can easily make a compilation based on the specific training needs
- **Interactivity:** an Employee Quiz (document) is available at the end of the training and can easily be integrated in the training session

The product is rather unique as it helps implement Lockout / Tagout procedures that comply with legislation, and build a safer work environment.

Highly comprehensive content

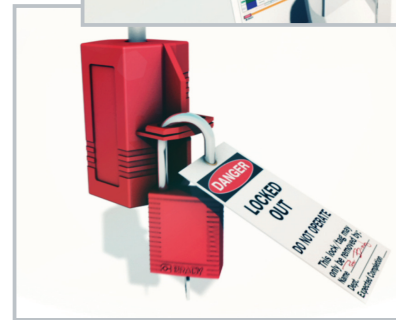

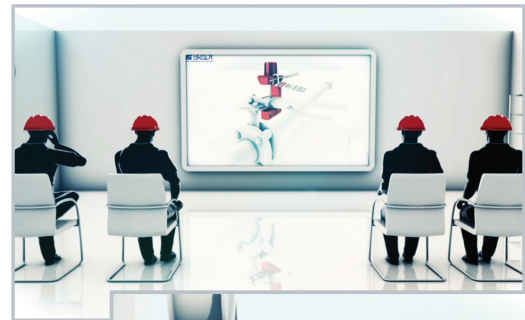

The product's composition is as follows:

- The movie
- A Quick Start Guide
- An Instructor's Guide
- An Employee Quiz

The Employee quiz can be used at the end of the training programme. It allows to test the employee's knowledge after the training session and facilitates a discussion.

As well a padlock "LOTO Saves lives" is included in the product box.

All parts are available electronically on a USB key (Quick Start is also available in a hard copy format), and accessible in 10 different languages for EMEA: English, French, German, Dutch, Spanish, Italian, Portuguese, Turkish, Polish, and Russian.
