Find LabelMark™ Software Features in Brady Workstation

Not sure where to find familiar LabelMark software features when using Brady Workstation software apps? Take a look at the below chart to find the LabelMark feature and its Brady Workstation equivalent, then download the app that's needed from the Brady App Store*, if you don't already have it. For more information, search the "Help" within the app itself.

TIP: *If you're not connected to the internet to get apps from the Brady App Store, you can go to **Workstation.BradyID.com** on a connected computer, download apps onto removable media and install on the disconnected computer. Instructions are provided on the website.

LabelMark	Brady Workstation
Check Label Errors	Errors & Information tab in the Custom Designer, Text Labels, and Print Partner apps (not in the Custom Designer Lite app)
Command Multiplier	Object Copies feature in the Custom Designer and Text Labels apps (not in the Custom Designer Lite app)
Custom Parts	Label Settings tool
External Data	Excel Import and Advanced Import extensions
Flip Flop	Flip Flop extension for the Custom Designer Lite, Custom Designer, and Text Labels apps
Graphics Mode	Custom Designer Lite and Custom Designer apps
Job Files	Batch Print tool
Line Mode	Text Labels app
Lock Objects	Not available in label files. When using the Template Editor tool, however, objects defined as Static cannot be edited by people using the template
Printable setting for objects	Display only- Not printed object property in the Template Editor extension
Printer/Part Pairing	Label Settings tool
Refresh Imported Data	The Excel Import and Advanced Import extensions provide a setting to refresh data when the file is opened or printed. An Updates button when viewing data in these extensions also allows for updating at any time
Rotate View	View Settings tab in the Custom Designer Lite, Custom Designer and Text Labels apps
Saved Schemes (data import and serialisation)	Advanced Import and Advanced Sequence extensions
Serialisation	Sequence and Advanced Sequence extensions for the Custom Designer Lite, Custom Designer and Text Labels apps. The Sequence extension allows for a simple numeric, alphabetic or alphanumeric sequence. The Advanced Sequence extension allows multiple sequence counters as well as additional data types such as octal
Templates	Template Editor extension and Print Partner app
Trim Vertical Margins	Custom Designer Lite and Custom Designer apps. Instead of trimming space above text in a text object, drag the object so that the text is exactly where you want it. You can drag the text box partially off the label if need be
Use Row Copies	Display Slit Sleeves section on New page in the Custom Designer and Text Labels apps (not in the Custom Designer Lite app)
Wiremark	Repeat lines to fill setting on Text Properties tab in the Text Labels app
