

Materiales de etiqueta para BMP®71

www.BradyLatinAmerica.com

Materiales para cables y alambre para BMP®71:

Mangas PermaSleeve® para marcaje de alambre

Mangas PermaSleeve® PS de poliolefina B-342 para marcaje de alambre.

La manga con rango 3:1 de termocontracción se adapta perfectamente alrededor de alambre para brindar identificación y protección. Resistente a la decoloración y retardante de fuego. Cumple con las especificaciones de aislamiento y propiedades físicas.

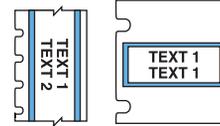

Figura 58

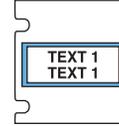

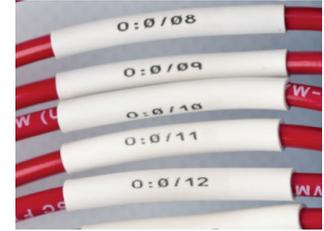

Figura 44

- SAE-AMS-DTL-23053/5C (Clase 1)
- SAE-AS-81531
- MIL-STD-202
- Cumple con la directiva RoHS
- Reconocido por UL
- Probado conforme a: ASTM E162 y ASTM E662
