Work Instructions

Sustain Your Gains from Lean Manufacturing with MarkWare™ LEAN Tools Software.

MarkWare™ LEAN Tools software includes all of the features and functionality of MarkWare Facility Identification software, plus new tools to support and sustain your lean transformation. Whether you are implementing 5S, Total Productive Maintenance, Standard Work, Kanban, or other lean concepts, MarkWare software helps you post critical information at the point of use. Employees gain the knowledge they need to work effectively and efficiently.

Equipment Reliability Made Visual

Implementing an autonomous, preventative or predictive maintenance program? MarkWare Lean Tools software makes it easy to create a variety of visual equipment controls, including gauge labels, oil level indicators, and drive tension guides. These controls help:
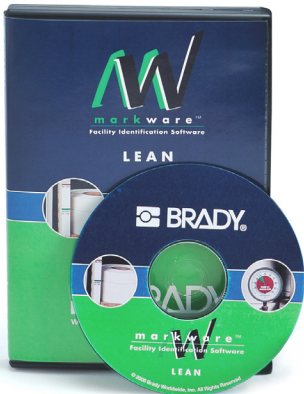

- Achieve faster machine setups and changeovers
- Detect operating abnormalities at a glance and at a distance
- Simplify training of operators and other non-technical staff responsible for routine machine inspection and care
- Enable more efficient route-based monitoring of numerous PM points in condition-based maintenance programs

All Your Lean, Safety & Facility Identification Needs Covered in One Powerful Package

Creating signs, labels and tags with MarkWare Lean Tools software is easy with the template wizard. Choose from hundreds of pre-formatted templates for safety signs, equipment ID, hazardous communication labels, inspection tags and more.

- Utilize over 1,000 safety and industrial pictograms
- 15 different bar code symbologies
- Import logos, photos, and other graphics
- Create hazardous communication labels from our database of 2,000 chemicals
- Create intricate designs with advanced drawing tools like textArt and auto shapes
- Import data from spreadsheets and databases

Need more durable, professional-quality output?

Use MarkWare Lean Tools software with a Brady industrial label printer for signs and labels that are professional looking and long-lasting. Create labels in a variety of colors, sizes and shapes with materials that stick to a wide variety of surfaces and withstand harsh indoor or outdoor environments.

MiniMark™ Industrial Label Maker
- ½"- 4" label widths
- Economical monocolor printer

BMP®71 Label Printer
- ¼"- 2" label widths
