

Brady ATA Tag Commander Software

www.bradyeurope.com/RFID

Read and author RFID tags in compliance with ATA Specifications using the new Brady ATA Mobile Application.

Designed for the industry

This easy-to-use RFID reading and encoding application is designed specifically for the aerospace industry to streamline processes and allow for paperless operations. With this application you can commission, read and update RFID tags and databases with maintenance or other information. The application includes workflows designed for specific tasks to make jobs easier and more efficient.

Streamline processes with an application that:

- Runs on Android operating system
- Manages different levels of access
- Displays workflows based on user administrative settings
- Validates that all data is compliant with ATA Spec-2000
- Manages multiple chip encoding schemes
- Performs all necessary block-locking functions

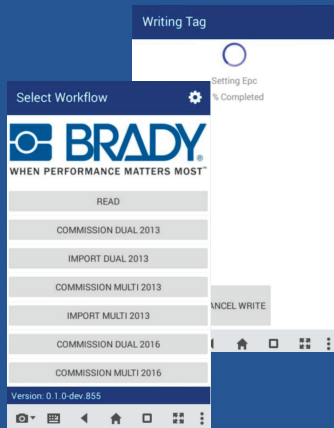

Flexible workflows include:

- Read Tag
- Commission Dual Record Tag 2013
- Commission Dual Record Tag 2013 – DODAAC
- Import Dual 2013
- Import Dual 2013 – DODAAC
- Commission Multi Record Tag 2013
- Import Multi Record Tag 2013
- Commission Dual Record Tag 2016
- Commission Multi Record Tag 2016
- Duplicate Tag
- Custom workflows available
