

WEEKLY INSPECTION TAG

The Weekly Inspection Tag enables companies to increase compliance and workplace safety by showing on the equipment itself if it has been inspected and deemed fit for use.

- Comply with EU Directive 2009/104/EC by offering inspectors an easy way to demonstrate the date of their inspection and their signature
- Increase workplace safety by sharing inspection information at the asset with every worker
- Stay compliant in any weather: if applied correctly, the durable tag will stay attached and remain legible in outdoor conditions if written on with a permanent marker
- When equipment is not fit for use, inspectors can remove the insert, leaving a clear "Do Not Use" message on the holder.

Common applications include but are not limited to handrails, generators, lighting towers, ladders, podiums, site kitchens, conveyors and eye wash stations.

Article No.	Order Reference	Description	Height (mm)	Width (mm)	Quantity
Inserts Only
