

Put This On to Keep Hands Off

Brady Pendant Control Safety Cover

Have a mechanical hoist or overhead crane that's not in use? Keep it that way by controlling access to the buttons on your pendant control. Since all pendant controls are not created equal, the new Brady Pendant Control Safety Cover makes it easy to secure a variety of sizes. Plus, with its innovative rigid sides, multiple padlock options and easy-to-transport design, it's the ideal safety solution for keeping your team safe.

▶ The Brady Pendant Control Safety Cover features:

- **Rigid sides to prevent access:** The four sides are equipped with a unique hard-cover design to further prevent fingers from getting access to buttons.
- **Expandability to use on multiple-sized pendants:** Designed to fit pendants from 4 to 18 inches, it adjusts to the specific size you need — finally a one-size-fits-most option.
- **Collapsible design for easy transport and storage:** When not in use, you can easily flatten, store and take it wherever it's needed.
- **Room for four padlocks:** Since multiple people may require access, you can add up to four padlocks and give control to those who need it.

Catalog Number	Size H x W x D (inches)	Qty
150587	(14.0 - 22.0) x 8.75 x 2.0	1 each
