

Pendant Lockout Safety Cover

No undesired crane control

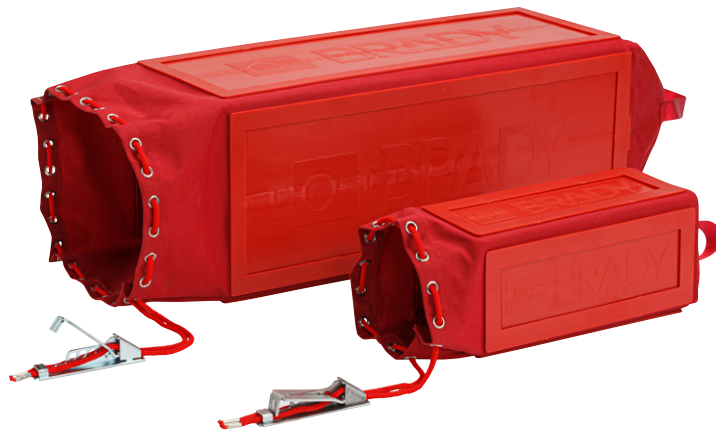

Increased worker safety

The Pendant Lockout Safety Cover can completely cover a wide range of crane or hoist pendant controls to prevent anyone from pressing any pendant buttons before removing up to 4 padlocks. Padlock keys can be held by supervisors or workers operating outside crane operator view to avoid undesired use of the crane or hoist. Accidents and severe injuries resulting from collisions with hooks or crane cargo can be avoided, and worker safety can be increased with the Pendant Lockout Safety Cover.

Easy and practical to use

The Pendant Lockout Safety Cover is a practical, extendable tool that fits all pendant controls ranging from 10 to 45 cm in length. It can be applied like any bag and includes a flexible locking cinch for a snug fit around a variety of pendant cables. Because it has 4 interconnected rigid sides, it can be folded flat for easier transport or carrying.

Order Reference	Description	Depth (mm)	Length (mm)	Width (mm)	Max. Shackle Diameter (mm)	Quantity
150587	Pendant Control Safety Cover	50.80	508.00	133.35	9.53	1
151252	Pendant Control Safety Cover - Large	50.80	1016.00	228.60	9.53	1
