

Pipe Marker Carrier System

www.bradyeurope.com

Brady's premium click-on pipe marker system is very durable and easy to apply or change. Adaptable to any existing standard, the new click-on pipe marker system supports plant safety and efficiency by clearly communicating pipe contents and flow direction, even in tough conditions.

Plant Safety

Brady's Blank Pipe Marker Carrier system helps to avoid safety issues/accidents because of bad pipe marking. It's a very practical solution and can easily adapt to pipes. The pipe marker is attached onto two straps, which makes replacing or changing pipe markers a lot easier.

The Pipe Marker Carrier system will be supplied blank. The printed pipe marker will adhere to the carrier itself and therefore has no contact with the pipe. The customer has 3 professional options for his identification. The customer can:

- Use Brady's professional on site printing systems
- Select from Brady's huge pre-printed standard Pipe Markers range
- Use Brady's professional service for customised Pipe Markers

Features & Benefits

- Made out of durable fibreglass and stainless steel
- Ideal identification solution for cold, hot, painted or oily pipes when adhesive pipe markers solutions don't stick
- Easy click-on system – no need for an adhesive
- The click-on system also enables fast re-application after pipe marker updates
- For pipes with a diameter of 200 mm and larger
- Carrier comes blank with two clips for installation
