

# Updated printing from Link360

## Print tags and energy source labels directly from Link360

Effective Date: 13<sup>th</sup> April, 2020

### **Compatible with Brady Sign & Label Printers**

This software update enables you to print tags and energy source labels for Lockout/Tagout directly from Link360. Compatible printers include BBP30, BBP31, BBP33, BBP35, BBP37, BradyPrinter i3300, and BradyJet J2000. Clearly identify energy sources so they can be locked out efficiently and print tags in advance to identify who performed a lockout.
