

## Your one-piece safety solution

### Pull-handle Butterfly Valve Lockout

Stop using ill-fitting, two-piece or makeshift lockout devices for your pull handle valves. Get a safer solution that fits better and stays in place – the **Pull-handle Butterfly Valve Lockout**. Its **simple, fold-over design effectively locks pull handles in any desired position**. And, it holds up to four padlocks for added safety. No matter what industry you're in, this versatile, one-piece lockout device bolsters your safety lockout solution. And that's a welcome addition to any lockout program. With this device you'll also get:

- **A great fit** – exclusive, anti-pivot lockout device that fits a variety of pull handle butterfly valve sizes
- **Easy to use** – a convenient, one-piece design that stays together whether in use or in storage
- **Multi-industry solution** – effective in environments where hygiene is critical, including food and beverage, water utilities, chemical and pharmaceutical
