

Absorbents and Spill Control

BradyID.com/SPC

High Performance Mats and Rugs

Combining absorbency with added durability features, Brady SPC's high performance mats and rugs are perfect for areas with heavy foot or forklift traffic. These specially designed absorbents help keep aisles and walkways slip-free by absorbing and containing oils, liquids and other solvents.

Compared to an entrance mat, absorbent mats and rugs offer better traction, reduce slipperiness and keep liquids from being tracked from one area to the next.

Common Liquids Absorbed:

- Bases & Oils
- Chemicals
- Solvents
- Water-based fluids
