Absorbent SOC, Pillows & Drum Covers

Specialty absorbent products including SOC, pillows and drum covers can be used around a facility when a pad or roll may not be sufficient.

SOCs: Dependable, flexible tubes that mold around corners and conform to uneven surfaces to soak up spills and drips, preventing fluid from escaping to other areas.

Pillows: Ideal for use under the bottom of spill pallets or machines that are known to drip or leak.

Drum Covers: Eliminate the messy drips and overflow when mixing or pumping liquids from the drum barrel.
