

# Visual Tagging Solutions

Immediate asset identification

# Visual Tagging Solutions

## Safety. Maintenance. Identification.

Think about any item of equipment on your site:

- How do you know it is fit for use?
- When was it last inspected?
- How do you identify it among the hundreds of similar items?

Without the latest information, people are prone to make assumptions. Assumptions can lead to potentially damaging decisions for both them and your business. The identity, maintenance and inspection status of equipment is therefore critical.

## What are visual tags?

Visual tags help:

- Communicate the latest equipment inspection and test status clearly at the point of use
- Record an audit trail of recent equipment maintenance, tests and inspections
- Uniquely identify equipment
- Comply with Health and Safety Legislation
- Reduce accidents in the work place

We can help you with Visual Tagging for Work at Height, Plant, Vehicles, Machinery & Tools, Workspace Control and Process & Pipelines.

## In fact! Whatever your equipment – we can tag it!

### ▶ Did You Know?

# Visual Tagging Solutions

## Holder and Insert System

Our visual tags typically comprise of two components:

### Holder

Attaches to the equipment being tagged.

### Insert

Placed in the holder and used to record and display the latest equipment status.

## Holder and Insert Work Together in a Looped Process

### Attach

The empty holder displays 'DO NOT USE...' symbol and is attached to equipment.

### Inspect

Equipment is inspected periodically, as deemed appropriate by risk assessment, and the results recorded on the insert.

### Insert

If the equipment passes inspection then the insert is placed in the holder, displaying the latest equipment information to any users. If equipment fails inspection at any point, then simply remove the insert from the holder to display the 'DO NOT USE...' sign.

## Attachment Methods

Magnetic Strip

Adhesive Strip

Split Ring

Hang Loop

Cable Ties

Strop

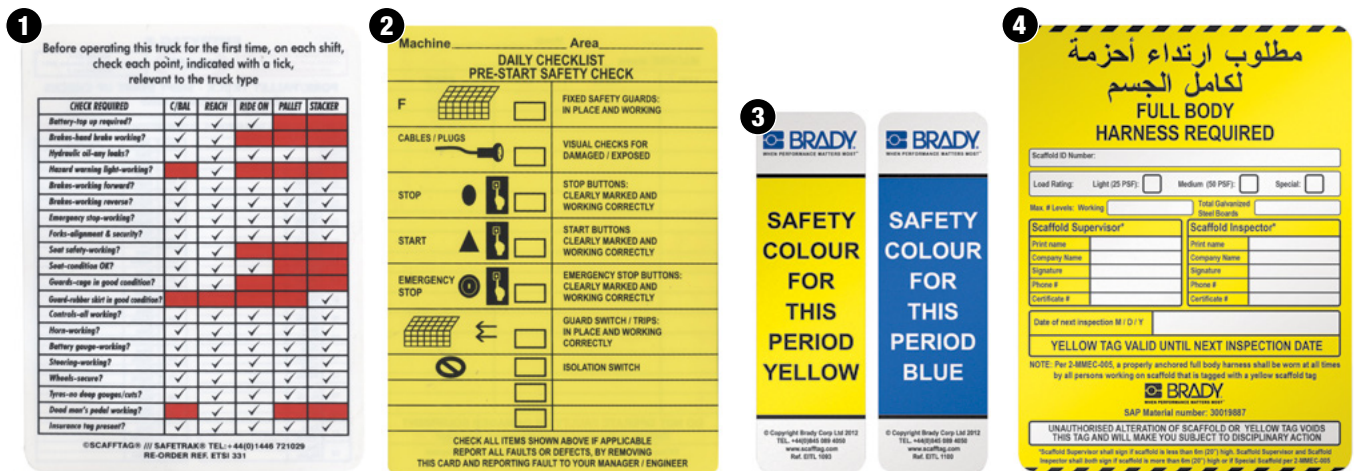

## Fully recyclable resources

Scafftag's Visual Tagging inserts for equipment inspection management and 99% of the holders are fully recyclable. We are proud to do our part in protecting our planet's valuable resources.

The materials used in your holders and inserts lose only 1-2% of their physical properties when first recycled. They are reused to make parts for burglar alarms, switch cases, window lock systems, lift gibs and wheels.

# Customisation

## Customise your Visual Tagging

We can custom design Visual Tagging Solutions to help you manage virtually any issue and fit seamlessly with your business and systems. A wide range of customisation options are available including:

- Tag size and shape
- Data to be displayed/recorded
- Visual design including logo, colours and fonts to reflect corporate branding
- Adapt to site requirements e.g. metal strips for magnetic detection in food plants
- Attachment methods e.g. cable tie, split ring, magnetic, adhesive

## A Library of Ideas

We have thousands of designs developed for other clients offering unique solutions which may be of interest to your business.

We do not charge any consultancy fees for working with you to develop your customised design. All you pay is a one off artwork set up charge with your first order. You can then reorder paying the price of the standard insert and when you reprint your bespoke insert, the artwork fee is never reapplied unless you amend your design.

So whatever your issue, contact us for a no-obligation solution.

### 1 Fork/Pallet Truck Inspection Checklist

An inspection checklist spanning a range of Fork/Pallet trucks, utilised on one insert. Easily identify which checks are applicable for which asset, all branded in line with corporate colours.

### 2 Machinery and Guard Pre-use Inspections

Clear and concise pre-use inspections to be carried out - with 32 inspection boxes on the reverse. Space left for unique checks on each machine to be added.

### 3 Colour Coded Safety System

A custom designed colour coded system indicating a safe working period on site. Prominent use of your logo enforces the concept that the safe working policy originates with the company itself and not a third party.

### 4 Bilingual Tags for the Chemical, Oil and Gas Industry

Request a sample tag

Customise your tag

## Full colour printing

We have the capacity to digitally print full colour images and photographs on our polypropylene insert materials, whether you require individualised tags identifying members of staff, machinery and equipment, or sequentially numbered and coded to comply with an auditing system.

For more information on creating unique custom tagging systems or simply adding more colour to your tags with digital printing, please contact Customer Services:

Tel: +44 (0)845 089 4060

Email: [customer.services@scafftag.com](mailto:customer.services@scafftag.com)

## Personalise your Visual Tagging Solution

Scafftag's personalisation service allows you to add your company logo to our range of standard visual tags, while the design of the tagging system remains unchanged.

Logo printed on holder hang loop

Logo printed at the top of holder body

Logo printed on white strip at head of insert

### Add your logo to:

- Our standard inserts - most of our inserts are designed with a white band ready to accommodate your branding
- To the holder - Typically printed at the top of the holders main body
- The upper curve of the holders hang loop where applicable.

## ▶ How Do you Get your Artwork Personalised?

A logo needs to be supplied in the correct file format and suitable quality for artwork personalisation. Ideally all logos will be supplied in vector format and any colours e.g. Pantone references, need to be specified.

### Colour Information

When sending your artwork files, you will also need to supply the correct colour information for your product. Please indicate the PMS (Pantone Matching System) colour required, but if in doubt this can be discussed with our artwork department beforehand.

### Image Resolution

We require high quality black and white line artwork, printed at a minimum of 300 dpi, must be 100% of the actual imprint size. Artwork must have crisp, sharp edges and needs no further touch up. Some thin lines, small copy and reverses may not reproduce as submitted and may need to be altered to print clearly.

PLEASE DO NOT SUPPLY EITHER SCANNED OR IMAGES WHICH HAVE BEEN PLACED IN OTHER DOCUMENTS SUCH AS WORD, POWERPOINT ETC.

### General Information

Reduce the file size if possible, particularly if you plan to send the artwork by e-mail. Use one of the following programs to compress your file: WinZip, 7-Zip. Using compression software is essential when e-mailing vector graphics (AI, EPS, CDR).

WE REQUIRE ALL VECTOR GRAPHICS/PHOTOSHOP DOCUMENTS TO BE SAVED IN ADOBE CREATIVE SUITE VERSION 3 (CS3) FORMAT. ALL CORELDRAW DOCUMENTS NEED TO BE SAVED AS SINGLE PAGES. ALL EPS FILES NEED TO BE SAVED IN AN EDITABLE FORMAT.

# Plant, Vehicles, Machinery and Tools

## Forkliftag®

Forklift inspection system to help control pre-shift inspections, maintenance and identification of forklift trucks.

- Easy-to-follow pre-use operator checklist
- Record up to 42 daily inspections
- Attach to forklift by cable tie or adhesive

### Holder

- Dimensions: 260mm (height) x 153mm (width)
- Material: ABS
- Temperature Range: -5 °C to +65 °C
- Attachment Method: Cable Tie, Adhesive Strip, Magnetic Strip

### Insert

- Dimensions: 193mm (height) x 144mm (width)
- Material: Polypropylene
- Temperature Range: -10 °C to +90 °C

## Combi-tag

Combilift inspection system provides you with all the tools you need to inspect, maintain and identify your combilift, improving safety in the workplace. Ensure all important inspection information is clearly displayed in a prominent position on the combilift.

Use the Combi-tag inspection insert to help control pre-use checks, inspections, maintenance and identification. The insert contains an easy-to-follow pre-use operator checklist on the front and the facility to record up to 32 inspections on the reverse.

- Ease of use and visibility ensures daily inspections are carried out
- Remove the insert and the holder alone puts the combilift immediately into prohibition with an "Inspection Required" status
- Holder is permanently attached to the combilift in a prominent position with either a cable tie, adhesive, screw or rivet

### Holder

- Dimensions: 260mm (height) x 153mm (width)
- Material: ABS
- Temperature Range: -5 °C to +65 °C
- Attachment Method: Cable Tie, Adhesive Strip, Magnetic Strip

## Mewptag

Mewptag is designed to help control frequent inspections, maintenance and identification of MEWPs (Mobile Elevating Work Platforms).

- The Mewptag Insert contains an easy-to-follow pre-use operator checklist and space to record up to 32 inspections
- The holder provides multiple attachment options such as cable tie or adhesive.
- Ensures MEWP operators are informed of latest equipment status clearly at the point of use

### Holder

- Dimensions: 260mm (height) x 153mm (width)
- Material: ABS
- Temperature Range: -5 °C to +65 °C

## Cherry Picker-tag

Purpose designed status tagging system to help control frequent inspections, maintenance and identification of your Cherry Picker a MEWP variant (Mobile Elevating Work Platforms).

Helps you to comply with legislative requirements and good practices of:

- Completing a pre-work inspection before each use of the equipment and ensuring this is recorded
- Inspecting and maintaining equipment at suitable periods as deemed appropriate by a risk assessment
- Ensuring employees are informed if equipment is not safe to use

### Holder

## Racktag

Equipment status management tag for racking and shelving. Convey the pertinent information regarding the racking installation and purpose. Control your inspections and identify quickly should the racking require an inspection.

HSE guidelines advise that racking inspections are done regularly, by employees, within the business itself. Visual inspections should be carried out weekly or at an interval dictated by the risk assessment and recorded.

## Conveyor-tag

Conveyor tagging systems provide you with all the tools you need to inspect and maintain conveyors, improving safety in the workplace.

Use the Conveyor-tag inspection insert to help control pre-use checks, inspections, maintenance and identification. The insert contains an easy-to-follow pre-use operator checklist on the front and the facility to record up to 32 inspections on the reverse.

- Ease of use and visibility ensures daily inspections are carried out
- Remove the insert and the holder alone puts the conveyor immediately into prohibition with an “Inspection Required” status
- Holder is permanently attached to the conveyor in a prominent position with either a cable tie, adhesive, screw or rivet

### Holder

- Dimensions: 260mm (height) x 153mm (width)
- Material: ABS
- Temperature Range: -5 °C to +65 °C
- Attachment Method: Cable Tie, Adhesive Strip, Magnetic Strip

### Insert

- Dimensions: 193mm (height) x 144mm (width)
- Material: Polypropylene
- Temperature Range: -10 °C to +90 °C

## Vehicle-tag

Company used vehicles are working areas. As such, under the Provision and Use of Work Equipment Regulations 1998 (PUWER), it is important that company vehicles are maintained in an efficient state, good working order and in good repair.

Use the Vehicle-tag inspection insert to help control pre-use checks, inspections, maintenance and identification. The insert contains an easy-to-follow pre-use operator checklist on the front and the facility to record up to 32 inspections on the reverse.

- Help create and control pre-use inspections, maintenance and identification of vehicles
- Holder and insert are very flat and are easily stored in the side pocket or glove compartment
- Ease of use and visibility ensures daily inspections are carried out

### Holder

- Dimensions: 260mm (height) x 153mm (width)
- Material: ABS
- Temperature Range: -5 °C to +65 °C
- Attachment Method: Cable Tie, Adhesive Strip, Magnetic Strip

### Insert

- Dimensions: 193mm (height) x 144mm (width)
- Material: Polypropylene
- Temperature Range: -10 °C to +90 °C

## Multitag® Weekly (Weekly Inspection Tag)

The Weekly Inspection Tag enables companies to increase compliance and workplace safety by showing on the equipment itself, it's in date and fit for use.

- Recording 'date inspected' to ensure ease of use. Notes inspection frequency is every 7 days.
- Increase workplace safety by sharing inspection information at the asset with every worker
- Stay compliant in any weather. Robust, weather and tear proof. Remains legible in outdoor conditions when written on with a thin-nibbed permanent marker

## ▶ Ordering information

When ordering Microtag kits/inserts please quote the Order Reference followed by the colour required e.g. MIC-PK GP **BLUE**, MIC-PK GPI **GREEN**, MTIGP **RED**, MTIGPI **ORANGE** etc.

### Insert colours available:

Blue Green Orange Purple Red White Yellow

Barcoded Holder

## ▶ Microtag® nylon cable tie attachment method

Nylon cable ties come as standard with our Microtag holders (Order Ref. SUND-CABLE TIES). If you need to restock, or the option of stainless steel and reusable cable tie attachment methods, please visit [page 50](#).

# Plant, Vehicles, Machinery and Tools

## Microtag® for Electrical Equipment

Microtag for Electrical Equipment is designed to clearly display the Next Test Date at the point of use.

- A selection of coloured inserts are available providing the option of additional visual qualification
- MTI GP insert records the Next Test Date
- A barcoded Microtag holder is also available

### Holder

- Dimensions: 81mm (height) x 38mm (width)
- Material: Nylon
- Temperature Range: -20 °C to +80 °C
- Attachment Method: Cable Tie, Adhesive Strip

### Insert

- Dimensions: 47mm (height) x 30mm (width)
- Material: Polypropylene
- Temperature Range: -10 °C to +90 °C
- Design: Identical both sides

## Eyewash Station/Emergency Shower Tag

Eyewash stations and Emergency Showers tagging system provide you with all the tools you need to inspect, maintain and improve safety in the workplace. We recommend a weekly check of Eyewash stations and Emergency Showers. One tag covers 12 weeks.

- Help create and control regular inspections, maintenance and identification of Eyewash stations and Emergency Showers
- Ease of use and visibility ensures regular inspections are carried out
- Remove the insert and the holder alone puts the asset immediately into prohibition with a “DO NOT USE THIS EQUIPMENT” status
- Holder is permanently attached to the Eyewash stations and/or Emergency Showers in a prominent position with either a cable tie, adhesive, screw or rivet

### Holder

- Dimensions: 210mm (height) x 55mm (width)
- Material: Polycarbonate
- Temperature Range: -20 °C to +130 °C
- Attachment Method: Cable Tie, Adhesive Strip

### Insert

- Dimensions: 164mm (height) x 50mm (width)
- Material: Polypropylene
- Temperature Range: -10 °C to +90 °C

SCAF-DISPENSER BOX COMPLETE	Re-usable polypropylene box with 40 x MK1 Scafftag Holders, 40 x MK1 Scafftag Inserts and 10 x Marker Pens

## Structural Tie Test and 'Do Not Remove' Tags

Structural Tie tags have two offers. Structural Tie Test tag for 5% of ties that are tested, and most importantly, Do Not Remove scaffold tie for use on all others.

### Structural Tie Test Tag

Records the Tie Test Date, Test Load Applied, Required Tensile Strength and a unique number for ongoing monitoring.

### Structural Tie 'Do Not Remove' Tag

A prohibition tag for structural ties that have not been tested.

- Dimensions: 150mm (height) x 80mm (width)
- Material: Polypropylene
- Temperature Range: -10 °C to +90 °C

Tie Tag: Do Not Remove This Tie Or Tag

Tie Tag: Do Not Remove Scaffold Tie

Insert: STSIP-ETS

## ▶ What is RFID Technology?

Radio Frequency Identification (RFID) is an automatic identification system which utilises radio waves to transfer a unique ID from a storage medium to a device configured to read it. RFID does not require physical contact between the reader and the storage medium for data transfer to occur, the signal is also able to pass through different objects dependent on their physical properties i.e. low frequency radio waves are more effective in environments where there is a lot of metal present.

## What is SafeTrak?

SafeTrak is a digital system that supports businesses with inspection planning, equipment inspections and inspection reporting to maximise safety, improve resource performance and minimise costs. The SafeTrak software, combined with devices which can read our RFID enabled tags, uniquely identify assets and their inspection status.

See **page 54** more information about SafeTrak.

# Working at Height

## Towertag®

Towertag is designed to monitor the movement, build and inspection of a Tower at the point of use. Easily identify the user and/or the contractor responsible for the tower.

- Make information regarding the mobile towers build easily available
- Record up to 8 Mobile Tower movements
- Up to 10 records of inspections

### Holder

- Dimensions: 356mm (height) x 91mm (width)
- Material: Nylon
- Temperature Range: -20 °C to +80 °C
- Attachment Method: Hung, Cable Tie, Insert can be secured to the holder for added security.

## Thin nibbed permanent marker pens

Ensure you have enough permanent marker pens to complete your inspections, when you need them. Pens supplied in boxes of 10 (Order Ref. STSM). Visit **page 53** for more information.

# Working at Height

## Eyebolt Test Tag

Eyebolt Test Tag is specifically designed for anchor points and provides a visual representation of the SWL (safe working load), Test Value and Date Tested.

The system can work in conjunction with Scafftag's unique electronic monitoring and recording system, SafeTrak, saving time and costs associated with managing and reporting on equipment inspections

Eyebolt Tag helps you to comply with legislative requirements and good practices, ensuring:

- Equipment is inspected and maintained at suitable periods
- Employees are informed that equipment is within its inspection period

### Eyebolt Test Tag

- Dimensions: 70mm (diameter)
- Material: Polypropylene

Order Reference	Quantity
MISC 115	100 x Tags

## Do Not Use - Eyebolt Tag

Eyebolt Do Not Use - clearly identify your eyebolt is left in prohibition, on what date and who to contact. Clear, concise and visible. The system can work in conjunction with Scafftag's unique electronic monitoring and recording system, SafeTrak, saving time and costs associated with managing and reporting on equipment inspections

- Tear resistant material
- Water and weather proof

### Eyebolt Tag

- Dimensions: 70mm (diameter)
- Material: Polypropylene

## Quarantine Tag

Quickly leave equipment, tools or scaffold in prohibition and clearly communicate who did it and why. Quarantine Tag is a great source of safety communication and compliance in the workplace.

Write with **any pen** in the comments box, wrap it around the asset and pull off the paper strip, revealing a see through sticky strip - it then seals over the text; hangs like a flag, showing 'quarantined' on one side and the details on the other.

Order Reference	Quantity
MISC 160	50 x Tags

## Laddertag®

Laddertag in line with BS EN 131 identifies Professional or Non-professional ladder types, unique ID number and risk assessment period (not to exceed 12 months). Pre-use and In-use checks on the reverse for ease of reference.

- Record unique ladder reference number, intended ladder use, risk assessment period and inspections due
- Record up to 12 ladder inspection due dates
- Pre-use and in-use checks
- As per steps and stools on SafeTrak

### Holder

- Dimensions: 210mm (height) x 55mm (width)
- Material: Polycarbonate
- Temperature Range: -20 °C to +130 °C
- Attachment Method: Cable Tie, Adhesive Strip, or Screws [wooden only]

### Insert

- Dimensions: 164mm (height) x 50mm (width)
- Material: Polypropylene
- Temperature Range: -10 °C to +90 °C

## Ladder, Step Ladder and Podium Inspection Guide Pocket Memo

Invaluable, on-site communication and training tool providing guidance on ladders, step ladders and podium components and inspection checks.

Inspection guide pocket memo provides a useful reminder on-site of key components and checks.

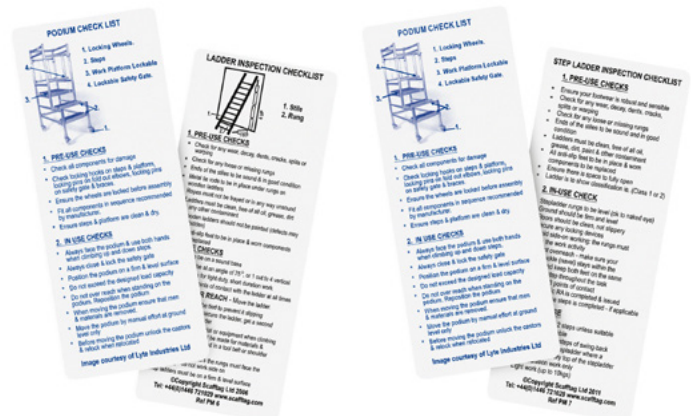

**PM6:** One side contains ladder information and the other side contains podium.

**PM7:** One side contains step ladder information and the other side contains podium.

### Memo

- Dimensions: 208mm (height) x 85mm (width)
- Material: Polypropylene
- Temperature Range: -10 °C to +90 °C

Order Reference	Quantity
PM 6	1 x Ladder and Podium Inspection Guide
PM 7	1 x Step Ladder and Podium Pocket Memo

PM6: Ladder and Podium Inspection Guide

PM7: Step Ladder and Podium Pocket Memo

## ▶ Ladder Inspection Guide poster

See **page 49** for our useful Ladder Inspection Guide - include one with your order. Ref. WS 04

# Working at Height

## Ladder Management - Yellow Book

The Yellow Book is the essential accessory for managing the maintenance of your ladder safety on site.

Containing:

- Legislative guidance
- Sample risk assessment
- Ladder Register (for fixed, mobile, step and pole)
- Written inspection reports
- Fault notification report.

Order Reference	Quantity
<b>The Yellow Book &amp; Ladder Register</b>	
LIY BOXED	1 x The Yellow Book complete
LIY 1	1 x Inspection Report - replacement
LIY 2	1 x Notification of Faults Report - replacement
LIY 7	100 x Ladder Register

## ▶ Thin nibbed permanent marker pens

Ensure you have enough permanent marker pens to complete your inspections, when you need them. Pens supplied in boxes of 10 (Order Ref. STSM). Visit [page 53](#) for more information.

## Ladder Inspection Kit

A complete safety inspection kit for ladders to provide a convenient and complete solution by including all you need to manage your ladders in one simple kit!

Order Reference	Quantity
LAD-LADDERKIT3	1 x The Yellow Book, 3 x Adhesive Pads, 1 x Pen, 3 x Laddertag Holders, 3 x Laddertag Inserts, 1 x Pocket Memo, 1 x Encapsulated Ladder Guide Poster
LAD-LADDERKIT6	1 x The Yellow Book, 6 x Adhesive Pads, 1 x Pen, 6 x Laddertag Holders, 6 x Laddertag Inserts, 1 x Pocket Memo, 1 x Encapsulated Ladder Guide Poster
LAD-LADDERKIT10	1 x The Yellow Book, 10 x Adhesive Pads, 1 x Pen, 10 x Laddertag Holders, 10 x Laddertag Inserts, 1 x Pocket Memo, 1 x Encapsulated Ladder Guide Poster

## ▶ Future-proof your Tagging Systems with RFID Technology

RFID chips can be added to Laddertag on request and work in conjunction with SafeTrak (see [page 54](#)). Streamline your inspections, your management and your reporting with our effective and simple electronic management system. For information on future-proofing your Visual Tagging Solutions with RFID technology, contact your nearest customer services department. Email: [customer.services@scafftag.com](mailto:customer.services@scafftag.com)

## Microtag® for Steps and Stools

Microtag for Steps & Stools is designed to clearly display the Next Inspection Date Due at the point of use.

- Coloured inserts are available providing the option of additional visual qualification
- A barcoded Microtag holder is also available
- An RFID chip can be attached to the holder, for easier management and streamlined reporting of multiple assets/across locations.

### Holder

- Dimensions: 81mm (height) x 38mm (width)
- Material: Nylon
- Temperature Range: -20 °C to +80 °C
- Attachment Method: Cable Tie, Adhesive Strip

### Insert

- Dimensions: 47mm (height) x 30mm (width)
- Material: Polypropylene
- Temperature Range: -10 °C to +90 °C
- Design: Identical both sides

## Podiumtag

Purpose designed status tagging system for podiums to control inspections, maintenance and identification, making it instantly visible at the point of use.

Contains a handy, quick-reference podium inspection checklist to run through each time before using a podium.

Helps you to comply with legislative requirements and good practices of:

- Inspecting and maintaining equipment at suitable periods as deemed appropriate by a risk assessment
- Ensuring employees are informed if equipment is in date, safe (not safe) to use

### Holder

- Dimensions: 210mm (height) x 55mm (width)
- Material: Polycarbonate
- Temperature Range: -20 °C to +130 °C
- Attachment Method: Cable Tie, Adhesive Strip

### Insert

## ▶ Nanotag™ holder split ring attachment method

The attachment holes in the holders are large enough to accommodate split rings (Order Ref. NAN-RING). See **page 51** for more details.

# Workspace Control

## Entrytag®

Entrytag is designed to help prevent accidents and efficiently manage inspection procedures within confined spaces.

- Record information relating to the confined space such as permit numbers, test dates, PPE and safety equipment required
- Record up to 42 shift inspections
- Alternative Entrytag holder with magnetic attachment available

### Holder

- Dimensions: 260mm (height) x 153mm (width)
- Material: ABS
- Temperature Range: -5 °C to +65 °C
- Attachment Method: Cable Tie, Adhesive Strip, Magnetic Strip

### Insert

- Dimensions: 193mm (height) x 144mm (width)
- Material: Polypropylene
- Temperature Range: -10 °C to +90 °C

## Man In...

Used in conjunction with Entrytag, each authorised person(s) has a dedicated Man in Confined Space or Man in Tank Tag (containing their details). The tag attaches to the Entrytag before entering a confined space, removing the tag when leaving. By counting the number of Man in Tags at the point of entry, it is instantly clear how many people are working in the confined space.

- Dimensions: 164mm (height) x 50mm (width)
- Material: Polypropylene
- Temperature Range: -10 °C to +90 °C

Order Reference	Text/Legend	Quantity
EITL 577	Man in Confined Space	1 x Tag
EITL 529	Man in Tank	1 x Tag

EITL 577

## ▶ Entrytag® holder metal fixing ring

The metal fixing rings enable the attachment of Man in... tags to the Entrytag holder (Order Ref. ENT-CLIP). See **page 51** for more details.

# Workspace Control

## Permit Wallets

Permit Document Wallets provide ultimate protection and full visibility of permits/documents at the point of use.

- UV and water resistant
- Transparent front and back reducing the need to remove displayed documents
- Accessed by zip closure (bottom to top) to ensure maximum water resistance
- Available in A4 and A5 sizes

Order Reference	Quantity
PW1	1 A4-Permit Wallets
PW2	1 A5-Permit Wallets

## Chemtag®

The Chemtag insert contains all the pertinent information (from MSDS) specific to the risks that hazardous substances pose, in case of emergency. Information includes:

- Substance type
- Details of hazards and precautions
- Action to be taken in case of emergency
- Immediate first aid and spillage treatment
- Fire extinguisher type

### Holder

- Dimensions: 260mm (height) x 153mm (width)
- Material: ABS
- Temperature Range: -5 °C to +65 °C
- Attachment Method: Cable Tie, Adhesive Strip

### Insert

- Dimensions: 193mm (height) x 144mm (width)
- Material: Polypropylene
- Temperature Range: -10 °C to +90 °C

Ensure you always have a pen at hand while completing your inspection and maintenance checks. See **page 53** for more details.

# Workspace Control

## Excavation-tag (2 Hidden Services options available)

Excavation-tag enables you to increase compliance and workplace safety by communicating vital information at an excavation entrance regarding hidden services identified, who is the TWC and what PPE is required, where it can be seen by all workers.

- Visually communicate daily/weekly inspections for your excavation
- Stay compliant in any weather: the durable tag will stay attached and remain legible in outdoor conditions if written on with a permanent marker
- By removing the insert you immediately display the 'Do Not Enter' sign, helping you comply with your duty of care

### Holder

- Dimensions: 260mm (height) x 153mm (width)
- Material: ABS
- Temperature Range: -5 °C to +65 °C
- Attachment Method: Cable Tie, Adhesive Strip, Magnetic Strip

### Insert

- Dimensions: 193mm (height) x 144mm (width)
- Material: Polypropylene
- Temperature Range: -10 °C to +90 °C

<b>Inserts Only</b>	
ETSI E	1 x Tag-1 Insert
ETSI E V2	1 x Tag-2 Insert
<b>Holders &amp; Pen</b>	
ETSH	10 x Holders, 1 x Pen

## TempWorks-tag

The TempWorks Tag (temporary works) consists of a robust insert and holder which can be attached directly to a broad variety of temporary works. On the insert, workers can immediately see when the temporary works were last inspected. See the owner of the Temporary Works, the SWL (if applicable) and the inspection data. Record the Installation Date; Temp. Works Ref; Level and Location; Installed by; Owner/Company; Temporary Works Co-ordinator; Additional comments. A single insert can record up to 21 inspections.

- Increase workplace safety by sharing vital information on the temporary works itself with every worker
- The durable tag will stay attached and remain legible in outdoor conditions when written on with a permanent marker
- By removing the insert, you immediately identify that an inspection is required

### Holder

- Dimensions: 260mm (height) x 153mm (width)
- Material: ABS
- Temperature Range: -5 °C to +65 °C
- Attachment Method: Cable Tie, Adhesive Strip, Magnetic Strip

### Insert

- Dimensions: 193mm (height) x 144mm (width)
- Material: Polypropylene
- Temperature Range: -10 °C to +90 °C

# Workspace Control

## Fencing-tag

Our Fencing-tag enables you to increase compliance and workplace safety by communicating vital information on the fencing itself where it can be seen by all workers.

- Increase workplace safety by sharing vital information within the fenced area with every worker
- Stay compliant in any weather: when applied correctly, the durable tag will stay attached and remain legible in outdoor conditions if written on with a permanent marker
- When the insert is removed it clearly states on the holder that the fencing may be unsafe. Do not store or lean materials against the structure.

### Holder

- Dimensions: 260mm (height) x 153mm (width)
- Material: ABS
- Temperature Range: -5 °C to +65 °C
- Attachment Method: Cable Tie, Adhesive Strip, Magnetic Strip

ETSH-HF	10 x Holders, 1 x Pen

## Hoarding-tag

The Hoarding-tag enables companies to increase compliance and workplace safety by communicating vital information about the hoarding and within the hoarded area where it can be seen by all workers.

- Increase workplace safety by sharing vital information on the hoarding and within the hoarded area with every worker
- Stay compliant in any weather: when applied correctly, the durable tag will stay attached and remain legible in outdoor conditions if written on with a permanent marker
- When the insert is removed it clearly states on the holder that the hoarding may be unsafe. Do not store or lean materials against the structure.

# Workspace Control

## Asbestos Tag (Asbestos Management Tagging)

A complete asbestos tagging system to ensure latest status is instantly visible at all areas at risk of having Asbestos Containing Materials (ACMs) present. Helps you comply with legislative requirements and good practices of:

- Working alongside your Asbestos Register, inspecting ACM at periods denoted by your risk assessment (not exceeding 12 months).
- Visually display warnings at each location that ACM's are present and have been visually inspected.
- Holder denotes area is not asbestos free and NO remedial works should be carried out without further investigation.

### Holder

- Dimensions: 210mm (height) x 55mm (width)
- Material: Polycarbonate
- Temperature Range: -20 °C to +130 °C
- Attachment Method: Cable Tie, Adhesive Strip

### Insert

- Dimensions: 164mm (height) x 50mm (width)
- Material: Polypropylene
- Temperature Range: -10 °C to +90 °C

Order Reference	Quantity
<b>Kits - Holders, Inserts &amp; Pen</b>

EITH 604	10 x Holders for Red Inserts, 1 Pen

## Asbestos Warning Labels

Self-adhesive stickers, visual communicating the current status from your asbestos survey. Areas where asbestos containing materials (ACM's) have been confirmed as:

- Containing
- May contain
- Asbestos free

Order Reference	Quantity
MISC 24	1 x Asbestos warning label
MISC 23	1 x Asbestos warning label
MISC 22	1 x Asbestos warning label
MISC 21	1 x Asbestos warning label

## Asbestos Inspection Guide posters

See **page 49** for our useful Asbestos Inspection Guides - (i) where it could be (ii) working with the regulations. Ref. WS 05 & WS 05a

## Flange and Leak Test Tag

Flange Tag helps control inspection, modification and maintenance throughout the flange break / inspection process.

The system is three part perforated and assists the user to clearly identify the various stages of the operation from the initial break to the re-energisation of the system.

Both Flange and Leak Test Tags can be supplied with unique ID numbers for enhanced control and tracking.

- Dimensions: 200mm (height) x 83mm (width)
- Material: Polypropylene
- Temperature Range: -10 °C to +90 °C

STSI 522A Flange Tag

STSI 422DS Joint Tag

Order Reference	Quantity
STSI 522 A	10 x 3-Part Flange Tag
STSI 422 DS	10 x 3-Part Leak Test Tag

## Isolation-tag

Isolation Tag is designed to help control mechanical and electrical isolation procedures and prevent inadvertent re-energising of the system.

Isolation Tag is a perforated tag and consists of two identical sections which are completed by the person in charge. The top half is attached to the isolation point, the bottom is removed and stapled to the Permit to Work. The isolation is lifted when the attached half is removed and re-united with the other on the Permit to Work.

- Dimensions: 200mm (height) x 83mm (width)
- Material: Polypropylene
- Temperature Range: -10 °C to +90 °C

Order Reference	Quantity
ISO 08	10 x Isolation Tag

## Unitag® for Valves

A purpose designed insert for valve identification. A choice of different colour inserts are available providing the option of additional visual qualification.

### Insert

- Dimensions: 41mm (diameter)
- Material: Polypropylene
- Temperature Range: -10 °C to +90 °C
- Design: Identical both sides

Order Reference	Text/Legend	Quantity
<b>Inserts Only</b>		
UNI 4	Safe Working Load, Next Inspection Date Due	1 x SWL Unitag Insert
<b>Holders, Strops &amp; Pen</b>		
UNH 6	Do Not Use	20 x Unitag Holders, 20 x Nylon Strops (150mm), 1 x Pen
UNH 9 A	Do Not Use	20 x Unitag Holders, 20 x Nylon Strops (225mm), 1 x Pen

▶ Designed to operate alongside Unitag holders (see **page 17**).

## ▶ Ordering information

When ordering Unitag for Valve inserts please quote the Order Reference followed by the colour required e.g. UNI 4 **BLUE**, UNI 4 **RED** etc.

### Insert colours available:

# Process & Pipelines

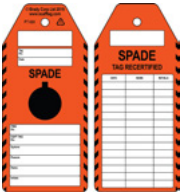

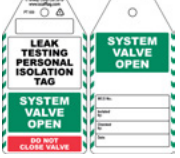

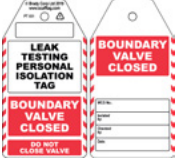

## Process Tags

Easily communicate work equipment process management and control using highly practical and eye-catching colour-coded tags.

- Visualise management and control of work equipment processes
- Applications include cylinders and tanks, equipment, leaks and contamination, hoses and valves
- Share important safety information where it matters
- Reliable, chemical resistant, and easy to apply with cable ties
- Material: 0.5mm polypropylene.

## Custom Lockout/Tagout Shadowboards

Make safety top of mind in the workplace and optimise Lockout/Tagout efficiency with highly visible, custom lockout shadowboards.

- Increase efficiency by organising relevant lockout procedures, padlocks, devices, tags and accessories on shadowboards
- Keep safety and Lockout/Tagout top of mind in the workplace with highly visible shadowboards
- Maintain efficiency by promoting the return of tools to the board with tool shadows.

### Shadowboard customisation guide

Meet the needs of your facility with a customised shadowboard. List the items you want on your shadowboard:

#### 1. Add the tools you need

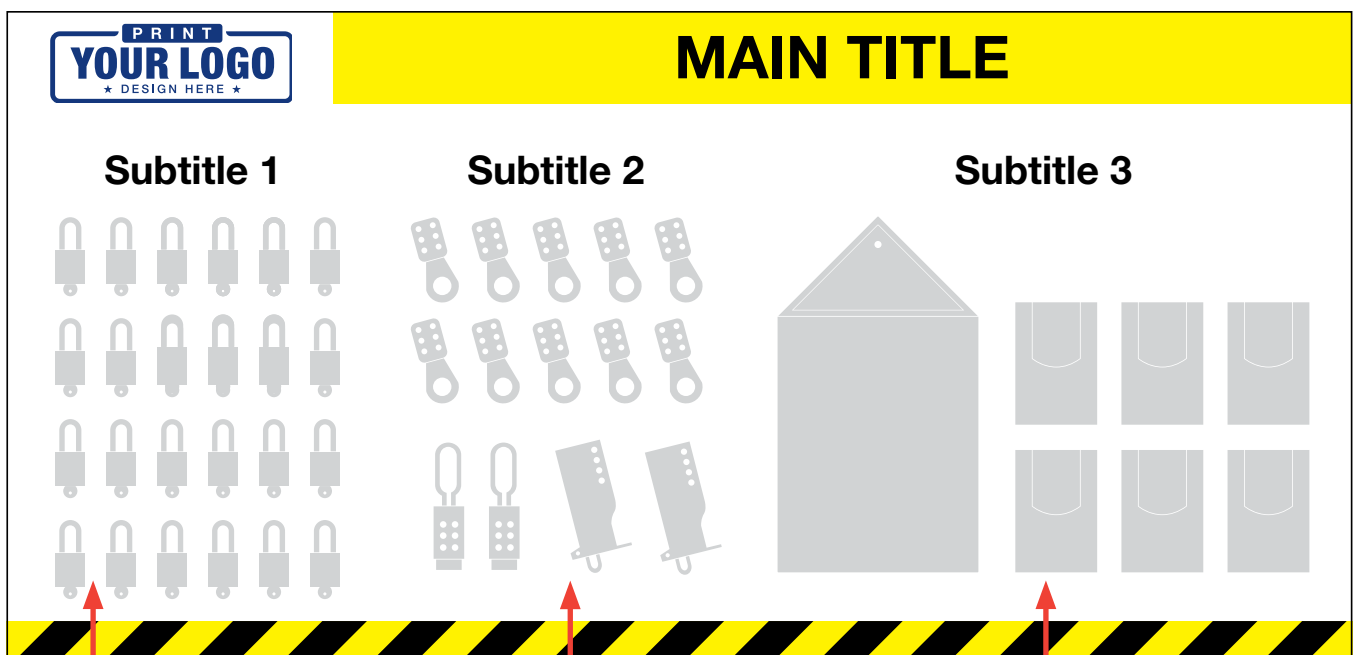

- Padlocks
- Lockout devices
- Desired accessories such as document or tag holders, wall rails, set of board pins, etc.

#### 2. Select a construction material

- Transparent plexiglass
- White laminated vinyl

#### 3. Choose your layout

- Add a main title, secondary titles and/or other text
- Choose shadow colours so they match your tools
- Add your logo, hatched frames or other visuals.

Decide which type of padlocks you want to add, and in which quantity.

Decide which type of devices you want to add, and in which quantity.

Decide which accessories you want to add, and in which quantity.

### ▶ Visually communicate control of work activity

We can custom design your board to fit seamlessly with your business and systems. Every board is uniquely designed to fit customer requirements

## Scaffag Scaffold Inspection Guide Poster

Scaffag Scaffold Inspection Guide wall sheet detailing key scaffolding components, legislation requirements and inspection checks (encapsulated version available).

Order Ref.	Quantity
WS 01	25 x Scaffold Inspection Guide Posters
WS 01 ENCAP	25 x Scaffold Inspection Guide Posters (Encapsulated)

## Scaffag 3 Stage System Poster

A2 Wall sheet Guide to Scaffag Scaffold Systems Poster. Outlines to users how to correctly use the Scaffag tagging system and related systems available.

Order Ref.	Quantity
WS 03	25 x Scaffag 3-Stage System Posters

## Ladder Inspection Guide Poster

Ladder Inspection Guide Poster details key components, user's do's and don'ts and legislation requirements. Updated to align with BS EN 131 (encapsulated version available).

Order Ref.	Quantity
WS 04	25 x Ladder Inspection Guide Posters
WS 04 ENCAP	25 x Ladder Inspection Guide Posters (Encapsulated)

## Forklift Inspection Guide Poster

Forklift inspection guide posters to be used as handy on-site communication and training tools providing guidance on forklift components, management data requirements and safe usage.

Order Ref.	Quantity
WS 07	25 x Forklift Inspection Guide Posters

## Asbestos Inspection Guide Poster

Invaluable, handy on-site communication and training tools providing guidance on typical locations of asbestos containing materials and management duties.

Order Ref.	Quantity
WS 05	25 x Asbestos Inspection Guide Posters

## Working with the Regulations

A Guide to the Control of Asbestos Regulations 2012 provides a flowchart to identify your duties under the regulations.

Order Ref.	Quantity
WS 05a	25 x A Guide to the Control of Asbestos Posters

# Accessories

## Tie Tag, Small and Large Flag

Scafftag.co.uk offers the Tie Tag designed for Lifting Equipment ID to increase effectiveness of communication in the workplace.

Overprinting with black ink is available on request.

Order Reference	Quantity
40054 SUND-RITCHEY TIE TAG	1 x Tie Tag
40049 SUND-RITCHEY SML FLAG	1 x Small Flag
40050 SUND-RITCHEY LRG FLAG (O)	1 x Large Flag

## Ordering information

When ordering a tag please quote the Order Reference followed by the colour e.g. 40054 SUND-RITCHEY TIE TAG **BLUE**

Insert colours available:

Black Brown Blue Green Orange Purple Red White Yellow

\* Tie Tag is the only tag available in Brown.

The **Loop Tag** and **Applicator** are ordered on request in limited quantities and colours. For more information email: [customer.services@scafftag.com](mailto:customer.services@scafftag.com)

## Tie Tags - Petrol, Diesel and Water

Quickly and easily provide identification of stored liquids (2 Stroke, Diesel, Petrol and Non-drinking water).

- Visible and immediate ID tags are critical to a vast array of safety procedures
- Durable and flexible
- Oil, grease, solvent, acid & alkali resistant
- Self fastening - no need to additional cable fixings.

Order Reference	Quantity
SUND-RITCHEY-MISC 1222 - Diesel	1 x Tie Tag - Diesel
SUND-RITCHEY-MISC 1223 - Petrol	1 x Tie Tag - Petrol
SUND-RITCHEY-MISC 1224 - 2 Stroke	1 x Tie Tag - 2 Stroke
SUND-RITCHEY-MISC 1225 - Non-Drinking Water	1 x Tie Tag - Non-Drinking Water

## Barcoded Cable Ties

Robust and non-obtrusive, the barcoded cable ties come in packs of 50 and can increase effectiveness of communication in the workplace. Use alongside Safetak Mobil for ease of inspection and reporting (see page 54).

Order Reference	Quantity
SUND MARKER TIE 100 x 2.5	1 x Bar Coded Cable Tie

## Black Nylon Cable Ties

Our Cable Ties enable secure attachment of Visual Tags to corresponding equipment.

Order Reference	Quantity
SUND-CABLE TIES	50 x Black Cable Ties

## Stainless Steel Cable Ties

Our Stainless Steel Cable Ties offer an alternative to standard Cable Ties and enable secure attachment of Visual Tags to equipment. A perfect fit for Nanotag's, especially on lifting equipment.

Order Reference	Quantity
SUND-CABLE TIES SS	40 x Stainless Steel Cable Ties

## Reusable Cable Ties

Reusable cable ties enable secure attachment of Visual Tags to corresponding equipment. Available in three lengths, 100mm, 140mm and 250mm.

Order Reference	Quantity
SUND-REL 100	100 x Reusable Cable Ties - 100mm
SUND-REL 140	100 x Reusable Cable Ties - 140mm
SUND-REL 250	100 x Reusable Cable Ties - 250mm

## Adhesive Strips

Our double-sided adhesive strips are applied to the back of the tag holders for attachment to a flat, clean surface.

Order Reference	Quantity
ADHPAD	10 x Adhesive Pads

## Split Ring Attachment for Nanotag

Split Rings work alongside Nanotag as an attachment option, perfect for harnesses.

Order Reference	Quantity
NAN-RING	10 x Split Ring for Nanotag

## Metal Fixing Clip for Man in Tank Tag

Our Metal Fixing Clips are designed to attach 'Man in Tank / Confined Space' Tags to the Entrytag holder.

Order Reference	Quantity
ENT-CLIP	1 x Man In Tag Fixing Clip

## Wire Strops

Ends of Wire Strop screw together to create a looped secure tie. Used for secure attachment of Visual Tags to equipment.

Order Reference	Quantity
SUND-WIRE PH 20	20 x Wire Strop

## Permit Wallets

Permit Document Wallets provide ultimate protection and ease of viewing any documents, onsite.

- UV and moisture resistant
- Transparent front and back reducing the need to remove displayed documents
- Accessed by zip closure (bottom to top) to ensure maximum water resistance
- Available in A4 and A5 sizes

Order Reference	Quantity
PW1	1 x A4-Permit Wallets
PW2	1 x A5-Permit Wallets

# Accessories

## Worker ID Tag (ICE: In Case of Emergency)

Worker Emergency ID Tag securely stores the workers critical and potentially lifesaving information, essential in the event of an accident or medical emergency.

- Adhesive strip attaches securely to exterior of the workers hard hat
- 100% waterproof: can be used in extreme conditions
- Helmet safe: will not weaken or damage the workers hard hat in any way
- Weighs less than 5 grams
- Security flap protects the workers information
- Clear name window identifies the owner of the PPE, ideal when a number of workers are together and superior to the non-window option

Order Reference	Quantity
WSID 01	1 x Worker Emergency ID Tag - No Window
WSID 02	1 x Worker Emergency ID Tag - With Window

## Universal Fit ID

Universal Fit ID is suitable for all industries and all employees and contractors. Invaluable to first responders and/or paramedics in the event of an accident or medical emergency.

The unique silicone 'stretch-ring' fitting system allows this product to be so flexible in how the system is used.

It can be fitted to lanyards, key-rings, belts, fall restraints etc. It is ideal for use in non-helmet wearing industries / occupations or a perfect supplement to our Hard Hat ID products.

Features a fully waterproof ID card and new gasket sealed lid design to keep your personal recorded information safe and secure against the elements. The Universal ID is very durable / tough and can withstand extremes of temperature (heat or cold).

- Unique stretch-ring fitting system
- Weather-proof design with lid gasket
- Waterproof synthetic paper ID card
- Impact resistant casing, shielded hinge
- Supplied with spring loaded key-ring hook
- Strong 'Emergency Response' lid graphic

Order Reference	Quantity
WSID 05	1 x Universal Fit ID Tag

# Accessories

## Permanent Marker Pens

Thin nibbed Permanent Marker Pens to write equipment reference and inspection information on our entire range of standard and bespoke visual tags.

Order Reference	Quantity
STSM	10 x Permanent Marker Pens

## Pen Clip Holder

The Pen Clip Holder is unobtrusive (13mm width) and suitable for attachment to any ETSH style holder including, but not limited to, Vehicle Tags, Entrytags, Chemtags, Excavation-tags, TempWorks-tags, Fencing-tags and Hoarding-tags.

The Pen Clip Holder attaches to the side of the holder to ensure you always have a suitable pen at hand while completing your inspection and maintenance checks.

Pens are not included, they must be ordered separately (Order ref: STSM). The pen clip holders accommodate the Edding 141 F pen supplied as standard with certain products.

Order Reference	Packaging
SUND-PENHOLDER	10 x Pen Clip Holder

## Insert Clear Covers

Clear covers provide extra protection and increase durability of tag inserts in environments that are prone to dirt, chemicals or sprayed matter. Clear covers provide additional UV protection for the written text on the inserts.

Order Reference	Quantity	Height (mm)	Width (mm)	Diameter (mm)
ENT-ETSI CLEAR	1 x Entrytag Insert	193.00	144.00	-
MIC-MTI CLEAR	1 x Microtag Insert	47.00	30.00	-
MUL-EITL CLEAR	1 x Multitag Insert	164.00	50.00	-
NAN-NAN CLEAR	1 x Nanotag Insert	34.00	18.00	-
SCAF-STSI CLEAR	1 x Scafftag Insert	208.00	85.00	-
UNI-UNI CLEAR	1 x Unitag Insert	-	-	41.00

## Blank Inserts

Blank Inserts are to be used alongside tag holders for your inspection and maintenance needs to increase communication and safety in your workplace, perfect when operating a 'colour safe' system.

Order Reference	Quantity	Height (mm)	Width (mm)	Diameter (mm)
ENT-ETSI PLAIN	1 x Entrytag Insert	193	144	-
SCAF-STSI PLAIN	1 x Scafftag Insert	208	85	-
MUL-EITL PLAIN	1 x Multitag Insert	164	50	-
UNI-UNI PLAIN	1 x Unitag Insert	-	-	41
MIC-MTI PLAIN	1 x Microtag Insert	47	30	-
NAN-NAN PLAIN	1 x Nanotag Insert	34	18	-

Blue Green Red White Yellow

## Optimise equipment inspections with SafeTrak

Too many workplace accidents are still caused by using equipment that is not fit for use. These accidents can have grave consequences. Imagine a scaffold collapsing: co-workers and passers-by might be seriously injured with colossal impact for themselves, their families and your business. Think about what happens when your fire extinguishers do nothing when they should, when valves suddenly break down, or when the reverse warning indicator on a forklift does not work.

**Diligent inspection planning, thorough equipment inspections and clear inspection reports and histories can save lives, avoid suffering and major costs across multiple industries.**

### What is SafeTrak?

SafeTrak is a digital system that supports businesses with inspection planning, equipment inspections and inspection reporting to maximise safety, improve resource performance and minimise costs.

#### To do this, SafeTrak offers:

- Digital planning of regular equipment inspections
- Guided, step-by-step customisable equipment inspections
- Automated reporting on demand or at regular intervals
- Digital book in/out for equipment.

### SafeTrak benefits

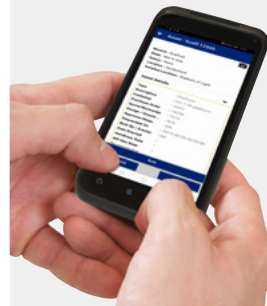

#### Digital equipment inspections offer a number of advantages:

- Easy inspection planning complete with automated reminder emails
- Accurate, standardised, customisable equipment inspections
- Complete inspections on-the-job and immediately upload the completed template
- Auto-generate reports in one click including the latest inspection data
- Receive complete, auto-generated reports and audit trails at regular intervals via email.

### SafeTrak mobile app

The SafeTrak Mobile App can easily be accessed in the field on any smartphone. Internet access is not required. Log out after an inspection and the app will automatically upload data for immediate reporting once internet connection is restored.

- **Reduced errors:** avoid retyping data by capturing field inspection results digitally, simply upload the data by logging out of the app
- **Immediate reporting:** the SafeTrak web app automatically includes the data in predefined report templates

**SafeTrak web app  
30 day free trial.**

## SafeTrak solution components

A typical SafeTrak package includes:

### USERS

Customers can define different access rights in the Safetrak user management section. Supervisor users can use all functions, while other users have specific access.

### IDENTIFICATION TAGS

Tags will vary depending on the style and size of equipment being tagged. Tags are equipped with RFID or Barcode technology to:

- Uniquely identify assets.
- Prove attendance at asset location.
- Or to book an item out of stores.

### DATABASE

The SafeTrak database holds all the records about assets and their individual histories. Various interfaces are available including administration client, booking system, web portal.

### EQUIPMENT MODULES

Modules determine the questions that are asked on the handheld and the reports that are generated. There are a number of standard off the shelf modules available or SafeTrak can be created to your specific requirements.

### HANDHELDS

Mobile handhelds are used by operators in the field to perform and record tasks such as inspections. We offer a variety of handhelds to fit your environment including rugged devices for industrial working conditions and intrinsically safe models.

### REPORTS

Reports and modules can be customised and branded to your business requirements. Exporting options include CSV, PDF.

## SafeTrak inspection modules

SafeTrak already includes 24 off-the-shelf inspection modules for various types of equipment:

### WORKING AT HEIGHT

- Fall protection Arrest
- Harnesses
- Ladder
- MEWP
- Forklift
- Lifting Equipment
- Scaffold

### WORKSPACE CONTROL

- Asbestos Register
- Excavation
- Life Vest
- PPE
- Playground & equipment
- Safety Boards
- Safety Nets

### PLANT, VEHICLES, MACHINERY & TOOLS

- Electrical
- Fire Door
- Fire Extinguisher / Fire Point
- General Asset
- General Tool
- Heavy Plant
- Safety Shower / Eyewash

### PROCESS & PIPELINES

- Concrete Pipe
- Flange
- Site Audit
