

## Managing safety with a secure fit

### Exclusive T-handle Ball Valve Lockout

Make sure you isolate hazardous energy, like electricity and water, the safe way with Brady's T-handle Ball Valve Lockout. **Unlike other devices, it has an exclusive, adjustable design that provides a secure fit when locking out T-handle ball valves on PVC pipes.** This lockout device is easy to apply, lock and store, and is a safer alternative to using ill-fitting gate valves and cable lockouts, or using tagout alone. And, easy installation means you can move on to equipment maintenance sooner knowing you're keeping everyone safe.

- **Exclusive design** — adjustable slides ensure proper fit and prevent removal
- **Easy to use** — the hinged, single-piece device installs quickly
- **One-size-fits-most solution** — either large PVC pipes with 1.25 - 2 inch diameters, or small PVC pipes with 0.5 - 1 inch diameters

## Specifications

	Small	Large
Diameter in. (mm)	4.25 (107.9)	6.25 (158.7)
Depth in. (mm)	1.75 (44.4)	2.00 (50.8)
Valve stem diameter range in. (mm)	1.22 - 1.57 (31.0 - 40.0)	1.22 - 2.24 (31.0 - 57.0)
Material	ABS plastic	
Maximum number of padlocks or lock hasps	1	
Max padlock shackle diameter in. (mm)	0.28 (7.1)	
PVC pipe diameter range in. (mm)	0.50 - 1.00 (12.7 - 25.4)	1.25 - 2.00 (31.7 - 50.8)
