

TEMPWORKS TAG

The TempWorks Tag (temporary works) consists of a durable insert and holder which can be attached directly to a wide range of temporary works. On the insert, workers can immediately see when the temporary works was last inspected, and if it was deemed fit for use. All other vital safety information on the tag can also become immediately available to any worker using the temporary works.

- Comply with EU Directive 92/57/EEC by offering inspectors an easy way to add inspection date and time with signature, and by offering a visible space to communicate vital information
- Increase workplace safety by sharing vital information on the temporary works itself with every worker
- If applied correctly, the durable tag will stay attached and remain legible in outdoor conditions if written on with a permanent marker
- When equipment is not fit for use, inspectors can remove the insert, leaving a clear "Do Not Use" message on the holder.

Article No.	Order Reference	Description	Height (mm)	Width (mm)	Quantity
Holders Only					
198474	ENT-GB-ETSH-TW	Tempworks-tag Holders	260.00	153.00	10 Tempworks-tag Holders, 1 Pen
