### Floor marking for all traffic levels

Depending on a floor's traffic level, Brady offers 3 types of reliable, colour coded floor marking tapes. The vinyl tape is good for temporary use in light traffic areas, and ideal during lean or Kaizen events. The ToughStripe tape, made out of polyester, is better suited for more permanent application in medium traffic areas with pedestrians and light vehicles. Brady's newest tape, ToughStripe Max, is designed for areas with heavier traffic and forklifts.

### Safer pedestrians, efficient vehicles

Clearly marked floors are a practical solution to keep pedestrian and vehicle traffic separated in warehouses or logistical areas. Just like traffic lanes on public roads, they help to increase safety and efficiency for all users. Co-workers on foot can immediately see where they can walk safely, while vehicle efficiency can be increased within their dedicated traffic zones.

### Increase compliance

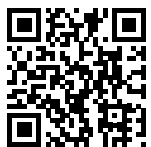

Floor marking supports compliance with the EU Directive 92/58/EEC, which mentions that employers shall provide safety and or health signs where needed. Annex V of the Directive, on the minimum requirements governing signs used for obstacles and dangerous locations, and for marking of traffic routes, further includes that traffic routes for vehicles must be clearly identified by continuous stripes in a clearly visible colour if required for the protection of workers.

	Solution	Key Features	Applications	
<b>Good</b>	Aisle Marking Tape B-726 Vinyl	More cost-effective solution for short application period	Temporary marking for 5S/LEAN areas, work cells that change and more	
<b>Better</b>	ToughStripe - Floor Marking Tape B-514 Polyester	Longer application period with more shape and customisability options	Visual workplaces in 5S/LEAN, walkways, aisle and medium traffic level areas	
<b>Best</b>	ToughStripe Max - Floor Marking Tape B-543 Vinyl	Highest durability	Higher forklift and industrial vehicle traffic	
<b>Other</b>	Paint Stripe - Floor Marking Stencils B-518/B-519 for different surface types	Paint stencil for longer, more permanent marking	Permanent work area designation
