

TOUGHSORB™ Adhesive Absorbent Mats

Absorbency and Adhesion - The Perfect Solution for High Traffic Areas

Brady SPC's TOUGHSORB™ Adhesive Mats are a great addition to your absorbent program. The tacky underside adheres to any surface, keeping the absorbent in place to greatly reduce the likelihood of slips, trips and falls.

Choose from permanent and semi-permanent applications depending upon your need

- The original line is great for permanent applications
- The new "BLUE" line is easily adhered to and removed from most surfaces for greater flexibility. Use in walkways and aisles, near equipment and as a replacement for traditional rugs.

Multiple functions

- All-purpose universal mat designed for general industrial applications
- Ideal for use in tool cribs or for walkway protection
- Color masks drips and spills, encouraging longer use
- Needle-punch material provides the durability of a traditional rug with greater absorbency
