

Visual Workplace for Lean Enterprises

Ideas, Best Practices & Solutions
www.bradyeurope.com/visualworkplace

Visual Workplace Applications

The examples on these pages are designed to help you think about how visual devices can benefit different aspects of your lean initiative, improving productivity, profitability, customer satisfaction and employee morale.

Visual Order*

Related Lean Concepts:

5S Workplace Organisation

Goals:

To create a clearly identified place for everything, and for everything to be kept in its place.

Examples:

Location identifiers for tools, parts, materials, product, equipment

Benefits:

Reduced inventory, efficient space utilisation, enhanced productivity, and greater operational stability

*By permission of QMI/Visual-Lean Institute

Visual Standards

Related Lean Concepts:

Standard Work, Quick Change-over, Pokayoke (Mistake Proofing)

Goals:

Display procedures and technical information at the point of use to ensure that best practices are followed consistently by all employees

Examples:

Setup, operating, inspection and maintenance instructions

Benefits:

Shorter cycle times, improved quality, enhanced safety awareness, simplified training and scheduling

Visual Equipment

Related Lean Concepts:

Total Productive Maintenance, Standard Work, Quick Change-over

Goals:

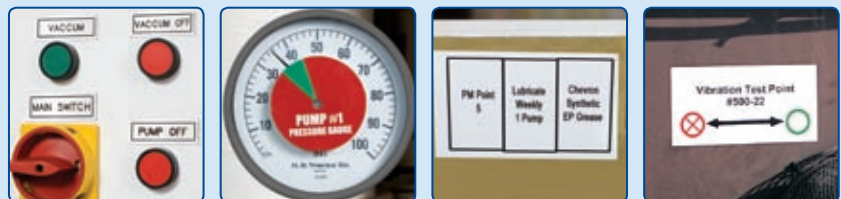

Speed proper setup, ensure correct equipment usage, and easily detect operating abnormalities at a glance

Examples:

Operator control labels, gauge indicators, inspection and service labels, hazard warning labels

Benefits:

Faster change-overs, fewer operator errors, simplified autonomous maintenance, fewer defects

Visual Production / Inventory Control

Related Lean Concepts:

Kanban Pull Production,
Just In Time

Goals:

Control production flow to ensure the right product is produced in the right quantity at the right time. Also, clearly identify system components and flow of product through facility

Examples:

Kanban cards, replenishment indicators, inventory labels, equipment ID

Benefits:

Shorter lead times, reduced inventory levels, improved on-time delivery, faster troubleshooting

Visual Metrics / Displays

Related Lean Concepts:

Kaizen, 5 Y's

Goals:

Inform employees of key initiatives, track performance against goals, recognize efforts and achievements

Examples:

Scoreboards, slogan banners, kaizen improvement displays

Benefits:

Better alignment with corporate goals, improved accountability, real-time performance tracking, heightened employee involvement

Visual Safety

Related Lean Concepts:

6S (5S + Safety)

Goals:

Ensure that hazards are clearly identified and that employees know how to work safely

Examples:

Equipment hazard labels, chemical labels, warning signs, accident prevention tags

Benefits:

Lower workers compensation costs, improved employee morale, enhanced regulatory compliance, reduced downtime

Brady Visual Workplace Solutions

Brady offers products and services that can help you implement these ideas and more. For further information, review the catalogue and our website (www.bradyeurope.com/visualworkplace) or call us. Brady has trained representatives locally available and ready to support you with expert advice and assistance.

What is Visual Workplace?

Visual Workplace - also known as Visual Factory or Visual Management – is a lean concept that emphasizes putting critical information at the point of use. Visual systems and devices play a critical role in many of the most popular lean tools, including 5S, Standard Work, Total Productive Maintenance, Quick Change-over, and Kanban (Pull Production). In fact, Visual Workplace serves as the key sustaining force for these initiatives, because it ensures that lean and six sigma improvements remain clearly visible, readily understood, and consistently adhered to long after the Kaizen or rapid improvement event is over.

A visual workplace is a work environment that is self-ordering, self-explaining, self-regulating and self-improving – where what is supposed to happen does happen, on time, every time, because of visual solutions.

From “Visual Workplace, Visual Thinking” by Dr. Gwendolyn Galsworth, www.visualworkplace.com

Companies are often surprised to learn that only a fraction of their activities actually add value for their customers. It’s not uncommon that **50% or more of a facility’s activities are considered waste!**

A primary cause of waste is information deficits – employees simply lack the knowledge they need to do their jobs efficiently and effectively. This leads employees to waste valuable time and motion searching, waiting, retrieving, reworking or just plain giving up! A visual workplace eliminates questions, generating significant improvements in productivity, quality, customer satisfaction, safety, and more.

The effective implementation of visual systems has been documented to generate the following dramatic improvements:

- 15% increase in throughput
- 70% cut in materials handling
- 60% decrease in floor space
- 80% decrease in flow distance
- 68% reduction in rack storage
- 45% decrease in number of forklifts
- 12% decrease in engineering cycle time
- 50% decrease in annual physical inventory time
- 96% decrease in defects

Brady software and printing systems are essential tools for implementing a visual workplace, making it easy for you to create a limitless variety of visual displays and controls.

- Simple & Fast:**
 Visual devices are quickly and easily designed onscreen, then printed and automatically cut to size.
- Available On Demand:**
 Print what you need when you need it. No waiting!
- Customised:**
 Say exactly what you want to say and illustrate your message with imported drawings & photos.
- Economical:**
 Create visuals for significantly less than custom graphics produced at outside vendors.
- Professional:**
 Create professional-quality visuals that are easy to read at a glance.
- Durable:**
 Our standard vinyl tape employs an adhesive that sticks and stays stuck to even curved and textured surfaces like pipes, walls, floors, etc. The thermal-transfer printed images withstand moisture, sun, cleansers and chemicals
- Standardised:**
 Predefined templates help promote consistency and ensure that visual devices used across different cells and sites employ the same standardised look.
- Impactful:**
 GlobalMark and PowerMark printers print with multiple colours for extra visual impact and clarity. The GlobalMark goes even further, with process colour capabilities that allow you to print logos and photographs.

The Ultimate Visual Workplace Tool

- Prints large labels up to 100 mm high
- Built-in plotter cutter
- Prints full colour logos and photos
- Includes auto tape saver feature
- Built-in templates for lean, other industrial and safety applications

“Proper equipment labelling is fundamental to reliability and productivity because it makes operations and maintenance parameters visible at a glance. Brady label printers have been part of the lean education and training workshops I have conducted in hundreds of facilities. The durability of the labelling materials, coupled with the powerful GlobalMark 2 print capabilities, provide an excellent foundation for making machines easier to operate and maintain.”

Robert Williamson
 President, Strategic Work Systems, Inc., and author of “Lean Machines For World Class Manufacturing & Maintenance”

Print photos, logos

Cut shapes

Cut characters

Create big labels

Reflective tape

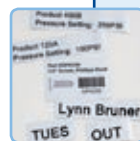

Photolum tape

Repositionable vinyl

Not just a label maker!

- **Tags and kanban cards**
Print to flexible polyester tag stock or apply adhesive labels to rigid cards
- **Large signs & placards**
Cut-out text and apply to sign or placard material
- **Magnets**
Print directly to magnetic material or cut adhesive labels to fit your own magnets.
- **Paint stencils**
Cut characters on repositionable vinyl - sticks to floors, walls, etc., but is easy to peel off.

GlobalMark® Industrial Label Maker

Industrial Grade Print Ribbons

- Abrasion-resistant, smear-proof ribbons assure that print lasts for years even outdoors.
- 2- and 4- colour ribbons let you create multi-colour output without manual ribbon changes.
- Use the cyan/magenta/yellow/black ribbons to print full colour logos or photos.

29 mm	076699	076703
57 mm	076698	076702
100 mm	076697	076701

Magnetic Tape (B-509)

- Perfect for use on white boards or as moveable stock shelf labels.
- Use on equipment as replaceable setup instructions for quick change-overs.
- Due to thickness, this material cannot be cut using the plotter cutter
- Length: 7.5 m

Size	Order Ref.	
	White	Yellow
57 mm	076687	076689
100 mm	076686	076688

Tag Stock Material (B-551)

- Made of flexible yet durable polyester.
- Print your own 5S, maintenance and inspection tags.
- Create your own customised kanban cards
- Length: 15 m

Size	Order Ref.
	White
60 mm	076716
80 mm	076715
105 mm	076714

GlobalMark® can also print to the following materials:

- Reflective
- Photoluminescent
- Static cling
- Low halide polyester
- Metalized polyester
- Cold temperature polyester
- Brushed gold semi-rigid material
- Labels w/ preprinted strips for OSHA headers
- Labels w/ preprinted Right-To-Know diamonds and colour bars

Go to www.bradyeurope.com/visualworkplace for more information.

MarkWare™ Software Covers All Your Lean and Facility Identification Needs in One Powerful Package

- Print directly to a Brady labelling system or most Windows® inkjet/laser printers
- Use pre-formatted templates provided for quick and easy label creation
- Over 1,000 safety symbols and industrial pictograms included
- Import logos, photos and other graphics in 9 different file formats
- Create bar codes using 15 different symbologies
- Complete drawing toolkit (hot shapes, fill patterns, freeform lines, etc.)
- Link label contents to spreadsheets and databases
- User interface can be displayed in 12 languages, including Spanish

- Floor signs
- Antiskid tapes
- Photoluminescent area marking
- Barricades & barricade tape

EPREP: Engraved Plate REplacement Labels

Meet your lean manufacturing goals by creating durable, cost-effective legend plates on demand with less time, cost, and hassle than engraved plates.

Right Time – Manage inventory flow with Just-in-Time printing.

Right Place – Custom legend plates when and where you need them.

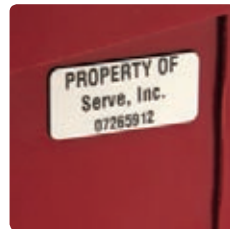

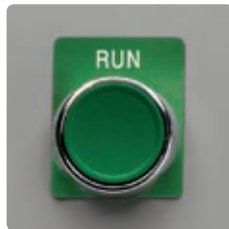

Right Quantity – Reduce materials waste by creating labels on demand.

Brady **B-7593 EPREP** (Engraved Plate REplacement) Labels are available in a variety of styles to meet your product and equipment identification needs:

- Electrical Components
- Low Voltage Control Panels
- Signal Lights
- Electrical Cabinets
- Instrument Panels
- Motor Controls
- Push Buttons
- Switches
- Production Lines
- Racks and Patch Panels

This material can be used with a variety of high-speed benchtop printers, including the new Brady IP™ Printing System, which auto-calibrates for rapid setup when changing materials.

For more information go to www.bradyeurope.com/visualworkplace

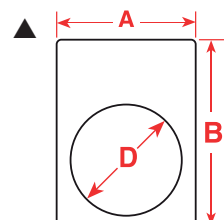

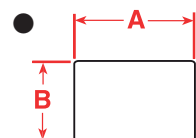

EPREP labels for Brady benchtop printers come in 2 different formats:

- R** Labels on a roll, for labels up to a height of 65 mm
- F** Labels on a fan-folded liner, maximum height is 400 mm

Brady can custom print virtually any type of visual you need, from large signs and banners to smaller labels and tags. Fast turnaround and superior workmanship ensures timely delivery and reliable quality. Contact Brady first for any of the following:

- Cell Identification Signs
- Banners
- Instruction Placards
- Floor Graphics
- Equipment ID Placards
- Safety Signs & Labels
- Maintenance & Inspection Tags

Brady Corporation

“Our mission is to provide innovative identification solutions which improve safety, security, productivity and performance for customers worldwide.”

Company Overview

Brady was founded in 1914 in Eau Claire, Wisconsin, as W.H. Brady Co., and renamed Brady Corporation in 1998. The company began selling products internationally in 1947. In 1984, Brady went public, with stock trading on the Nasdaq Stock Market, and in 1999, moved trading of its stock to the New York Stock Exchange, where it trades under the symbol BRC. The company's global headquarters is in Milwaukee, Wisconsin.

Brady manufactures and markets:

- products for identification and safety applications such as signs and markers, and the printers and software to produce them
- products for wire identification, including labelling materials and tools for wire and cable marking in the electrical and telecommunication markets
- high-performance identification products, including labels and signs that remain legible and highly adhesive even in harsh environments
- precision die-cut parts, including custom die-cut and slit materials for use in cellular phones, pagers, computer disk drives and automotive electronic components

Brady manufactures and markets:

- 7000 employees around the world
- Operations in 26 countries
- Distribution in more than 100 countries through more than 4,400 distributor partners
