

Absorbents & Spill Control Catalog

BradyID.com/SPC

Welcome to Brady SPC

A name you can trust. Innovative absorbent and spill control products you can rely on.

A history of reliability.

Since its founding in Somerset, New Jersey nearly 40 years ago, SPC has been successfully developing, manufacturing and shipping absorbent products. Throughout the decades, our customers have relied on SPC products to help them prevent slips, trips and falls within their facilities.

Our Guiding Principles:

- Developing high quality products appropriately suited to your needs
- Providing unmatched service levels
- Leveraging our industry-leading sales force to recommend the right products for the right application

A future of innovation.

Absorbents and spill control products are our focus. At Brady SPC, we've invested in our people, processes and facilities to ensure that we provide you with the best products for all of your spill control needs. We're here to support you – every step of the way.

New State-of-the-art Facility

2014 marked the beginning of a new chapter for Brady SPC in Louisville, Kentucky. Supported by a state-of-the-art facility, our investment provides you with:

- Increased manufacturing capacity to handle most any request
- Improved geographic positioning for better service

Product Innovation

Product performance and an emphasis on safety continue to permeate everything we do. Backed by a history of innovation, we're committed to developing differentiated products that align with customer needs while maintaining costs.

Dedicated SPC Team

Not sure where to start? Have questions about a specific product? You can count on our industry leading sales team to help. Our inside sales representatives are ready to take your call, understand your needs and provide you with the right solution, while our outside sales managers will work with you onsite to find the right solution.

Distribution Locations and Sales Support Across the US

In addition to our reliable products, we support our customers through unmatched sales expertise. Strategic warehouses positioned around the United States will help to ensure your spill products are delivered efficiently.

Did you know?

All SPC meltblown polypropylene products are made in Louisville, Kentucky.

Why Is Spill Control Important?

When a spill occurs, having a proper spill control program that enables quick and effective response can not only help to protect the environment, but also support a safe and productive workplace for your employees.

Brady SPC supplies products that help you comply with EPA and OSHA regulations. Why does that matter? Because our goal is to help support high levels of productivity and to limit equipment down time. The cost of non-compliance around this area of regulation can have devastating effects on a business's reputation and financial performance.

The EPA issued its final rule amending SPCC requirements under the authority of the Federal Water Pollution Control Act. This regulation became effective as of August 16, 2002.

The new Poly-Edge Truck Mountable Spill Kit is designed to help you meet DOT spill containment regulations.

► Need To Know Regulations

The following OSHA and EPA regulations protect your employees and the environment;

29 CFR 1910.22(a)(2) – Walking-Working Surfaces

The floor of every workroom shall be maintained in a clean and, so far as possible, a dry condition. Where wet processes are used, drainage shall be maintained, and false floors, platforms, mats, or other dry standing places should be provided where practicable.

40 CFR 112.7(c)(1)(viii) – General requirements for Spill Prevention, Control, and Countermeasure Plans

Sorbent materials are included in the types of prevention systems that must be used for spill containment.

29 CFR 1910.120(j)(1)(vii)

U.S. Department of Transportation specified salvage drums or containers and suitable quantities of proper absorbents shall be kept available and used in areas where spills, leaks, or ruptures may occur.

What is a SPCC Plan & Do I Need One?

A Spill Prevention Control & Countermeasure (SPCC) plan is a facility-specific, comprehensive plan outlining both the containment and countermeasures implemented to prevent a spill from occurring and a series of response procedures in the event that one does. The SPCC plan addresses the following three areas:

- Operating procedures that prevent spills
- Control measures installed to prevent a spill from reaching the environment
- Countermeasures to contain, clean-up and mitigate the effects of an oil spill that reaches the environment

Having a SPCC plan in place is an essential step to help companies avoid the costly impact of non-compliance, including fines as high as \$25,000 per day per violation.

Where Do Spills Occur?

Not bound by the SPCC regulations? Having absorbents and spill kits on hand is still essential. The following facility diagram shows where spills most commonly occur. Take a look at these areas and keep them in mind when developing a spill control plan to help keep your facility safe and compliant.

1

Exterior Bulk Storage
Oil only products are ideal for outdoor leaks and spills absorbing oil and repelling water.

2

Interior Fluid Storage
Consider specialty items like drum top covers and spill pallets to manage all types of leaks.

3

Machinery & Equipment
SOCs surround machinery to prevent leaks while spill pillows are placed underneath.

4

Shipping & Receiving
Keep spill kits near any entrances to prevent spills from reaching the environment. Industrial rugs are durable enough for fork lift traffic.

5

Production, Assembly & Maintenance
Make sure to have plenty of pads and rolls on hand. These general purpose items come in a variety of sizes to support your facility needs.

▶ Not Sure Where to Start? Let SPC Experts Help.

We understand that surveying a facility for potential trouble spots, proper absorbent usage and product selection can be extremely time consuming and confusing. But we also believe that it can be extremely beneficial.

- **Free Absorbent Survey**

Brady's Absorbent Survey is a free service designed to help a facility keep its employees and its equipment safe. This detailed survey asks the right questions and identifies how Brady SPC and its distributors can provide solutions for the proper use of absorbents in the plant. Many organizations use these surveys as an "Environmental Audit" and keep them on file.

- **Cost Savings Worksheet**

Seeing is believing! This simple worksheet helps you compare the absorbents you are currently purchasing with our recommendations – quickly showing you the price difference and your cost savings.

selecting the right
absorbents for your
facility.

Do you know OSHA's recent silica ruling?

One of the most common compositions for granular absorbents is diatomaceous earth, which is **80-90% silica based**.

OSHA's recent final rule on limiting exposure to respirable crystalline silica was issued to curb lung cancer, silicosis, chronic obstructive pulmonary disease and kidney disease.

All of which have been linked to high levels of silica.

Rely on Brady SPC absorbent pads and rolls as a safer, more efficient, non-silica solution for absorbing leaks, drips and spills.

▶ Making the Switch to Absorbents

No facility is free from leaks, drips and spills. And when it comes to keeping your employees and the working environment safe, you need a reliable and cost-effective absorbent solution.

Take a look at the below comparisons between granular, rags and SPC absorbent pads to determine what solution best fits your needs.

Granular

- **Pros:** Low cost per bag and product familiarity
- **Cons:** Messy, very low absorbency ratio (generally 1:1), labor intensive clean up and high disposal costs

Laundered Rags

- **Pros:** Recycled and full system (products and disposal supported by the supplier)
- **Cons:** After each laundering, the rags lose some of their absorbency. Hard metals can never be completely removed, leading to significant health risks through exposure

SPC Absorbent Pads

- **Pros:** Absorb an average of 20x their weight in liquid, offer multiple configurations and constructions and lower disposal costs
- **Cons:** Higher up-front cost

Material Details	Granular (40 lb bag)	Rags (200 pads/drum)	SPC Pads (100 pads/case)	
Gallons Absorbed Per Week	20	20	20	gallons
Total Material Used	4 bags	170 rags	77 pads	per week
Total Material Costs	\$24	\$128	\$77	per week
Labor Details				
Labor Hours for Clean-Up	1	0.3	0.3	hours/week
Total Labor Costs	\$20	\$7	\$7	per week
Disposal Details				
Drums Disposed Per Week	1	(included)	0.15	per week
Total Disposal Costs	\$200	(included)	\$30	per week
Savings Summary				
Weekly Cost	\$244	\$135	\$114	per week
Annual Cost	\$12,688	\$7,020	\$5,947	per year
Total Cost After 5 Year	\$63,440	\$35,100	\$29,733	over 5 years

\$33,667 or 47% Savings
When Using SPC Pads Over Granular

Choosing Your Absorbents

Step One: Know What You're Absorbing

Water- or Oil-Based Fluids

SPC Recommends: **Universal Absorbents**

Use around machinery, under leaky pipes, in messy traffic areas or for general maintenance projects. Re-Form™ universal absorbents made of recycled materials offer an environmentally friendly solution.

Universal For
Water- or Oil-Based Fluids

- Coolants
- Solvents
- Gasoline
- Kerosene
- Vegetable Oil
- Latex Paint

Oil-Based Fluids Outdoors/Water Repelling

SPC Recommends: **Oil Only Absorbents**

Specialized for oil and other petroleum-based spills including paints and non-water soluble chemicals, these absorbents will not absorb water and will float indefinitely. Re-Form™ oil only absorbents made of recycled materials offer an environmentally friendly solution.

Oil Only For
Oil-Based Fluids
(Repels Water)

- Hydraulic Oil
- Motor Oil
- Brake Fluid
- Cooking Oil
- Turpentine
- Lubricants

Hazardous Chemical Fluids

SPC Recommends: **Chemical Absorbents**

Surfactant-treated polypropylene absorbents can be used on a wide range of chemicals, including hydrofluoric acid. They are chemically inert, so they will not react with aggressive fluids.

Keep in mind that absorbents take on the properties of whatever they absorb, so the bright color provides a visual indication to separate waste streams.

Chemical For
Hazardous Fluids

- Acids & Bases
- Citric Acid
- Sodium Hydroxide
- Aggressive Chemicals

▶ Looking to Save Time, Effort and Money?

Use a mid- to high-level universal product, like MRO100, as the standard in your facility. It's construction can be used on a wide variety of applications and with a standardized absorbent, you will not have to manage the inventory of multiple items.

See all MRO Plus absorbents on page 18.

Choosing Your Absorbents

2 Step Two: Identify Your Application

General Purpose Wiping, Drips & Leaks

SPC Recommends: Pads, Rolls, Socs & Pillows

Pre-cut pads and perforated rolls provide easy access to absorbents for general purpose use around your facility. Use specialized SOCs and pillows around or underneath dripping equipment.

Heavy Foot & Forklift Traffic

SPC Recommends: Mats & Rugs

Mats and rugs offer greater durability to withstand harsh conditions. Barrier-backed options prevent liquid from penetrating the absorbent and reaching the floor underneath while printed mats warn of possible slips, trips and fall hazards.

Emergency Spill Response

SPC Recommends: Spill Kits, Pallets, Drain Plugs

Spill kits bundle together all of the necessary products to clean up an unexpected spill. Other spill containment options include spill pallets, drain plugs and absorbent storage centers.

Specialty Absorbents

SPC Recommends: Marine or Granular Products

Marine environments require boom, sweep and drag nets to remove fluids in or near bodies of water. Granular absorbents are available when loose absorbents are preferred or when acid/base neutralization is required prior to spill clean-up.

Choosing Your Absorbents

▶ 3 Step Three: Select Absorbent Features

Coverstock

Durability of an absorbent increases with the addition of a coverstock layer.

- For simple drips or leaks, a 1-ply absorbent is all you need.
- For wiping or foot traffic, a 3-ply absorbent will offer the necessary durability.
- For abrasive applications, a pad with spunbond coverstock helps to reduce linting or tearing.

3-ply Construction *(2-Sides Coverstock)*

Two layers of coverstock offer maximum durability and reduce possible linting or tearing.

2-ply Construction *(1-Side Coverstock)*

A single layer of coverstock offers medium durability and linting.

1-ply Construction *(No Coverstock)*

Economical single-ply has lower durability resulting in high linting and tearing.

Absorbency Weight

The absorbency weight can make a significant difference in how much product is required.

- For small spills, choose a light or medium weight product to avoid waste.
- For large spills or continuous leaks, choose a heavy weight product to reduce total material used.

Under-Saturated

Absorbents aren't being used to their full potential. You're throwing money away!

Over-Saturated

Absorbents aren't cleaning the whole spill. Increase the weight to get the job done with less product.

Dimpled Surface

Dimpling increases product strength for areas requiring greater durability.

Smooth absorbents have greater surface area and are more absorbent per square inch compared to similarly constructed, dimpled products.

Non-Dimpled

Offers more absorbent surface area.

Dimpled

Provides increased durability.

Perforations

Perforations provide a variety of size options all in one product by allowing you to quickly tear off exactly what is needed to contain the spill.

Single Perf

Featured on many pads & rolls.

Double Perf

Featured on many rolls and mats.

Triple Perf

Unique to the High Traffic Universal rolls.

Universal Absorbency

ALL-PURPOSE INDOOR SPILL CONTROL

Universal Absorbency for Water- or Oil-Based Fluids

All-purpose absorbents clean-up oils, coolants, solvents and water-based fluids anywhere in your facility.

Around machinery, under leaky pipes or fittings, in messy traffic areas, for general maintenance projects – they are your first choice for indoor spill control. Plus, their gray color masks spills and stains, helping you resist the urge to pick up the absorbent before it is fully saturated.

Universal Absorbent Family:

All universal pads and rolls start with a highly absorbent polypropylene core. From there, it's all about the application. Product families feature different weights, coverstocks and finishing to provide the right solution for your needs.

▶ Liquids Absorbed:

- Coolants
- Solvents
- Oils
- Latex paint
- Gasoline
- Vegetable oil
- Kerosene
- Water-based fluids

▶ Popular Applications:

- Wiping tools
- Small spills
- Under leaky pipes
- Around liquid storage containers
- Around machinery
- In messy traffic areas
- Under dripping valves
- General purpose maintenance

Universal Pads & Rolls

Product Summary:

Absorbs: Oils, Coolants, Solvents and Water-based Fluids

Coverstock: Top & Bottom Coverstock (3-Ply)

Durability: ✓✓✓

Linting: Medium Linting

Absorbencies: Heav, Medium & Light Weight

Cost: \$\$\$

Recommended For:

- Anywhere there is a leak, drip or spill
- Production/machine areas
- Under assembly lines or equipment
- Maintenance areas and liquid storage areas

MRO Plus® Absorbents

Brady SPC's number one universal absorbent and the standard in all-purpose, gray maintenance absorbents.

- Universal absorbency to handle most fluids (water, petroleum and chemical-based)
- 3-ply (MMM) meltblown polypropylene construction increases durability and reduces lint

Additional Features:

- **Perforated:** Select exactly the size you need
- **Dimpled:** Adds durability & reduces linting
- **Gray Color:** Masks spills, reducing the urge to replace absorbents before fully saturated

MRO Plus® Pads

Pre-cut pads are ideal for wiping or catching drips.

Catalog #	Type	Size	Perforated	Absorbency Factor (gl/gs)	Absorbency Capacity (gal)	Shipping Wt (lbs)	Pallet Qty.	Quantity

**Specialty Product:
For High
Traffic**

BattleMat® Absorbents

Tough camouflage patterned roll hides leaks and drips and is ideal for areas with moderate foot traffic.

- Universal absorbency to handle most fluids (water, petroleum and chemical-based)
- Durable 2-ply construction is ideal for use in high traffic areas - foot or forklift traffic
- Abrasion-resistant upper layer helps reduce linting while meltblown fibers grip the floor below

Additional Features:

- **Perforated:** Select exactly the size you need
- **Camouflaged Pattern:** Masks spills, reducing the urge to replace absorbents before fully saturated

▶ Product Summary:

- Absorbs:** Oils, Coolants, Solvents and Water-based Fluids
- Coverstock:** Camouflaged Printed Top Coverstock (2-Ply)
- Durability:** ✓ ✓ ✓
- Linting:** Low Linting
- Absorbencies:** Heavy Weight
- Cost:** \$\$\$

▶ Recommended For:

- Extra tough for foot & forklift traffic
- Walkways and high traffic areas
- Where there's a need to mask spills
- Under assembly lines, equipment or vehicles

Universal Absorbency

**Specialty Product:
For High
Abrasion**

UXT - “Xtra Tough” Absorbents

Extra tough absorbents for applications that require high durability, non-linting and abrasion-resistance.

- Universal absorbency to handle most fluids (water, petroleum and chemical-based)
- 3-ply construction with coverstock on both sides maximizes durability and minimizes linting
- Extra strength allows for wringing and re-use

Additional Features:

- **Perforated:** Select exactly the size you need
- **Dimpled:** Adds durability & reduces linting

▶ Product Summary:

- Absorbs:** Oils, Coolants, Solvents and Water-based Fluids
- Coverstock:** Top & Bottom Coverstock (3-Ply)
- Durability:** ✓✓✓
- Linting:** Low Linting
- Absorbencies:** Heavy, Medium & Light Weight
- Cost:** \$\$\$

▶ Recommended For:

- Wiping highly abrasive surfaces such as tools and machinery
- Machining, maintenance or food processing

Spills**

Spill Response Plus Universal Absorbents

Convenient, portable size perfect for employees to fold or carry in their pockets for small spills.

- Universal absorbency to handle most fluids (water, petroleum and chemical-based)
- Fine fiber coverstock on each side increases product versatility

Additional Features:

- **Perforated:** Select exactly the size you need
- **Dimpled:** Adds durability & reduces linting
- **Small Size:** Clean up minor spills without wasting material

▶ Product Summary:

- Absorbs:** Oils, Coolants, Solvents and Water-based Fluids
- Coverstock:** Top & Bottom Coverstock (3-Ply)
- Durability:** ✓✓✓
- Linting:** Medium Linting
- Absorbencies:** Heavy Weight
- Cost:** \$\$

▶ Recommended For:

- Anywhere there is a leak, drip or spill
- Janitorial & Maintenance
- Hospitality & Retail

Universal Absorbency

Re-Form™ Eco-Friendly Universal Absorbents for Water- or Oil-Based Fluids

Re-Form absorbent pads and rolls are eco-friendly, green products made of recycled materials. They feature the same universal absorbency as their polypropylene counterparts, making them ideal for coolants, solvents, oils and other water-based or petroleum-based fluids.

Re-Form absorbent materials have been tested to absorb 25-50% more than polypropylene materials which means you'll use less product to absorb the same size spill.

Re-Form™ Absorbents Provide:

Better Absorbency: Tested to be 25-50% more absorbent than standard polypropylene absorbents, so you'll use less product to get the job done.

Cost Savings: Increased absorbency means reduced waste and greater cost savings.

Green Product: Made from a minimum of 80% recycled fibers, unlike standard polypropylene absorbents. High absorbency recycled materials give the products their greenish-blue color. A green product in more ways than one!

Sustainability: Supports corporate sustainability and LEED initiatives.

Class A Fire Retardant: Re-Form™ Absorbents meet NFPA Class A Fire retardancy.

▶ Why Perforations?

Perforated pads and rolls allow you to quickly choose as large or as small of an absorbent as you need - cutting back on waste within your facility.

Re-Form™ Pro Plus Absorbents

The look, feel and performance of a traditional absorbent, but made from 90% recycled fibers.

- Universal absorbency to handle most fluids (water, petroleum and non-aggressive chemicals)
- Durable 3-ply construction is made of 90% recycled materials
- Extremely absorbent: absorbs 20 times its weight

Additional Features:

- **Eco-Friendly:** Supports corporate sustainability and LEED initiatives
- **Perforated:** Select exactly the size you need
- **Dimpled:** Adds durability & reduces linting

▶ Product Summary:

- Absorbs:** Oils, Coolants, Solvents and Water-based Fluids

Oil Only Absorbency

ABSORBS OIL AND REPELS WATER

Oil Only Absorbency Absorb Oil- & Petroleum-Based Fluids While Repelling Water.

Oil only absorbents are specially designed to clean-up oils and petroleum-based liquids while also repelling water and floating indefinitely.

Unaffected by temperature and impervious to rot and mildew, oil only absorbents are an ideal choice for outdoor use, in bodies of water or anywhere that water may be inadvertently absorbed.

Oil Only Absorbent Family:

All oil only pads and rolls start with a highly absorbent polypropylene core. From there, it's all about the application. Product families feature different weights, coverstocks and finishing to provide the right solution for your needs.

▶ Liquids Absorbed:

- Drilling and cutting fluids
- Hydraulic and brake fluids
- Engine oils
- Transmission fluids
- Lubricants
- Gasoline, diesel and aircraft fuels
- Cooking oils
- Oil-based paints and solvents
- Other oils and petroleum-based fluids

▶ Popular Applications:

- Outdoors
- Around bodies of water
- Wiping tools
- Small spills
- Under leaky pipes
- Around machinery
- Outdoor storage containers
- Under dripping valves
- Other general purpose maintenance

▶ Why Repel Water?

Many spills occur outdoors near bodies of water or during inclement weather. Oil only absorbents repel that water ensuring that all of your pad's absorbency is used to pick up the oil.

- Oil only absorbency for petroleum-based oils, solvents and other non-water soluble liquids
- Floats indefinitely even when saturated with oil
- 3-ply construction with top and bottom coverstock, all made from 80% natural cellulose fibers
- Class A fire retardant

Additional Features:

- **Perforated:** Select exactly the size you need
- **Eco-Friendly:** Supports corporate sustainability and LEED initiatives

▶ Product Summary:

- Absorbs:** Oils, Coolants, Solvents and Oil-based Fluids
- Coverstock:** Top & Bottom Coverstock (3-Ply)
- Durability:** ✓ ✓
- Linting:** Low Linting
- Absorbencies:** Heavy Weight
- Cost:** \$\$\$

▶ Recommended For:

- Anywhere there is a leak, drip or spill
- Production/machine areas
- Maintenance areas

Catalog #	Type	Size	Perforated	Absorbency Factor (g/g)	Absorbency Capacity (gal)	Shipping Wt (lbs)	Pallet Qty.	Quantity
Re-Form Oil Only Pads								
RFODP100	Heavy Wt. Pad	15"x19"	Yes, 7.5"	30	39	12	18	100/case

Re-Form™ Absorbents are not intended for use with highly aggressive chemicals.

▶ Cost Savings with Re-Form™ Absorbents

Re-Form absorbents have tested to be up to 50% more absorbent than their polypropylene counterparts. This can make a significant impact on the amount of product you need to get the job done.

Less Product Used = Cost Savings For You!

Chemical Absorbency

COLOR-CODED FOR SAFETY

Chemical Absorbency For When Chemical-Based Fluids Are Present.

Alert your employees to the presence of hazardous fluids with green and yellow chemical absorbents from Brady SPC. These surfactant-treated polypropylene pads and rolls can be used on a wide range of chemicals and are chemically inert, so they will not react with aggressive fluids.

Chemical Absorbent Family:

All chemical pads and rolls start with a highly absorbent polypropylene core. From there, it's all about the application. Product families feature different weights, coverstocks and finishing to provide the right solution for your needs.

▶ Liquids Absorbed:

- Acids and bases
- Aggressive chemicals
- Sodium hydroxide
- Solvents
- Citric acid
- Water-based fluids
- Oil-based fluids
- Other unknown chemicals

▶ Popular Applications:

- Anywhere hazardous chemicals may be present
- Bulk chemical storage containers
- Nuclear power plants
- Laboratories
- Hospitals
- Pharmaceuticals and any industry utilizing chemicals
- Chemical manufacturing
- To recognize chemical waste stream

► Increase Safety & Savings: Color Coded Waste Stream

Save on disposal costs by using different colored absorbents in specific parts of your facility and throughout your waste streams.

For example: a facility might use yellow absorbents in radioactive areas and green absorbents in their chlorine areas. Then the facility would use gray universal absorbents for the rest of their facility.

A color coded system benefits your employees' understanding of the waste stream because they will assume yellow absorbents are saturated with radioactive waste and green absorbents are saturated with chlorine.

Chemical Absorbency

★★★★Best

★★Better

★Good

▶ Product Summary:

Absorbs: Acids, Bases, Oils, Chemicals, Solvents, Water-based Fluids, Unknown Chemicals

Coverstock: Safety Printed Top Coverstock (2-Ply)

Durability: ✓✓

Linting: Low Linting

Absorbencies: Heavy, Medium & Light Weight

Cost: \$\$\$

▶ Recommended For:

- Areas with slip, trip and fall hazards
- Foot traffic areas
- Drips and spills involving hazardous chemicals
- Any industrial application utilizing aggressive fluids

BRIGHTSORB™ High Visibility Safety Absorbents

Color and print make it ideal for areas where the risk of slips, trips and falls is greatest.

- Chemical absorbency for areas where chemicals may be present
- Product will not react with aggressive fluids
- 2-ply construction increases durability and reduces lint

Additional Features:

- **Perforated:** Select exactly the size you need
- **Dimpled:** Adds durability & reduces linting
- **Printed Message:** Warns of slips, trips and falls
- **Bright Color:** Warns of presence of leaks, drips or spills even in low light

BRIGHTSORB™ Pads

Pre-cut pads are ideal for wiping or catching drips.

Catalog #	Type	Size	Perforated	Absorbency Factor (g/g)	Absorbency Capacity (gal)	Shipping Wt (lbs)	Pallet Qty.	Quantity
CH100	Heavy Wt. Pad	15"x19"	Yes, 7.5"	18	28	16	30	100/case

CH303	Medium Wt. Roll	30"x300'	Yes, 15" and every 15"	12.5	70	40	8	1/bale

► Slips, Trips & Fall Hazards:

Slips, trips and falls are one of the greatest issues for organizations, accounting for **1 in 6 lost-time injuries and 96 million workdays lost** per year.¹ One of the most frequent causes of slips, trips and falls is a wet work surface.

Brady SPC's BRIGHTSORB™ High Visibility Safety line helps prevent these incidents and injuries through its bright, highly visible yellow color as well as the iconic "slipping man" logo for multi-lingual caution messaging.

SOCs, PILLOWS & DRUM COVERS

FOR EVERY LEAK, DRIP AND SPILL NEED

SOCs, Pillows & Drum Covers For every leak, drip and spill need

Specialty absorbent products including SOC's, pillows and drum covers can be used around a facility when a pad or roll may not be sufficient. The unique style of these products allows you to place the absorbent exactly where you need it.

▶ Liquids Absorbed:

- **Universal Absorbency:** Coolants, solvents, oils, paint and other water-based fluids
- **Oil Only Absorbency:** Oils, coolants, solvents and other oil-based fluids (repels water)
- **Chemical Absorbency:** Acids and bases, aggressive chemicals and other unknown chemicals

▶ Popular Applications:

- Wrap a SOC around your machine to stop leaks from reaching the floor
- Place a pillow in a tight space between machines to catch splashes or overspray
- Keep drum storage areas clean and dry with pre-cut drum covers

SOCs

Absorbent SOCs are dependable, flexible tubes that contain and absorb liquids. SOCs mold around corners and conform to uneven surfaces to soak up spills and drips, preventing fluid from escaping to other areas.

- Available in Universal, Oil Only and Chemical absorbencies

Pillows

Absorbent pillows are ideal for use under spill pallets or machines that are known to drip or leak. Pillows are easy to retrieve, and can soak up oil and water-based fluids in hard-to-reach areas including sumps, catch basins and outdoor ponds.

- Available in Universal, Oil Only and Chemical absorbencies

Drum Covers

Absorbent drum covers help eliminate messy drips and overflow when mixing or pumping liquids from drum barrels. Brady SPC drum covers keep drums, the floor and surrounding storage areas dry and clean.

- Available in Universal and Oil Only absorbencies

Flexible Absorbent SOC

	Product Family	Liquids Absorbed	Suitable for Aggressive Fluids	SOC Filling	Wringable & Can Be Incinerated	Additional Features

	HAZWIK® Chemical SOC s	Chemical-based	✓	Polypropylene	-	Color identifies presence of chemicals for correct disposal

SOCs, Pillows & Drum Covers

▶ SOC Usage Tips

- Clean-up all loose materials, rags and other debris around the spill
- Prior to placement, shake SOC vigorously to evenly distribute absorbent within
- For best results, lay flat against the floor and overlap the SOC ends approximately 5" for extra spill protection
- Replace your SOC when liquid begins pooling or seeping underneath

SOCs, Pillows & Drum Covers

Universal SOC's

- All-purpose SOC's to clean-up oils, coolants, solvents and water-based fluids throughout your facility.
- Gray color masks spills and stains – helping you resist the urge to pick up the absorbent before it is fully saturated.

▶ Spill Pallets Also Available

Prevent liquid from reaching the floor by making sure your drums are placed on spill pallets. These pallets also help you comply with governmental secondary containment regulations.

Brady SPC spill pallets are available in a variety of sizes and are forklift friendly for easy re-location of your 55-gallon drums throughout your facility.

See page 91 for more details.

Mats & Rugs

CLEAN, DRY FLOORS HELP
PREVENT SLIPS, TRIPS & FALLS

Mats and Rugs For foot and forklift traffic

Brady SPC absorbent mats and rugs help keep aisles and walkways slip-free by absorbing and containing oils, liquids or other spills. They are designed to hold up under the toughest conditions and are ideal for high traffic areas and workstations. Compared to an entrance mat, absorbent mats and rugs offer better traction and reduce the tracking of liquids from one area to another.

Mat & Rug Family:

Brady SPC absorbent mats and rugs are constructed from a variety of more durable polypropylene materials. Featuring barrier backings and tighter fiber weaves, these products will stand up to higher traffic areas. This technology means that fibers or absorbent materials will not come loose around high traffic areas or workstations.

▶ Liquids Absorbed:

- Bases
- Oils
- Chemicals
- Solvents
- Water-based fluids

▶ Popular Applications:

- Heavy foot traffic
- Aisles and walkways
- Around workstations
- To reduce tracking liquids throughout facility

▶ Need To Know OSHA Regulation

29 CFR 1910.22(a)(2) – Walking-Working Surfaces

The floor of every workroom shall be maintained in a clean and, so far as possible, a dry condition. Where wet processes are used, drainage shall be maintained, and false floors, platforms, mats, or other dry standing places should be provided where practicable.

**Specialty Product:
Adhesive
Backed**

TOUGHSORB™ Permanent & Semi-Permanent Adhesive Mats

Easy adherence for high traffic aisles and walkways. Choose from permanent or semi-permanent options.

- Universal absorbency to handle most fluids (water, petroleum and chemical-based)
- Strong needle-punched polypropylene with an adhesive backing

Additional Features:

- **Adhesive Backing:** Permanent or semi-permanent adhesive backing adheres to surfaces to keep the absorbent in place and reduce slips, trips and falls.

Product Summary:

- Absorbs:** Oils, Coolants, Solvents and Water-based Fluids
- Construction:** Adhesive backing (2-Ply)
- Durability:** ✓✓✓
- Linting:** Low Linting
- Absorbencies:** Heavy & Medium Weight
- Cost:** \$\$\$

Recommended For:

- Aisles and walkways
- Areas with high foot and forklift traffic
- Lining entrances and exits
- Lining tool cribs and work surfaces

Permanent adhesive mat is protected by a clear liner that must be removed prior to use.

Semi-permanent adhesive mat can be applied and removed as needed making it ideal for floors and work surfaces.

**Specialty Product:
Barrier
Backed**

BSM - Barrier Spill Mat

Industrial rug with non-slip and leak-proof barrier backing for use in high-traffic areas and around workstations.

- Universal absorbency to handle most fluids (water, petroleum and chemical-based)
- Strong needle-punched polypropylene with a non-skid backing
- Durable for high traffic areas and helps eliminate slippery areas and unsightly tracking
- Tear-resistant and will not curl or buckle

Additional Features:

- **Non-Skid Barrier Backing:** Prevents liquid from reaching the floor underneath while tacky underside reduces slips, trips and falls
- **Gray Color:** Masks spills reducing the urge to replace absorbents before fully saturated

Product Summary:

- Absorbs:** Oils, Coolants, Solvents and Water-based Fluids
- Construction:** Non-skid backing (2-Ply)
- Durability:** ✓✓✓
- Linting:** Low Linting
- Absorbencies:** Medium Weight
- Cost:** \$\$\$

Recommended For:

- Ideal for high traffic industrial applications and in workstations
- Premium surface protection during renovation work

new

High Traffic (HT) Barrier-Backed Mat

Universal absorbent with added durability to stand up to the toughest conditions.

- Universal absorbency to handle most fluids (water, petroleum and chemical-based)
- Non-skid, barrier-backed 3-ply construction with spunbond coverstock for ultimate durability
- Printed safety message reminds workers to exercise caution near high-risk slip, trip and fall areas

Additional Features:

- **Printed Message:** Warns of slips, trips and falls
- **Barrier Backing:** Prevents liquid from reaching the floor underneath
- **Gray Color:** Masks spills reducing the urge to replace absorbents before fully saturated

Product Summary:

- Absorbs:** Oils, Coolants, Solvents and Water-based Fluids
- Construction:** Safety Printed Coverstock & Barrier backing (3-Ply)
- Durability:** ✓✓✓
- Linting:** Low Linting
- Absorbencies:** Heavy Weight
- Cost:** \$\$\$

Recommended For:

- Aisles and walkways
- High-traffic areas prone to leaks, drips and spills
- Areas where a subtle safety messaging is desired

Barrier
Backed**

TrackMat Matting

The ultimate barrier absorbent for high volume petroleum spills.

- Universal absorbency to handle most fluids (water, petroleum and chemical-based)
- Extremely durable absorbent with UV-resistant top layer makes it ideal for outdoor applications

Additional Features:

- **Non-Slip Barrier Backed:** Prevents liquids from penetrating into the ground
- **Dimpled:** Adds durability & reduces linting

Product Summary:

- Absorbs:** Oils, Coolants, Solvents and Water-based Fluids
- Construction:** Non-slip Barrier Backing (2-Ply)
- Durability:** ✓✓✓
- Linting:** Low Linting
- Absorbencies:** Heavy Weight
- Cost:** \$\$\$

Recommended For:

- Where strength, absorbency and impermeability are needed
- Transportation companies
- Refineries and steel mills
- Railway or military

**Specialty Product:
Moderate
Traffic**

SIR Sorbent Industrial Rug

Designed for moderate traffic areas and workstations where there's a need for clean and safe work floors and walkways.

- Universal absorbency to handle most fluids (water, petroleum and chemical-based)
- Durable, needle-punched polypropylene fibers for moderate traffic areas (1-ply)
- Eliminates slippery areas and unsightly tracking between the plant and office areas

Additional Features:

- **Gray Color:** Masks spills reducing the urge to replace absorbents before fully saturated

Product Summary:

- Absorbs:** Oils, Coolants, Solvents and Water-based Fluids
- Construction:** Needle-punched polypropylene (1-Ply)
- Durability:** ✓✓✓
- Linting:** Low Linting
- Absorbencies:** Heavy Weight
- Cost:** \$ \$

Recommended For:

- Vehicles repair and service
- Warehouse and container terminal
- Surface protection during renovation
- Marine spills/wildlife preservation

Specialty Product:
Eco-Friendly

Rag Rug Matting

Eco-friendly absorbent matting made from recycled cotton and polyester fibers

- Universal absorbency to handle most fluids (water-based and petroleum-based)
- Economy rug provides good footing, masks dirt and absorbs spills
- Ideal for maintenance, repair and industrial environments

Additional Features:

- **Eco-Friendly:** Supports corporate sustainability and LEED initiatives

Product Summary:

- Absorbs:** Oils, Coolants, Solvents and Water-based Fluids
- Construction:** Recycled fibers (1-Ply)
- Durability:** ✓ ✓
- Linting:** High Linting
- Absorbencies:** Heavy Weight
- Cost:** \$

Recommended For:

- Ideal for high traffic industrial applications and in workstations
- Premium surface protection during renovation work

Marine Absorbents

HIGH ABSORBENCY ON THE WATER

Marine Absorbents

High absorbency on the water

Brady SPC marine absorbents are specially designed to float on water and contain or absorb a wide variety of marine fuels and oils. From containment to booming and skimming operations, these absorbents will soak up unwanted fluids on lakes, rivers, streams and coastal shorelines. Marine absorbent products are made for high absorbency and rapid deployment in demanding emergency situations.

► Liquids Absorbed:

- Oils
- Oil-based chemicals
- Solvents

► Popular Applications:

- Marinas
- On boats & ships
- Loading docks
- Affluent pipes
- Outdoor liquid transfer points
- Fuel storage tanks

Absorbent Booms

Brady SPC absorbent booms are designed to help you clean up oil spills on water by absorbing surface liquids.

Booms are constructed of highly absorbent polypropylene fibers encased in a durable skin that is lined with a heavy duty tow rope. The booms are fastened with three stainless steel connectors to allow for linkage and fast deployment in emergency situations as well as for strength during retrieval or when towing heavy booms saturated with oil.

Premium SPC® Oil Only Booms

- Oil only booms absorb oil- and petroleum-based liquids while repelling water and floating indefinitely
- Strong, lint-free and gapless
- SPC5510 features two 5"x10' booms attached side by side for a double layer of absorption

Economical ENV® Oil Only Booms

- Oil only booms absorb oil- and petroleum-based liquids while repelling water and floating indefinitely
- Features interconnectivity and a lint-free blue sleeve

Universal Plus Chemical Booms

- Universal Plus booms absorb water-, oil- and chemical-based liquids
- Can be deployed indoors or outdoors

Premium SPC® Oil Booms

SPC5510 features booms attached side by side for double absorbency

Economical ENV® Oil Booms

Universal Plus Chemical Booms

*SPC5510 features 4 booms teathered in pairs for a double layer of absorbency.

Containment Booms

- Designed to work as a containment barrier in order to keep oil spills on water from spreading
- Ideal for use in holding ponds to retain waste and debris on the surface of the water

Catalog #	Type	Size	Shipping Wt (lbs)	Pallet Qty.	Quantity
CB612	Boom	6" Float, 12" Skirt, 100' Sections	200	3	1/case
CB305	Boom	3" Float, 4.5" Skirt, 25' Sections	22.5	11	1/case

Designed as a containment barrier to prevent spills from spreading

Sweeps & Pillows

- Sweeps feature a 2-ply construction with durable blue coverstock for extra strength (for use with oil and petroleum-based fluids)
- Help skimming operations by effectively removing surface oil from the water
- 100' sections are ideal for dragging behind or connecting between two ships

Catalog #	Type	Size	Absorbency Factor (gl/gs)	Absorbency Capacity (gal)	Shipping Wt (lbs)	Pallet Qty.	Quantity

Granular & Neutralizers

LOOSE, MULTI-PURPOSE ABSORBENTS

Granular & Neutralizers

Loose, multi-purpose absorbents

Granular absorbents are loose, multi-purpose absorbents used for liquid spill clean-up, lab packing and stabilization of free liquids. These absorbents are ideal for facilities that prefer or require the use of traditional granular absorbents.

Neutralizing polymers provide safe spill control for most acids, including battery spills. Color change indicates when neutralization has taken place.

The small, loose particles of a granular absorbent make it ideal for applications where a pad or roll would not offer a proper fit. Liquids don't always spill on a smooth surface. In those instances, a granular absorbent can absorb liquids from the cracks and crevices of a variety of surfaces.

▶ Liquids Absorbed:

- Oils
- Chemicals
- Solvents

▶ Popular Applications:

- Absorbing oils, solvents, lubricants, coolant and water on uneven surfaces including on roads or parking lots
- Acid or base spills requiring neutralization prior to spill cleanup

▶ Must Know OSHA Silica Ruling:

One of the most common compositions for granular absorbents is diatomaceous earth, which is 80-90% silica based.

OSHA's final rule on limiting exposure to respirable crystalline silica was issued in 2016 to curb lung cancer, silicosis, chronic obstructive pulmonary disease and kidney disease. All of which have been linked to high levels of silica.

Rely on Brady SPC absorbent pads and rolls as a safer, more efficient, non-silica solution for absorbing leaks, drips and spills.

SpillFix Granular Absorbent

The new standard in loose absorbents!

- Completely natural - no carcinogens, no dust indoors; landfill and incinerator safe outdoors
- Highly effective - absorbs hydrocarbons, chemicals and water-based solutions
- Workplace friendly - natural construction prevents damage to equipment or floors; a regular occurrence with clay-based granulars
- Deploy indoors or outdoors to clean up spills in hard to reach areas

▶ 4X More Absorbent

A 20 lb bag of SpillFix granular absorbs 4x the liquid of traditional clay granulars.

SpillFix Granular Absorbent

- Premium absorbent solution constructed of 100% recycled material
- Extremely effective in the absorption of hydrocarbons, water-based fluids and most aggressive chemicals
- Certified safe for landfill disposal
- Lightweight and easy to deploy

▶ **2015 OH&S New Product Of the Year Award in the Hazmat Safety Category.**

Granular & Neutralizers

Re-Form™ Granular

- 100% recycled material - safe for the environment and employee use
- Absorbs oils, solvents, lubricants, coolants, water and most non-aggressive liquids on contact
- 1:1 absorbency ratio - absorbs its own weight in oil

Catalog #	Type	Size	Absorbency Factor (g/g)	Absorbency Capacity (gal)	Shipping Wt (lbs)	Pallet Qty.	Quantity
RFGRANULAR	Re-Form Granular	30 lbs	1	16.7	1950	65	1 pallet

SPC Granular Absorbent

- All natural corn cob product for oil, grease, water and other liquids (Not for use with aggressive fluids)
- Ideal for use in aircraft maintenance, machine shops, food processing, filling lines and bulk liquid transfer stations

Catalog #	Type	Size	Absorbency Factor (g/g)	Absorbency Capacity (gal)	Shipping Wt (lbs)	Pallet Qty.	Quantity
DZ100	Universal Granular	40 lbs	1.5	8.5	1600	40	1 pallet

Acid & Base Neutralizing Polymer

- Acid neutralizer provides safe spill control for most acids, including battery spills
- Base neutralizer used for lab equipment and most bases
- Color change lets you know neutralization has taken place. Acid neutralizer changes to purple, base neutralizer changes to orange
- Non-toxic, non-corrosive and non-hazardous

Catalog #	Type	Size	Absorbency Factor (g/g)	Absorbency Capacity (gal)	Shipping Wt (lbs)	Pallet Qty.	Quantity
SPC-ACID	Acid Neutralizer	2lb	n/a	0.65	2	1200	1/each
SPC-BASE	Base Neutralizer	2lb	n/a	0.65	2	1200	1/each

*SPC-ACID and SPC-BASE shaker minimum order of 10.

▶ **Want to try absorbents without a commitment? Request a Free Sample Pack today.**

Making the switch from granular to absorbent pads can be overwhelming. With a Brady SPC sample pack, you can put absorbent pads to the test in your facility without making any commitments.

BRIGHTSORB™
Safety Absorbents
HIGH VISIBILITY FOR LOW LIGHT AREAS

Safety Absorbents

BRIGHTSORB™ High Visibility Absorbents and Spill Kits

Alert your employees to the presence of safety hazards with the use of absorbent products that feature printed safety messaging and bright coloring. These polypropylene pads and rolls can be used on a wide range of fluids and are chemically inert, so they will not react with aggressive fluids.

BRIGHTSORB™ High Visibility Family:

All BRIGHTSORB™ absorbents start with a highly absorbent polypropylene core. The incorporation of safety messaging helps promote a culture of safety by providing a reminder to employees in the area to exercise a greater level of caution. Bright coloring is easily visible - even in low light conditions. Convert your facility to a BRIGHTSORB facility!

▶ Liquids Absorbed:

- Water-based fluids
- Oil-based fluids
- Aggressive chemicals

▶ Popular Applications:

- Anywhere hazardous chemicals may be present
- Low light areas
- High traffic areas
- Areas where slips, trips and falls are prevalent
- Lining workbenches and work cells
- General manufacturing and production

▶ DID YOU KNOW? Slips, trips and falls...

- ... are one of the leading causes of unintentional injuries in the U.S., accounting for **approximately 8.9 million emergency room visits**¹
- ... account for **15% of all accidental deaths**, the second leading cause behind motor vehicles²
- ... lead to over **17% of all disabling occupational injuries**³
- ... **could be prevented with the right precautions**

BRIGHTSORB™ High Visibility Absorbent Pads & Rolls

- Polypropylene pads and rolls handle most fluids (water, petroleum and chemical-based) and will not react with aggressive fluids
- Tough 2-ply construction increases durability and reduces lint
- Pads are ideal for wiping or catching drips while continuous rolls are ideal for covering larger areas

Additional Features:

- **Perforated:** Select exactly the size you need
- **Dimpled:** Adds durability & reduces linting
- **Printed Message:** Warns of slip, trip and fall hazards
- **Bright Color:** Color-coded for safety even in low light

▶ Product Summary:

- Absorbs:** Acids, Bases, Oils, Chemicals, Solvents, Water-based Fluids, Unknown Chemicals
- Coverstock:** Safety Printed Top Coverstock (2-Ply)
- Durability:** ✓ ✓
- Linting:** Low Linting
- Absorbencies:** Heavy, Medium & Light Weight
- Cost:** \$ \$ \$

▶ Recommended For:

- Areas with slips, trips and fall hazards
- Foot traffic areas
- Drips and spills involving hazardous chemicals
- Any industrial application utilizing aggressive fluids

BRIGHTSORB™ High Visibility Spill Kits **new**

When a spill occurs, use spill kits for quick and efficient clean up.

Kits include everything you need to contain your spill – a variety of absorbents, PPE and instructions. These BRIGHTSORB™ polypropylene spill kits handle most fluids (water, petroleum and chemical-based) and will not react with aggressive fluids. Their bright color and printed message warn of the potential for slip, trip and fall hazards during spill clean-up.

BRIGHTSORB™ MAXX® Packs

- Mini-packs in resealable zipper bags
- 20 durable 2-ply pads
- Kit dimensions: 15.5"L x 19.5"W x 20.5"H

Contents:

- 20 pads (15" x 19")

Spill Kits & Containment

KEEPING YOU SAFE FROM UNEXPECTED SPILLS OR LEAKS

Spill Kits & Containment

Keeping you safe from unexpected spills or leaks

A proper spill containment plan can help create a safe and productive work environment for your employees. Brady SPC spill containment products help to prepare and protect any facility with solutions for unexpected accidents. Absorbent storage centers and spill kits provide fast-response solutions for unplanned spills of oils, solvents, coolants and other fluids. Brady SPC drains, spill decks, berms, pans and pallets also help ensure facility safety by catching, controlling and containing unexpected leaks, drips and spills.

▶ Liquids Absorbed:

- **Universal Absorbency:** Coolants, solvents, oils, paint and other water-based fluids
- **Oil Only Absorbency:** Oils, coolants, solvents and other oil-based fluids (repels water)
- **Chemical Absorbency:** Acids and bases, aggressive chemicals and other unknown chemicals

▶ Popular Applications:

- Accidental or unexpected spills
- Indoor and outdoor drain applications
- Drain pans for dripping valves or faucets
- Storing absorbent products at the point of need

Drain Protection

EPA regulations require that facilities prevent fluids from entering the environment. To effectively prevent run-off from reaching storm drains, make sure to have the appropriate drain protection on hand.

Drain Plugs

- Conical-shaped drain plugs made from chemical-resistant PVC keep spills from entering the drainage system and feature a “metal eye” for easy insertion or removal. Then just rinse and re-use when finished

Catalog #	Type	Size	Shipping Wt (lbs)	Pallet Qty.	Quantity
PLUG6	Drain Plug	6" Plug	6	50	1/case
PLUG4	Drain Plug	4" Plug	4	50	1/case
PLUG3	Drain Plug	3" Plug	3	50	1/case
PLUG2	Drain Plug	2" Plug	2	50	1/case

Drain Seals

- Resist water, oil and most aggressive fluids
- Easy application; soap and water cleanup for re-use
- SLIKSTOPPER drain seals are made from flexible, chemical resistant PVC and help prevent spills from flowing into drainage systems
- Spill Magnet Seals are backed with a strong magnet to tightly seal drains

Catalog #	Type	Size	Shipping Wt (lbs)	Pallet Qty.	Quantity

Spill Kits & Containment

Drip Pans and Mats

SPC spill containment products are designed with your efficiency in mind - keeping your employees and work environment safe from unexpected drum spills or leaks.

Drip Pans

- Durable, low profile, polyethylene drip pans easily fit under leaky drum spigots and other problem areas
- Pan and universal fill captures up to 3/4 of a gallon of liquid

Catalog #	Type	Size	Shipping Wt (lbs)	Pallet Qty.	Quantity
DPA24	Drip Pan	10" x 10"	6	20	24/case

Drip Pad

- Provide additional durability to your pads for tougher environments
- 22 oz pad is made of flexible PVC
- 30 oz pad is made of XR5 for additional strength under the toughest conditions
- Grommet included to allow pad to be tied down

Catalog #	Type	Size	Shipping Wt (lbs)	Pallet Qty.	Quantity
new DRIP1720-Y	22 oz Pad	17" x 20"	2	n/a	1/each
new DRIP1720-B	30 oz Pad	17" x 20"	2	n/a	1/each

Spill Decks & Pallets

SPC spill containment products help keep your employees and work environment safe from unexpected drum spills or leaks during storage and collection.

- **Solid Construction:** Injection molding ensures exceptional durability and consistent specifications
- **Standard Lip and Grate Heights:** Manufactured to standard heights to allow uninhibited movement
- **Nestable:** Remove the grates and stack for storage
- **Grate Pins:** Pins keep the grates in place during use and prevent the walls from bulging
- **Interchangeable Grates with Large Openings:** Removable grates can be used with spill decks or spill pallets (even between two and four drum pallets)

Forklift Friendly:
Easily re-locate your decks or pallets

Spill Decks

- Low profile, 21.2 gallon capacity, 2-drum spill decks
- Contain hazardous leaks in your drum storage and dispensing areas
- Built-in clips easily connect multiple decks – creating a 4, 6, 8 or more drum storage platform

Catalog #	Type	Size	Absorbency Capacity (gal)	Load Cap. (lbs)	Shipping Wt (lbs)	Pallet Qty.	Quantity
SC-SD2	2 Drum Spill Deck	26"W x 52"L x 6"H	21.2	2,500	31	15	1/each
SC-DK	Sump Drain Kit to share capacity across multiple decks				2	100	1/case

Spill Pallets

- Comply with governmental secondary containment regulations
- Capacity up to 128 gallons
- 2-drum or 4-drum configuration

Catalog #	Type	Size	Absorbency Capacity (gal)	Load Cap. (lbs)	Shipping Wt (lbs)	Pallet Qty.	Quantity
SC-DP4	4-Drum Spill Pallet	52"W x 52"L x 17"H	128	2,200	89	10	1/each
SC-DP2	2-Drum Spill Pallet	26"W x 52"L x 17"H	68	1,100	46.5	10	1/each
SC-DPR	Spill Pallet Ramp	32.5"W x 70"L	n/a	650	47.5	3	1/each

Easy loading ramp (sold separately) works with both the 2-drum and 4-drum spill pallets.

Spill Kits & Containment

Spill Berms

These collapsible secondary containment berms can be used to contain spills and leaks from vehicles, machinery, tanks, drums and other industrial equipment.

Foam Side Wall Berm

- Portable, lightweight, flexible - folds up for storage and transport
- Simple and easy to clean and maintain, re-usable
- Requires no assembly, tools or inflation - unfold and use immediately!

Catalog #	Type	Size	Absorbency Capacity (gal)	Shipping Wt (lbs)	Quantity
new FW181804-Y	Foam Berm	18" x 18" x 4"	5	2	1/each
new FW242404-Y	Foam Berm	24" x 24" x 4"	9	2.4	1/each
new FW363604-Y	Foam Berm	36" x 36" x 4"	20	3.8	1/each
new FW484804-Y	Foam Berm	48" x 48" x 4"	36	5.5	1/each

Are You Prepared?

Absorbent programs should have both general maintenance absorbents and emergency spill response products on hand at all times for proper protection.

Emergency Response Spill Kits to handle any type of spill.

Accidents happen, so it's better to be prepared. Brady SPC offers a complete selection of spill kits in a variety of types and sizes to equip you with everything you need to clean-up spills when they occur. Quickly and easily clean-up oils, solvents, coolants and other fluids. They are ideal for fast response to critical accidents.

▶ Liquids Absorbed:

Universal	For oil, water-based and chemical liquids
Oil Only	For oil and petroleum-based liquids
Mixed (Universal & Oil Only)	For indoor/outdoor use. Kits contain both all-purpose universal absorbents and water-repellent oil only absorbents for petroleum and oil-based liquids
Chemical	For aggressive and hazardous liquids
BRIGHTSORB™	For all liquids. Bright Safety messaging signals to those in and around the spill containment area to exercise caution.
Re-Form	Universal absorbents that are eco-friendly
TAA Compliant	Complies with the Trade Agreements Act

Where should Spill Kits be located?

Worker productivity and efficiencies can be improved dramatically by strategically placing spill kits or absorbent storage centers around the facility, closer to areas of need. For both emergency response and routine maintenance and safety, employees should not be wandering away from their workstation to the other side of the plant or tool room to find the absorbent materials they need.

Freight Vehicles

Plant Floor

Maintenance Areas

Trade Agreement (TAA) Compliant Kits

GSA Schedule Contracts are subject to the Trade Agreements Act (TAA), meaning all products listed on the GSA Schedule Contract must be manufactured or "substantially transformed" in a "designated country." The designated countries are comprised of:

- World Trade Organization government procurement agreement countries
- Free trade agreement countries
- Least developed countries & Caribbean basin countries

► Spill Procedure Guide: What To Do When A Spill Occurs

When a spill happens, time is of the essence to make sure quick and safe clean-up occurs. Here are some helpful hints to make sure you, your employees and the environment are protected.

1. Risk Assessment

Evaluate the type of material spilled and identify the source. If you are NOT familiar with the liquid and its chemical properties, vacate the area and contact proper authorities.

2. Protective Clothing

Wear the appropriate protective gear for the situation. If the source or the material is not identifiable, assume the worst.

3. Containment

Contain the liquid and seal drains.

4. Stop the Source

Close valves, rotate punctured drums and plug leaks where it is possible and safe to do so.

5. Begin Clean Up

Use Brady SPC absorbents to absorb spilled liquids.

6. Contact Authorities

Report the spill to proper legal authorities in your community. Be sure to fill out all necessary reports in accordance with local laws.

7. Disposal of Used Material

Absorbent materials take on the characteristics of whatever they absorb. Be sure to dispose of used absorbents and spilled liquids in accordance with local laws.

8. Decontaminate

Clean all tools and reusable materials properly before reuse.

9. Restock Materials

Replace absorbent materials and safety equipment used in any clean-up operation.

10. Review Contingency Plans and Procedures!

PLEASE NOTE: THE SPC SPILL KIT IS A STOP-GAP MEASURE FOR MINOR SPILL CLEAN-UP. IF A SERIOUS SPILL OCCURS, CONTACT LOCAL AUTHORITIES FOR DIRECTION AND ASSISTANCE FOR THE PROBLEM. DUE TO THE POSSIBLE TOXIC AND HAZARDOUS FLUID ABSORBED, BRADY DOES NOT RECOMMEND DISPOSAL PROCEDURES.

Medium Spill Response: 30-Gallon Spill Kits

Looking for something a little larger? Look no further than the 30 gallon kit. Absorbing up to 36 gallons, these kits are perfect for medium-sized spills. Store throughout your facility - particularly in areas where fluid transfer is prevalent.

30-Gallon Spill Kit

- UN-approved water and chemical resistant polyethylene container with screw top lid for medium response
- Refill kits are available for easy re-stocking after a spill
- Absorbs up to 29 gallons per kit
Kit dimensions: 21.125" Dia. x 28.5"H

Contents:

- 25 pads (15" x 19")
- 6 SOCs (3" x 12')
- 6 pillows (9" x 9")
- 3 disposal bags
- 1 pair goggles
- 1 pair of nitrile gloves
- Emer. Response Guidebook

Medium Spill Response: 55-Gallon Spill Kits

55 gallon spill kits are essential in any facility. Keep them near entrances and exits for emergency deployment to prevent facility spills from entering the environment.

Available with **BRIGHTSORB™**
High Visibility Absorbents

Also available as a
wheeled spill kit

55-Gallon Drum

- Lever locked 55-gallon drum meets UN specifications and is ideal for medium spills
- Refill kits are available for easy re-stocking after a spill
- Absorbs up to 38 gallons per kit
- Kit Dimensions: 24"Dia. x 37"H
Wheeled Kit Dimensions: 23"Dia. x 37"H

Contents:

- 50 pads (15" x 19")
- 4 SOCs (3" x 12')
- 8 pillows (18" x 18")
- 5 disposal bags
- 1 pair goggles
- 1 pair nitrile gloves

X-Large Spill Response: Mobile Spill Trucks

In the event of a substantial spill, keep your facility prepared. Mobile spill trucks are filled with all of the essentials you'll need for major spill clean-up.

Mobile Spill Truck - Large

- Wheel mounted polyethylene bins are chemical and water resistant. Spill trucks provide the highest level of readiness
- Absorbs up to 169 gallons per kit.
- Kit Dimensions: 47”L x 34”W x 43”H

Contents of SKA-LT, SKH-LT and SKO-LT:

- 200 pads (15” x 19”)
- 24 SOC's (3” x 4’)
- 12 SOC's (3” x 12’)
- 8 pillows (17” x 19”)
- 15 disposal bags
- 1 pair goggles
- 3 pair nitrile gloves
- Emer. Response Guidebook

Contents of

SKM-LT Marine Kit:

- 400 pads (15” x 19”)
- 4 booms (5” x 10’)
- 1 sweep (19” x 100’)
- 15 disposal bags
- 6 pairs of nitrile gloves
- 1 pair goggles
- Emer. Response Guidebook

Mobile Spill Truck - X-Large

- Mobile spill response kit in water/chemical resistant large bin
- Absorbs up to 282 gallons per kit
- Kit Dimensions: 57.5”L x 40.5”W x 47”H

Contents of SKA-XLT, SKH-XLT and SKO-XLT:

- 250 pads (15” x 19”)
- 36 SOC's (3” x 4’)
- 20 SOC's (3” x 12’)
- 8 pillows (18” x 18”)
- 30 disposal bags
- 3 pairs of nitrile gloves
- 1 pair goggles
- Emer. Response Guidebook

Contents of

SKM-XLT Marine Kit:

- 600 pads (15” x 19”)
- 8 booms (5” x 10’)
- 1 sweeps (19” x 100’)
- 15 disposal bags
- 6 pairs of nitrile gloves
- 1 pair goggles

Facility Safety Products

Facility Safety Products

Brady offers a complete line of products and solutions to keep your facility safe, productive and compliant. Products including cones, warning tapes and signs help to communicate important safety and facility messages.

Handy Cone™ Floor Signs

- Collapsible, spring-loaded, pyramid-shaped sign sets up in seconds
- Stored in a 2" diameter tube

Catalog #	Description
47380	31" Warning - People Working
47382	31" Caution - Wet Floor/Piso Mojado
47372	18" Caution - Wet Floor

Reversible Floor Stands

- Alert employees and visitors of potential floor hazards
- Made of lightweight corrugated polypropylene material (B-836)
- Size: 12" wide x 20" h (closed)

Catalog #	Description
92280	Caution - Slippery When Wet/Wet Floor

Traffic Cones and Snap-On Signs

- Flexible, durable warning cone in a high visibility fluorescent orange color
- Plastic snap-on signs are designed to fit on top of traffic cone like a paperclip

Catalog #	Description
80111	18" Orange Vinyl Cone
80118	10 1/2" H x 12 3/4" W Black on Orange WET FLOOR Snap-On Sign

Reinforced Barricade Tape

- Provides fast on-the-spot warning
- 250 lbs tensile strength

Catalog #	Legend	Size	Qty.
91100	CAUTION	3" x 500'	1 roll
91102	CAUTION DO NOT ENTER	3" x 500'	1 roll
91104	CAUTION	3" x 500'	1 roll

BradyLink Warning Posts

- Non-conductive, non-rusting, fillable domed base
- Post dimension: 3" dia. x 41"H post, 16" dia. base

Catalog #	Description	Color
92116	Black Large Post	Black
92117	White Large Post	White
92118	Yellow Large Post	Yellow

BradyLink Warning Chain & Links

- Polyethylene chain designed to prevent kinking
- Chain links used to permanently attach or repair lengths of chain

Catalog #	Description
78241	100' Orange Chain
78239	100' White Chain
78238	100' Yellow Chain
78246	2" Chain Links (36/package)

In an effort to reduce shipping costs for our customers, pallet quantities may vary.

DISCLAIMER: The above properties are "nominal" values used for PROCESS CONTROL when the product is produced and/or inspected. Performance "nominals" may vary depending upon the specific application, and/or the environment being applied, stored, or shipped. The "Absorbency" Spec and "SPCTM004" test method is based on the protocol of ASTM F726, using SAE20 non-detergent as the Oil Type, medium viscosity.

Brady warrants only to the buyer that the products and parts set forth herein will be free from defects in material and workmanship from the date of purchase for a period of one year. Brady's sole obligation under the above warranty shall be to repair or replace the defective products or parts during the warranty period. NO OTHER WARRANTIES, EXPRESS OR IMPLIED, ARE GIVEN, AND BRADY EXPRESSLY DISCLAIMS ALL OTHER WARRANTIES, INCLUDING AND WITHOUT LIMITATION, ANY IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. All statements, technical information, or recommendations relating to the products or parts are based upon tests believed to be reliable, but do not constitute a guaranty or warranty. BRADY SHALL NOT UNDER ANY CIRCUMSTANCES WHATSOEVER BE LIABLE TO ANY PARTY FOR LOSS OF PROFITS, DIMINUTION OF GOOD WILL, OR ANY OTHER SPECIAL, CONSEQUENTIAL, OR INCIDENTAL DAMAGES WHATSOEVER WITH RESPECT TO ANY CLAIM IN CONNECTION WITH BRADY PRODUCTS AND/OR PARTS. Brady's maximum liability for warranty claims is limited to the invoice price of the product or price claimed defective. PRICES AND AVAILABILITY ARE SUBJECT TO CHANGE WITHOUT NOTICE. In an effort to reduce shipping costs for our customers, pallet quantities may vary.
