

## BRADY WORKSTATION Desktop Apps for Labeling and Safety Identification

[www.bradyid.com.sg/workstation](http://www.bradyid.com.sg/workstation)

The new &  
simple way to  
think about  
App-based  
label creation  
on your PC!

The latest in label creation software, Brady Workstation has revolutionized the way you create labels on your PC. Instead of using a CD to upload label-making software on your computer, you simply download the Brady Workstation platform to your desktop and add the label-creation apps you want.

It's built to be simple, with a variety of easy-to-use apps for several applications. Each app walks you through the necessary steps to efficiently create your own signs, pipe markers, lockout procedures and labels, giving you time to spare for other projects. It also includes built-in regulations and standards to help you stay compliant.

### The Steps are Simple:

1. Download Brady Workstation at [www.bradyid.com.sg/workstation](http://www.bradyid.com.sg/workstation)

2. Fill the workstation with the apps you want

3. Save time by quickly designing and printing labels!

### Printer Compatibility

Print your labels on Brady's BBP®31, BBP®33, BBP®85 and GlobalMark®2 printers. Don't have a printer? Email [bradyintl@bradycorp.com](mailto:bradyintl@bradycorp.com) for printing.

SIGN & LABEL PRINTER

**BBP®33**  
LABEL PRINTER

**BBP®85**  
LABEL PRINTER

## Brady Workstation Apps

Once Brady Workstation is downloaded to your PC, you can choose which apps you want and leave out the ones you don't. Additional apps will continue to be released to align with common industrial labeling needs. Some apps are free, while others are paid with the option of a 14-day free trial.

There are six apps currently available to download (as of January 2015):

### Pipe Marker App

Easily comply with the latest pipe marking standard, ANSI/ASME 13.1 2007. This app allows you to create the customized pipe markers you need, then save them to use again whenever you want more.

### Arrow Tape App

Beyond creating a pipe marker, you need to know what direction the pipe contents are flowing. With this app, create a strip of repeated arrows or icons to wrap around your pipe and show content direction.

### Custom Designer App

Design anything you can imagine. Start with a blank canvas and create a label or sign that meets your needs. Add barcodes or QR codes, import data from Excel and more!

### GHS Labels App

Creating GHS labels is now amazingly simple. Enter your SDS data one time, and you can create any size label and print it at any time.

### Lockout Writer App

Quickly create compliant lockout/tagout labels. This app includes procedure printing templates, simple translations, easy-to-use image editing for callouts and import capabilities from Lockout-Pro™ software.

### Express Signs App

Create your signs in no time – Simply pick a template, enter your info and it's ready in minutes. Don't like the layouts? Adjust them. Don't worry, we won't make you redo your work.

**Try it today! Download Brady Workstation at [www.bradyid.com.sg/workstation](http://www.bradyid.com.sg/workstation). For more information, call your local Brady representative below.**
